Foreword

The IDO Presidium has completely revised the structure of the IDO Dance Sport Rules & Regulations. For better understanding, the Rules & Regulations have been subdivided into 6 Books addressing the following issues:

- **Book 1** General Information, Membership Issues
- **Book 2** Organization of IDO Events
- **Book 3** Rules for IDO Dance Disciplines
- **Book 4** Code of Ethics / Disciplinary Rules
- **Book 5** IDO Officials and Judging
- **Book 6** Financial Rules and Regulations

**IDO Dancers are advised** that all Rules for IDO Dance Disciplines (Section 8 of the previous edition) are now contained in Book 3 ("Rules for IDO Dance Disciplines") without any change in the wording of any rule.

**IDO Adjudicators are advised** that all "General Provisions for Adjudicators and Judging" (previously: Section 6) and all rules for "Protocol and Judging Procedure" (previously: Section 7) are now contained in Book 5 Section 3 ("Adjudicators and Judging") without any change in the wording of any rule.

This is the official version of the IDO Dance Sport Rules & Regulations passed by the AGM and ADMs in June 2017. All rule changes after the AGM/ADM 2017 are marked with the Implementation date in red. All text marked in green are text and content clarifications.

BOOK 2  ORGANIZATION AND CONDUCTION OF IDO EVENTS

SECTION 1  DEFINITION OF IDO EVENTS

1.1  IDO EVENTS

1. IDO Events are competitive Dance Sport Events, in particular championships and cups, which are organized and conducted under the rules and conditions contained in the IDO By-Laws, these Rules & Regulations and the respective IDO Event Contract.

2. IDO Events are organized by an Organizer contracted by the IDO Presidium. IDO Events must be supervised by an IDO Supervisor and must be conducted under the IDO rules for scrutinizing and adjudicating.

3. All IDO Events, Competitions, Cups etc. are announced on the IDO web site in a timely manner. All necessary application forms are attached to these Rules and may be found on the IDO web site.

IDO does not guarantee that particular events, in particular championships or cups, will be held regularly or at any given year.

4. Unless regulated otherwise, IDO Events are open to dancers which are duly enrolled by their IDO National Member Organization. Enrolments must be made through the DIES Direct Internet Enrolment System.

5. Competitions at IDO Events will be held and Adjudicated under the IDO Dance Sport Rules (Book 3 Of these Rules & Regulations) in their current version. The levels of championships are the following:

b) For category title: In each discipline, age group and category, the minimum of 6 entries from 4 different countries (which will be checked from the result lists on the IDO website).

In case of a long term contract, this rule will also apply. This means the IDO Sport Director and the Organizer will negotiate one year before the event regarding the titles being granted, following the principles of the rule above.

A championship title cannot be granted if it is a first time competition in a new discipline, age group or category.

The above restrictions do not apply to World or Continental Cups.

Exceptions are possible by the Sport Director, with the approval of the IDO Presidium.
1.2  IDO APPROVED EVENTS
(COMPETITIVE OR NON-COMPETITIVE EVENTS REGISTERED BY IDO)

When a Dance Competition, Dance Festival or other Dance related event wishes to obtain IDO recognition, the following rules must be met and adhered to in order to receive the IDO’s sanction.

1. Application must be made through the Sport Director at least one (1) year prior to the event, and all fees must be paid when the application is made.
2. The event must not be in conflict in dates with any other IDO or IDO recognized event.
3. The title of the event must be clearly stated in the initial application and in no way should suggest or be in conflict with any Official IDO Titles.
4. When the rules governing a competition differ from those printed in the IDO Rules Book, they must be clearly stated in printed form and also be listed at their web site, at least six (6) months prior to the event. The IDO will retain the right to alter or refuse to accept any rule that is not in the best interest of all participating dancers.
5. All start or entry fees must be acceptable to the IDO and clearly published no later than six (6) months prior to the event.
6. All Adjudicators must be approved by their National Federation.
7. Only dancers enrolled through IDO Member Organizations may take part in IDO approved events.
8. All events must have a Supervisor, appointed by the IDO.
9. IDO Supervisor will be reimbursed as specified in the Rules Book.

1.3  GUIDELINES FOR LICENSED COMPETITIONS

Any organization, company, corporation or individual that organizes Dance Sport Competitions in Dance disciplines administrated by the IDO but are normally not involved in IDO activities, can apply to have such Dance competitions licensed by the IDO under the following conditions:

1.  The Organizer must be approved by the IDO Presidium.
2.  All events must have a Supervisor, appointed by the IDO.
3.  IDO Supervisor will be reimbursed as specified in the Rules Book.
4.  The rules that are used for the competition may be IDO rules and if so it should be stated, and clearly published, at the Organizer’s web site and otherwise where suitable.
5.  If rules other than IDO are used, such rules including how much the enrolment fee is, must be announced and clearly published at the Organizer’s web site and otherwise where suitable.
6.  The titles granted at any Licensed Competitions cannot be the same as any titles utilized by IDO.
7.  The date of the competition must not collide or interfere with any official IDO events for the same or similar disciplines, such as World and Continental Championships, along with World and Continental Cups. Final determination will be made by the IDO Presidium.
BOOK 2 ORGANIZATION AND CONDUCTION OF IDO EVENTS

If the above standing is fulfilled, the IDO will support the competition by:

1. Allowing IDO competitors to enroll for the competition.
2. Allowing IDO adjudicators to Adjudicator the competition.
3. Announce and advertise the competition at the IDO website, and encourage participation.

1.4 IDO FESTIVAL (NON-COMPETITIVE EVENTS)

Festival is defined as any event including concerts, performances, workshops, lectures and other related fields. If this is a competitive event it must be handled as defined in the IDO events.

1. Folk Dance Festivals are defined as:

   The purpose of this event is to bring interested dancers of the world together, to present their skills and special dance traditions and national pride to an interested audience and public. The purpose is not competitive but to socialize and make new friends with the same interest. The IDO will start this type of event with Folk Dance.

2. The venue should be large enough to hold the final festival and possibly be held in an outdoor facility to present different shows during the Festival. This event will not be competitive but an all round award could be presented.

3. A Folk dance festival must have an IDO Supervisor, who is approved by the IDO Presidium.

4. It is hoped that since the Organizer does not have to pay for a judging staff, the monies usually allocated for Adjudicators be returned to the participating countries on an equal basis. This will be negotiated by the Supervisor and the Organizer.

5. Financing of the different parts of the Festival:

   5.1. The participants will travel at their own expense

   5.2. To provide or help with expenses of travel, etc. of all participants as outlined above

   5.3. In the beginning, this event will be invitational with all participants sharing in a common expense fund.

   5.4. The dancers will perform at various venues in nearby cities and villages to promote the final Festival Event.

   5.5. After the invitations have been issued, applications will be accepted by a decision of the Folk Dance Committee.

   5.6. Live music is preferred and encouraged but other forms of music will be considered.

6. Evaluations will made by the leader of each group. No leader will evaluate his/hers own dancers.

Example: With 10 performers, each performance will be evaluated by 9 leaders who will distribute the awards. No Adjudicators will be used.
BOOK 2 ORGANIZATION AND CONDUCTION OF IDO EVENTS

SECTION 2 ORGANIZATION OF IDO EVENTS

2.1. SCOPE OF IDO EVENTS

An “IDO Event” is the “entire” event: It begins with the opening of the doors on the first day to register and check in the dancers who will compete in the competition, including checking the names of the participants, handing out the start numbers, giving information, etc. The event ends when the last dancers have left the venue at the end of the presentation of the winners.

In addition all necessary organizational structures, such as check in for hotel accommodation, or collecting vouchers, etc., from another desk before the dancer’s Check In is also included.

Competition is defined as “one dance contest” included in the event, for example: Show Dance, Riesa has 17 competitions: 6x adults – 5x juniors – 5x children + production.

2.2. APPLICATION FOR AN IDO EVENT

IDO will grant the right to run IDO Events to individuals or organizations in conjunction with the National IDO Member. For information and application, please contact the IDO Sport Director listed in the IDO web-site.

1. If an IDO National Member Organization or an individual with the cooperation with the IDO National Member Organization wish to organize an IDO event, they should contact the IDO Sport Director in written form, with a business plan, including finances, venues, dates and projected schedule. Any oral or spoken agreement between individuals or organizations and IDO Officials will not be binding or official.

2. Upon receipt of an Event Request, the IDO Sport Director will negotiate with the Organizer directly to prepare an Event Contract.

3. The Event Contract must then be signed by the Organizer and the IDO National Member Organization in the country where the Event is to be held, and must also be signed by the IDO President and the IDO Executive Secretary.

4. The Sport Director will contact the dance committee chairperson of the discipline involved, for mutual cooperation.

5. Afterwards, the Event Contract will be presented to the IDO Presidium before being signed.

6. When the IDO Event Contract is signed the Sport Director will appoint a Supervisor and the Adjudication Director will appoint a Chairperson of Adjudicators.

7. The Supervisor will take up contact with the Organizer to assist in organizing the event.

8. All press, TV, film, video or other rights pertaining to IDO Sanctioned Events belong to IDO, which may, via written permission, grant these rights, totally or in part, to the Organizer.

The following code should be used in determining the Official Status of all Events on the web site:

Penciled: The Organizer has asked for the time slot and Event but has not made official application, paid the fee, nor signed the contract.

Application: The Organizer has made official Application but not yet paid the fee nor signed the contract.

Contract: The Organizer has signed the contract, paid the necessary fees and has been granted official recognition by IDO.
1. Unless special circumstances exist, Events will not be granted later than 6 months (½ year) before the Event. Events should be applied for at least 18 months (1½ years) in advance, but exceptions due to special circumstances may be granted by the Presidium.

2. When an IDO contract is sent out, the IDO Sport Director will see to it that it is returned in a timely manner. If not by the deadline date, a reminder will be sent. If the contract, including all applicable fees, is not returned by the date specified in the reminder, the Presidium may cancel the event.

3. The Organizer must open up a web site as soon as possible but no later than six (6) months before the event, with all necessary information published. Organizers web site for an official IDO competition has to be in English as well as the native language.

2.2.1 IDO COMPETITION BIDDING PROCEDURE

Introduction
The positive image of dance and its reputation is best represented by the quality of the organization of the major IDO events and its recognized events. Consequently, each National Member Organization seeking to organize the IDO Dance Championships or Cups must be aware and fully informed of the rules, regulations and standards made on it by the IDO at the time of bidding.

The procedures contained in these documents have been drawn up to assist any potential Organizer prepare its bid and understand its obligations towards the International Dance Organization.

The intention of the IDO is to provide a consistency in the way its Championships and Cups are organized and presented, and by doing so eliminate unnecessary costs that are often incurred by the Organizers.

By introducing this new procedure, the IDO is seeking to ensure that most uncertainties are removed when an event is allocated. If the demands of organization cannot be fulfilled, then it is best that a potential Organizer desists from bidding until it is truly ready.

The IDO Sport Director is always available to advise and assist any potential bidder before a formal application is made. In many cases, important and relevant experience can be gained from organizing a lesser event before seeking to stage a major IDO Dance Championship, and this is a path that is recommended to new Organizers.

Basic Considerations

1. Any bid to organize an IDO Dance Competition must have the endorsement and full support of the IDO National Member Organization.

2. A guarantee from other official bodies within the country, for example government, local council or IDO National Member Organization, must be given in writing at the time of bidding and confirming that all costs are underwritten and no claim will be made against the IDO. In addition, each bidding federation must demonstrate the political stability in its country and describe the security and public health resources allocated to protecting the event.

3. One fundamental consideration is to be sure that all parties are aware of and accept their responsibilities in the organizing of an event. This includes assuming the related costs. If these responsibilities are understood at the time of bidding for an IDO Dance Competition then there is little risk of unpleasant surprises.

4. These bidding documents have been drawn up as a guide for all Organizers of important competitions to insure that the principles and obligations contained therein are respected at all IDO competitions and events.
BOOK 2 ORGANIZATION AND CONDUCTION OF IDO EVENTS

5. By applying these procedures the IDO Sport Director intends to allocate the organization of its World and Continental Dance Championships two years in advance, thereby giving Organizers sufficient time to conclude all agreements and arrangements related to organizing the event and its promotion worldwide.

Competition Calendar
IDO strives to be represented and demonstrated in a professional manner which it manages its major events in its calendar. To ensure consistency an annual competition calendar will be drawn up applying a number of basic criteria.

The IDO Continental Dance Championships will be held in the time period May to July and the IDO World Dance Championships in the time period September to December.

Currently, IDO Dance Championships are generally organised in different time periods. On the one hand the fixed calendar could limit the opportunities for existing Organizers who are not able or willing to change the dates of their current competitions.

It is in discretion of the Sport Director to decide how to handle special cases that could be seen as a unique opportunity to create new events in new markets.

Choice of Venue
1. An important part of the selection process will be related to the proposed venue.
2. A number of criteria are included in the IDO Organizer contract which forms part of these bidding documents. More details are contained in the Bidding Application Form.
3. In addition to the physical requirements of the venue, it is important that the venue has been checked by an IDO licensed Supervisor or Presidium member that has been delegated by the Sport Director. All costs (travel, hotel and per diem) must be paid by the National Member Organization or Organizer that is applying for the IDO event. When necessary the Organizer that is bidding for a competition should organize a meeting with the meeting with the sports hall management, major, President of national member organization... It is in discretion of the Organizer to inform the Sport Director as well as the Supervisor of how many days they need an IDO official to be present. All additional days need to be paid as well.
4. Also very important is that there is support from the local community to ensure that there is an exciting atmosphere within the venue to demonstrate support and enthusiasm for the event. Dancers representing a country in an International IDO Competition must reside in or be a citizen of the country being represented. For countries whose territory extends on two continents, the geographical borderline is decisive for the participation in continental competitions. Participation in Continental Championships or Cups requires residency or citizenship of the dancers on the respective continent. For the participation in World Championships or World Cups the national member may elect dancers from either continent or both continents.  *(AGM 2017, Implementation 1.9.2017)*

Specific conditions that must be met to represent a country: In order to represent a country, a dancer must prove that he or she has resided in that country for at least two (2) years.

Upon receipt of a written request from a dancer that he or she been allowed to represent his or her current country of residence prior to having resided in that country for 24 calendar months, the IDO Presidium may grant special dispensation to make such a change.

A citizen of one country who resides in another country may be eligible to represent either country. However, once a dancer has declared which country he or she will represent, the IDO Presidium must approve any subsequent changes.

**Dual Nationality (2 passports)**

In the case of dual nationality the dancer is free to choose which country he/she wants to represent. If a dancer wants to change his/her representation to his/her second nationality, the IDO Presidium must be asked in written form. Any change back may only be made after a 12 months period.

### 3.2 NUMBER OF ENTRIES PER NATION (EPN)

**Championships**

The number of competitors to be invited will be proposed by the Organizer and ratified by the IDO Sport Director.

**Wild Card**

The Organizer may invite one additional “dancer group” from their own city, region or country in each discipline, category and age division.

**Defending Champion**

1. A soloist who wins a World Championship title is entitled to defend that championship title, in the same discipline, the following year. If their age range changes they may defend the title in the next higher age division.

2. A duo or couple who wins a World Championship title is entitled to defend that championship title, in the same discipline the following year. If one or more of the duo’s age range changes, they may defend the title in the next higher age range.

3. In the case of small groups and formations, it is the team name that defends the title. The dancers in the small group and formation may change but they must all be within the rule regarding age. A small group or formation cannot advance to the next age level when defending a championship title.

4. Continental Championships will use the same rules as those above governing World Championships.

5. In the case, a Championship is not run in a calendar year, the Defending Champion may defend his/her title in the next Championship in that discipline. In the event their age has advanced, they may then compete in the next age level up.
World Cup

The first, second and third place winners of any IDO Couple Dance World Cup Competition will be granted the right to an additional entry in the next IDO Couple Dance World Championship featuring the same discipline.

3.3 CORRECT USAGE OF TITLES

1. The title of each IDO Competition or Championship must include the full title of the Event, including the Discipline and Year of Victory, such as:
   - World Disco Dance Championship 2014
   - OR -
   - World Tap Dance Championship 2014

2. Where the competitors are NOT Adults, the title must also include the Age Division, such as:
   - Junior World Disco Dance Championship 2014
   - OR -
   - Children's World Tap Dance Championship 2014

3.4 AGE DIVISIONS

The following age divisions will be used in all IDO Events:

<table>
<thead>
<tr>
<th>AGE DIVISION</th>
<th>AGE RANGE (years of birth listed below are for competition year 2018)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mini Kids</td>
<td>7 and under (born in 2011, 2012, 2013 ...)</td>
</tr>
<tr>
<td>Adult 2</td>
<td>31 and over (born in 1987 and before)</td>
</tr>
<tr>
<td>Senior</td>
<td>50 and over (Belly Dance /Oriental) (born in 1968, 1967, 1966,...)</td>
</tr>
</tbody>
</table>

On occasion an Organizer may run a competition for Mini Kids, Senior’s and/or Adult 2.

It is not possible to compete in the same discipline and category in two different age divisions during one calendar year.

Example: A couple competing in Salsa Adult 2 competition cannot compete in Salsa Adult competition in one year, but can compete in Bachata Adult competition.

In Mini Kids division Championship title cannot be given. The highest title is Mini Kids Dance Star Champion.

Adult 2, groups and formations, may be in any of IDO's disciplines at the discretion of the Organizer. Adult 2 shall be at least 31 and over in the year of competition and where applicable in all disciplines, no exceptions.
BOOK 2  ORGANIZATION AND CONDUCTION OF IDO EVENTS

The Official Continental and World Championship title will always be in the Adult 1 Division. For Children, Juniors and Adults 2, the title must be defined with the age division. Example: Children World Tap Dance Championship 2014.

It is not possible to compete in one discipline and one category in two different age divisions at the same competition event.

Example: If a dancer competes in Disco Mini Kids solo he/she cannot compete in Disco Children Solo category, but can compete in Disco Children Formation.

DETERMINING ONE’S AGE DIVISION

A competitor’s age division is determined by his or her year of birth as it falls within the calendar year of the competition.

a. For Duos or Couples, the eldest partner’s date of birth determines the age division. A partner no more than two years younger than the lower age limit may dance in an older division, but the age span cannot exceed three years.

Example: One dancer is 10 and one is 13, they may dance in the Junior Division but if the younger dancer is only 9 they may not.

NOTE 1: While younger dancers may dance ‘up’ a division, the reverse is not possible and older dancers may not dance ‘down’ a division.

NOTE 2: A younger dancer who dances ‘up’ a division as outlined under the rules, such as a child of 11 dancing in the Junior Duo division, MUST dance in that age division in that category for the reminder of the competition year. He or she may NOT dance in the Children’s division with a different partner, but he or she COULD dance in the younger (children’s) division in Groups or Formations.

Once a dancer has chosen to move up an age level in a specific category, such as Tap Duo or Jazz Duo, he/she must remain in that age division until the end of year and not move back.

Dancers are permitted to dance in two specific age divisions only under the following conditions: A dancer cannot dance in both Junior Show Dance Duo and Adult Show Dance Duo, i.e. two different age divisions of the same discipline and category. However he/she may remain in the same age division of all other specific categories, until they reach their next age level.

Example: A child age 10 or 11 may dance in JUNIOR Show Dance Duo and still participate in all Children categories Show Dance Solo, Disco Dance Duo, Hip Hop Group, Tap Formation but NOT CHILDREN Show Dance Duo.

b. In Trio, Groups, Team and Formations a dancer no more than two years younger than the lower age limit may dance in an older division. This rule shall apply to all Age Divisions of Trio, Groups, Teams, Crews or Formations, except the Adult 2 and Senior Division, with the following restriction: Not more than 50% of the dancers in the Trio, Group, Team, Crew or Formation can be two (2) years or less younger than the actual age division. The age of all other dancers in the Trio, Group, Team, Crew or Formation must fall within the specified age range.

NOTE 1: While younger dancers may dance ‘up’ a division, the reverse is not possible and older dancers may not dance ‘down’ a division.

Once a dancer has chosen to move up an age level in a specific category, he/she must remain in that age division until the end of year and not move back.
Dancers are permitted to dance in two specific age divisions only under the following conditions: A dancer cannot dance in both the Junior Show Dance Group and in the Adult Show Dance Group, a dancer may not dance in both Junior Hip Hop Formation and Adult Hip Hop Formations, i.e. two different age divisions of the same discipline and category. However he/she may remain in the same age division of all other specific categories, until they reach their next age level.

Example: A child age 10 or 11, may dance in JUNIOR Show Dance Small Group and still participate in all Children categories Show Dance Solo, Disco Dance Duo, Hip Hop Group, Tap Formation but NOT CHILDREN Show Dance Group.

The Organizer has the right to establish a Children’s Divisions under age 7, as long as it runs in conjunction with a Children’s Competition ages 11 and under. This will be called “Mini Kids”

3.5 REPLACEMENT OF A DANCER DURING A COMPETITION

4. Any accommodation and transfer services provided will be at the competitors’ expense.

3.12 **RULES GOVERNING COSTUMES, MAKE-UP, MOVEMENTS AND THEMES**

1. **GENERAL COSTUME RULES FOR ALL AGE DIVISIONS**

Costumes must cover the intimate parts of the dancer’s body during the whole performance. *Intimate parts*: buttocks, bust and pubic areas (see picture 1)

The intimate parts of the body must be covered with non-transparent material of any color except tan or flesh color. When transparent material is used to cover these areas, it must be lined with non-transparent material.

a. **LOWER BODY:**

   *Buttock*: The buttock is defined as the area from the crease between the leg and bottom up to the hip line across the body.

   *Hip line*: panties top line (how low) Straight horizontal line, top of line between buttocks muscles (interlineal line) **must not** be visible.

   *Panty Line*: panties bottom line (how high)

   The panties’ hip line should be high enough to completely cover the vertical crease between the buttocks.
BOOK 2  ORGANIZATION AND CONDUCTION OF IDO EVENTS

The panties should cover the entire buttock in the back side (see pictures 2 and 3). In the front, the panty line should follow the line between the body and flexed leg. The distance from the hip line to the panty line should be at least 5 centimeters (2 inches) when measured from the side (see picture 1).

Abbreviated bikini bottoms, thongs, thong appliqués and any shorts imitating a thong look are prohibited in both males’ and females’ costumes. The dancers should make sure their costumes fit properly, as ill-fitting shorts or panties can wedge or otherwise expose the buttock in a way that is prohibited.

It is recommended that all male dancers wear a men’s dance belt underneath their costume. A costume consisting only of a men’s dance belt is prohibited.

b.  UPPER BODY

Abbreviated bikini tops, tube tops and tank tops are prohibited in all age divisions (see pictures 3 and 4). Female dancers: Exposing the breasts beyond what is shown in picture 4 is prohibited.

Male dancers: Male dancers are allowed to perform bare-chested.

2.  GENERAL RULES GOVERNING MAKE-UP, MOVEMENTS AND THEMES

a.  Make-up and costume have to be age and gender appropriate, and they must suit the discipline in which they are used. Make-up and costume may never be offensive to the public or other competitors. Music must also be appropriate for the age division of the dancer/s. Explicit sexual lyrics and guttural sounds are prohibited. All dancers must be aware of the lyrics in the music they use.

b.  Teachers and choreographers should pay close attention to age appropriateness when choosing themes for children and juniors, making a special effort to avoid sexually inviting moves, morbid themes, brutal fighting, killing, etc.

c.  If religious or political symbols are used as decoration and/or costume, they must suit the theme and choreography in which they are used. Such symbols must always be in good taste, and they may never be offensive to the public or other competitors. Personal jewelry should not be worn unless it is a part of the costume.

d.  All dancers and coaches should be aware that if the Chairperson of Adjudicators gives a warning for an infraction of the above rules (governing costumes, make-up, movements and themes), the infraction should be removed immediately. If the warned competitor(s) repeats the infraction in the next round, they will be penalized.

3.  SPECIAL RULES FOR THE CHILDREN’S DIVISION

In addition to all the general costume, make-up, movement and theme rules, the following applies in the children's division:

Children should be encouraged to dress as children and not like teens and adults. Make-up should be used to bring out the features of the face or to portray a character. Hair should be neat, under control unless it is being used to portray a character, animal, rag doll, etc. Hair extensions, pieces or wigs should be of the kind commonly used by children. Hair extensions, falls, pony tails and wigs may be used as long as they do not distort the age of the child.

Costume materials that suggest sexual, deviate, sadomasochistic or other adult themes are prohibited in the children's division.
Costumes made entirely from see-through materials are prohibited, but the same material may be used for sleeves and to cover legs (for example: Aladdin-style pantaloons and sleeves).

Dancers in the children’s division may never appear nude or in a costume implying nudity. Therefore, flesh, nude, tan, beige, or bone colored bodysuits, leotards, tops and pants may not be used in a way that implies nudity. Net, lace or any such material may never be used to cover the intimate parts of the body unless lined with a non-nude colored material. At all Performing Arts events MALE dancers in the CHILDREN’S division must have their torso covered with cloth material.

4. SPECIAL RULES FOR THE JUNIORS’ DIVISION

In addition to all the general costume, make-up, movement and theme rules, the following applies in the juniors’ division:

The special rules for the children’s division (above) also apply in the juniors division. Juniors should always be dressed age-appropriately and their image should be that of a junior and not that of an adult.

5. SPECIAL RULES FOR THE ADULTS’ DIVISION

All the general rules governing costumes, make-up, movements and themes apply in the adults’ division.

Adult dancers should bear in mind that they are the ones setting the trend for the younger dancers, who look up to them and seek inspiration from them. This is why it is very important to be dressed in good taste.

6. ADDITIONAL COSTUME RULES FOR PERFORMING ARTS DISCIPLINES ONLY

Tan or flesh colored materials may be used to cover the intimate parts of the body in the junior and adult division, if it suits the theme of the performance and if it is not sexually suggestive in any way. However, a costume consisting only of flesh colored panties and a bra is not allowed.

7. GUIDELINE AND SPECIAL RULINGS FOR THE ADJUDICATORS:

A Adjudicator should always be very careful when commenting or deducting points for visual things that they personally do not like. It is not Adjudicators’ duty to Adjudicator morality; Adjudicators’ job is to Adjudicator talent. If the costume, theme, choreography and presentation are offensive to Adjudicators’ personal taste, he/she may take that consideration into his/her mind when marking but a better method would be to bring what is offensive him/her to Chairperson and let him/her make ruling on how it should be handled.

Rulings by the Chairperson: If a Chairperson finds inappropriate costuming, grooming, music, gestures or otherwise offensive behavior by the dancer they may give a warning to correct the situation and subsequently penalize or disqualify the dancer/s if the Supervisor and Organizer agree.

Total Image: The total image that a dancer creates should be within the limits of good taste and not be offensive to anyone in the audience.

NOTE: Inappropriate music, theme, choreography, costume or total image may result in point loss, and gross misuse or abuse in these areas may result in disqualification.

CODE of ETHICS for ADJUDICATORS – see in the Section “General Provisions for Adjudicators and Judging”, Book 5, section 3.

When time constraints prohibit on-stage rehearsals, the Organizer must provide an alternate rehearsal area for all dancers’ use as outlined above under Quality, and with flooring surface and space the same size as the actual stage.
BOOK 2 ORGANIZATION AND CONDUCTION OF IDO EVENTS

**Productions:**

Each production will rehearse without music 5 minutes. The order of rehearsals will follow the start list. The Organizer must provide scheduled rehearsal time. These movements are permitted in some, but not all disciplines. Please refer to specific rules for the discipline in question.

In all disciplines where applicable, in Children age division acrobatics are allowed if a body part is touching the floor. Acrobatics must not dominate the routine.

In Children age division, all acrobatics must be performed without any physical support of a dancer, dancers.

(AGM 2017, Implementation 1.1.2018, no change possible before 2021)

SPECIAL NOTE FOR ROUTINE RESTRICTIONS
No dance routine shall be performed in more than one discipline.

Example: The same routine cannot be performed in both a Jazz and Show Dance, nor can a Modern piece be performed in both a Modern and Ballet event.

SPECIAL RULE FOR COSTUMES
In Jazz/Lyrical, Modern and Contemporary Dance, Ballet, Tap Dance and Show Dance disciplines dancers will not be allowed to change their costume during a performance or competition, unless it is ordered because of an infraction of the Costume Rules. It will also not be allowed to change the music or choreography in the next or final round.

SPECIAL RULES FOR THE CHILDREN AGE DIVISION
Dark themes, costumes, and music are not permitted in the Children Age Division.

1.2 SHOW DANCE
The categories in Show Dance are: Solo Male, Solo Female, Duo, Group, Formation.

Adult division duo is divided in two categories:
   - DUO female-female
   - DUO male-female or duo male-male

The dancer must only be represented in either two females, two males or male/female in any given competition.

Age Divisions see in General Provisions of Performing Arts.

1. DEFINITION OF SHOW DANCE
Show Dance in the broadest sense is based either on any Jazz/Lyrical, Ballet and/or Modern and Contemporary dance technique. Other dance disciplines can also be incorporated but cannot dominate. Ballroom, Latin or Rock ‘n’ Roll are excluded and cannot be performed. Show Dance allows the use of lifts (except for Children), acrobatics, props, lip-sync and other theatrical effects. An IDO Show Dance number always has to have a guideline, story or visible concept to entertain the audience.

2. When movements and elements of other IDO dance disciplines such as Disco Dance, Hip-Hop, Electric Boogie, Break Dance and Tap, or when American & International Ballroom and Latin Dance is used in the performance, such movements / styles should not control / dominate the performance.

3. The dancer’s personal interpretation should be clearly evident when using any of these disciplines or styles.
BOOK 3  RULES FOR IDO DANCE DISCIPLINES

4. Acrobatic Movements: Permitted as outlined in General Provisions of Performing Arts. Acrobatic movements will be evaluated under show criteria and must never dominate and must be in harmony with the idea or theme. If modern gymnastic movements dominates a performance a significantly reduction of points in the technique dimension should be the consequence. (see in General Rules restriction for Children, p.42)

NOTE: Lifts are NOT permitted in the Children’s age division.

7. Musicality, variety of dance and patterns, originality, total performance and individual choreography will be evaluated. It is very important to present harmony of idea, music, dance, choreography, costume and props in the presentation, as the entire image will be used in evaluating the performance.

8. Formations will be Adjudicatord as a whole. Solo, duo or ensemble parts may be performed, but must not dominate.

9. All Show Dance presentations shall be based on a concept, story, theme or idea. There must be a title of the Show. The concept, story, theme or idea must be fully understandable and will be expressed by means of dance movements that adhere to the piece being presented, along with being creative, imaginative and original. The piece must have Show Value, as explained in the Judging Procedure (Section Protocol and Judging Procedure).

NOTE: See new scoring in Technique and Show criteria of Show Dance in Book 5, 3.11.1. on page 123

1.3 JAZZ DANCE/LYRICAL

The categories of Jazz Dance are: Solo Male, Solo Female, Duo, Group, Formation.

Age Divisions see in General Provisions of Performing Arts.

Jazz Dance Styles:

Primitive: This dance form stemmed from early African Folk Dances that were done by slaves brought to America from Africa, West Indies, Cuba, Panama and Haiti.

Early: Originated via the music of the late 1800’s and early 1900’s. Dances included the Two-Step or Cakewalk, and later became the Grizzly Bear, Bunny Hug, Turkey Trot, and Texas Tommy. This evolved into the fast music and dances of the 1920’s, the One-Step, Lindy Hop, Charleston and Black Bottom.

Musical Comedy / Theatre Jazz: These forms of Jazz became very popular via movies / theatre during the 1930s and 1940s. Many dance forms were incorporated in Musical Comedy Jazz. Ballet with “On Your Toes”, and Modern Dance in “Oklahoma” and “Brigadoon”. During the 1950s and 1960s, dance became an integral part of telling the story in Musical Theatre, as illustrated in musicals such as “Flower Drum Song”, “Destry Rides Again”, “West Side Story” and “Seven Brides for Seven Brothers”. In 1978, the musical “Dancing” showed that the songs and books were secondary to the dancing; in fact, they are almost non-existent.

Contemporary: Primarily performed to music of the day, it began in the late 1950s to the music of Contemporary Jazz musicians like Dizzy Gillespie, Art Tatum and Dave Brubeck.

Today’s Jazz Dance: This discipline may be danced using many different styles and tempos, using themes based on Afro-Cuban, Oriental, Spanish or other national themes. It may be performed as a character, such as Cowboy, Sailor, Clown, etc. It may also be abstract in nature. Lyrical Jazz, performed to such music as Bette Midler’s “Wind Beneath My Wings”, may be included in Jazz Dance Discipline

NOTE: Contemporary Ballet should not be confused with Jazz Dance, and may not compete in this discipline. Other contemporary styles such as Hip-Hop, Disco, Break Dance and Electric Boogie may be incorporated, but must never control / dominate Jazz Dance performances.

page 43
1. **Characteristics and Movement:** Jazz Dance is a multi-faceted art form. The above-mentioned types of Jazz Dance are examples of what is permissible in this category.

2. The entire routine must consist of Jazz work. Jazz technique, turns, jumps isolations, stretch, as well as use of port de bras, legs and upper body. Timing and rhythm will be considered in marking. Suitable footwear must be worn.

3. **Acrobatic Movements:** In Jazz Dance limited acrobatics will be allowed as long as a body part is touching the floor, and does not dominate the routine.

4. **Lifts:** Permitted as outlined under General Provisions in Adult and Junior divisions. 
   **NOTE:** Lifts are NOT permitted in the Children’s age divisions.

5. **Stage Props:** Hand, stage and floor props will be allowed under the following conditions:
   - **Clothing:** All costume accessories, such as hats, scarves, gloves, belts, etc., may be worn if they are an integral part of the costume. They may be taken off, exchanged or discarded, but not left to litter the stage. Meaning, the dancer cannot leave the stage at the end of the routine leaving clothing behind. If a dancer discards or drops a scarf on the state, they must pick it up and take it off when they leave.
   - **Hand Props:** All hand props such as canes, umbrellas, hand bags, brief cases, mirrors, flags, etc., may be used as long as they are an integral part and used throughout the routine. They may be set down on the floor as long as it remains part of the routine and picked up when leaving the stage at the end of the routine. Hand props can never be used as floor props. In other words, you cannot enter the stage with an umbrella, set it on the floor, dance your entire routine without utilizing the umbrella and then pick it up at the end of the routine and leave the stage.
   - **Floor Props:** Necessary floor props such as a chair, stool, box, ladder, etc., may be carried on by a dancer in one trip, but must be an integral part of the routine and utilized throughout the entire performance. Items used to decorate or embellish the stage are not permitted. The dancer must carry the floor prop off the state at the end of the routine.
   - **Scenic or stage props:** Any items such as a scenic background, back drop, tree or other such prop, used to create a scene or embellish the stage are not permitted.

6. **Lip-sync** is not allowed in Jazz Dance.

**Show Dance VS Jazz**

The difference between Show Dance and Jazz is very difficult, but not impossible, to define. Jazz Dance styles range from the early 1920s to the present, and most Jazz Dance pieces are created using pure dance without consideration to theme or story. This is an ever-evolving Performing Art dance, and one could very readily argue the point that all of the Street dances contain some elements of Jazz. How do we draw the line between Jazz and Street Dance? Definitely the music. The music dictates the style. Does that mean that Hip-Hop or Break Dance music cannot be used in a Jazz piece? No, because the style of the dance dictates what discipline it actually is. Therefore, a Jazz Dance piece can be done to Hip-Hop, Break Dance or Electric Boogie music, but never a Hip-Hop, Break Dance or Electric Boogie to Jazz music. Since there is no specific style of music identifiable as Jazz Dance or Show Dance, music cannot be used to determine if the discipline is correct. However: the difference in styles can be used to make this determination.

Although Show Dance pieces may be based on a theme or story, there are many variables that exist. A Show Dance piece can be based on emotions, color and design, or even one word, such as ‘devastation’ or ‘jubilation.’ Jazz Dance does not have to convey any of the above criteria, and may be done based on pure dance only. For instance, a piece danced to ‘Bolero’ might be based on movement formation, color and costume. Another piece danced to the same or different music might be built on a theme of floating dancers, be enhanced by costume de- sign and originality, and feature terrific use of the music. Would a piece danced to ‘Bolero’ do well in a Jazz Dance competition? The answer to that would be in the eyes of the beholder, but a strong Jazz Dance piece would certainly give such a piece a run for its money if the former was not based on true Jazz technique.
BOOK 3 RULES FOR IDO DANCE DISCIPLINES

Lyric or Modern may be the base technique for either Show Dance or Jazz Dance. It all depends on how much of a 'show' the piece really is. A straight lyric piece, performed in a Show Dance division to Whitney Houston, without a theme or story line, would not do very well, because the show value of the 4-D system would receive a low mark. When judging an IDO competition where the 3-D system of separate evaluations is used for technique, composition and image, the show quality of the routine may enter into all three of these separate dimensions. The ability to use technique to enhance the theme or story being told is very important. The choreography and the way the dancer performs it must be of show quality, and the image that the dancer creates is also very important to the show value of a given piece. But Adjudicators should not be influenced by the show value of a Jazz Dance routine. Their marks for technique should be based purely on technique, choreography purely on choreography, and image marks should be based on the total look of the performer.

1.4 TAP DANCE

The categories of Tap Dance are: Solo Male, Solo Female, Duo, Trio, Group, Formation.

Age Divisions see in General Provisions of Performing Arts.

1. **Characteristics and Movement**: Although the primary emphasis should be on the harmonious blend of the dancer’s footwork (sound), many variables exist. All forms of tap will compete against each other, such as: Rhythm, Hoofing, Buck and Wing, Waltz Clog, Military, Precision Kick Line, Latin and Musical Theater.

2. Jingle taps, double taps or double claques are not permitted.

3. The music must not contain prerecorded taps.

4. Personal amplification devices are not permitted.

5. No more than 30 seconds of *a cappella* or tacet (silence) may be used in any one routine. The absence of music must occur within the music and not at the beginning or end. "Stop Time" is an open part of a measure of music, not played but silent, with some notes being played. "A Capella" is an open phrase of multiple measures in length, but completely absent (silent) of any/all music.

**NOTE**: Music must be played at the beginning and end of the music and the A Capella must be no longer than 30 seconds. A Capella can also be defined as "Tacit."

6. The dancer’s taps and the music must be clearly audible to the audience and adjudicators.

**NOTE**: The Organizer must make sure the stage has adequate floor microphones and speakers to make this possible.

7. **Acrobatic Movements** that are an integral part of the routine are permitted as outlined under General Provisions of Performing Arts, but will not enhance the dancer's score. *(see in General Rules restriction for Children, p.42)*

8. Regarding health and safety issues in Tap dance, it is not allowed to dance or perform toe work (dancing on pointe) in the Children’s age division for longer than one beat of music. The definition of this being dancing or standing on the tips of the toes in weight-bearing steps on one or both feet.

Toe work/dancing on pointe will be for no longer than one beat of the music on one or both feet in Children's Division.

**NOTE**: No more than one beat and NO weight bearing pointe work at any time. This is stated strictly to clarify the rule already in effect.
LIVE MUSIC during Junior and Adult Groups:

1. This is a separate category and cannot be mixed with other categories.
2. Musicians are not counted as participants unless they also dance in the routine. The ages of the musicians are not relevant unless they are also dancers.
3. The Organizer must be advised by email 4 weeks prior to the event. The email must explain all necessary details. Once approved, the participant must adhere to the agreement.
4. All equipment must be brought in and set up by the Dancers and/or musicians.
5. Set up must be done quickly and in a quiet, non-disruptive manner.
6. The set up and break down of the musical equipment and portable amplification must not take more than 3 minutes.
7. Live music and recorded music can be mixed. In this case, the house system of the Organizer can be used if the entrant can cue the sound engineer of the house system for starts and stops of the recorded music.
   For example: If the entry uses amplified live music there can be two different systems:
   a. House system for CD and/or up to 2 microphones for vocals only.
   b. The entrant may supply additional portable amplification system for live music/vocals.
   c. Both systems may be mixed for live music AND recorded music.
8. Suggested live music:
   Vocals, brass, woodwinds, strings, drums, percussion, bass and keyboards may be used to make music. Full size pianos or organs will not be allowed.

1.5 ACROBATIC DANCE

The categories of Acrobatic/ Gymnastic Dance are: Solo Male, Solo Female, Duo, Group, Formation. Age Divisions see in General Provisions of Performing Arts.

Characteristics and Movement: Acrobatic dance shall include many techniques, such as tumbling, balancing, contortions, and aerial tricks without hands and controlled movement, as well as acrobatic elements, static elements, jumps, hand support elements, turns, rolls, walkovers and saltos, all of which should be connected with dance movement and dance combinations. The emphasis is on strength, stretch, control and ease of movement, no matter what technique is being used.

It is forbidden to form routine on the basic Aerobic and sport Rock’ n ‘Roll elements. For safety reasons it is forbidden in all age divisions:

- To perform supports/lifts higher than dancers’ height as well as different throws from hands of other dancer except in the adult division.
- To fall on the knees, stomach and back from the jumping position;
- To begin an acrobatic walkover within flight phase;
- To perform any acrobatic element more than three times (variations are allowed i.e. performance of different forms of the element. For example: cartwheel, one hand cartwheel, cartwheel with transition to the floor, elbow cartwheel etc.).
- To perform headstand (head balance).
Lifts, pyramids, throws: Lifts are permitted in Junior and Adult age divisions
Pyramids are allowed in Junior and Adult age divisions. Pyramid is element of artistic, power and plastic acrobatics. It is a group position when dancers supporting each other form complex figures. While performing a pyramid, intended figure shall be fixed for a period of time from 3 to 5 seconds. In Junior age division high unaided pyramids are prohibited.
In Children and Junior age division different throws of one dancer by another are prohibited.

Clothing and decorative elements: Costume rules and regulations see in General Rules in Section 2 of the IDO Rule Book.
For safety reasons it is forbidden to wear decorative elements including earrings, piercing in nose, tongue, navel, face skin. Eye-glasses, hearing devices as well as decorations made of transparent plastic, bracelets, necklaces and pins are also forbidden. All decorations shall be taken off. (Exception: stresses on the dress and temporary tattoos). All accessories, for example hair accessories, shall be tight, and, if possible, soft and flat. Long hair shall be fastened and taken away from face.

Stage Props: Permitted as outlined under General Provisions of Performing Arts.

Evaluation: Musicality, variety of acrobatic elements and dance itself, originality of composition as well as harmony of concept, music, choreography and acrobatic elements will be highly evaluated.

1.6 BALLET
The categories in Ballet are: Solo Male, Solo Female, Duo, Group, Formation.
Age Divisions see in General Provisions of Performing Arts.

Time limit is one (1) minute minimum for male and female solo variations, maximum 2:15 minutes. All other time limits see in General Provisions of Performing Arts.

Characteristics and Movement: Classical Ballet is the most formal of the ballet styles; it adheres to traditional ballet technique. There are variations relating to area of origin, such as Russian ballet, French ballet, British ballet and Italian ballet. The Vaganova method, named after Agrippina Vaganova and the Cecchetti method, named after Enrico Cecchetti are Russian and Italian respectively and derive from the original French method. Classical ballet is best known for its unique features and techniques, such as pointe work, turn-out of the legs, and high extensions; its graceful, flowing, precise movements; and its ethereal qualities. This discipline must be performed using the Classical Ballet Technique and style and may be performed in soft ballet slippers or Pointe shoes. Although choreography may be of a modern nature, it may not deviate from what is commonly known as Classical Ballet. Lyric, Modern and Modern Jazz pieces may not be performed in this discipline.

Pointe work is not allowed in the Children's category.

Acrobatic Movements: Not permitted in the Ballet discipline.

Lifts: Permitted (and encouraged) as outlined under General Provisions of Performing Arts. Any lifts used must remain in the Classical Ballet tradition, and may include drop-falls, supported turns and jumps resulting in catches. However, all dances are in a constant evolution and growth, so experimental and original choreography is encouraged.

Stage Props: Permitted as outlined under General Provisions of Performing Arts but dancers cannot use cumbersome scenic material and must carry on and off the stage themselves in one trip.

1.7 MODERN AND CONTEMPORARY DANCE
The categories of Modern and Contemporary Dance are: Solo Male, Solo Female, Duo, Group, Formation.
Age Divisions see in General Provisions of Performing Arts.
In the Modern Dance Discipline Mini Kids are not allowed.
BOOK 3 RULES FOR IDO DANCE DISCIPLINES

Modern dance is an artistic form with many styles that has undergone development over a relatively long period of time.

Modern dance is a more relaxed, free style of dance in which choreographer’s uses emotions and moods to design their own steps, in contrast to ballet’s structured code of steps. It has a deliberate use of gravity, whereas ballet strives to be light and airy

The development of modern dance was the logical consequence of the dancing styles that existed at the start of the 20th century, when the modern dancers of that period attempted to break free from established ballet forms, which they considered to be stiff, strict and restrictive and therefore they started searching for new trends and techniques to give dance a new direction.

This particular dance discipline concerns using modern dancing techniques that were created for the most part during the first half of the 20th century by renowned dance teachers and choreographers, e.g. Martha Graham, José Limon, Alvin Ailey, Merce Cunningham, Lester Horton and a host of others on the American continent, and Kurt Jooss, Mary Wigman, Hanya Holm and many others in Europe /

In view of the fact that all dance remains in a constant state of movement and development, this does not mean that we have to use only the aforementioned techniques in their original forms. On the contrary, it is also about using contemporary trends in modern dance techniques that either goes back to the foundations established by the aforementioned dance instructors or we can use totally new, experimental and original concepts for modern dance. Contemporary dance brings new information about body and how the body works, offers new quality of movement, new shapes of body in area, brings new composition process and space for experiment.

1. Characteristics and Movement: the entire routine must consist of modern dance techniques and current trends, and should correspond with age categories and the movement skills of the dancers. Contemporary Ballet should not be confused with Modern Dance, and may not compete in this discipline. Other contemporary styles such as Hip-Hop, Disco, Break Dance and Electric Boogie may be incorporated, but must never control / dominate Modern dance performances.

The main point of assessment for this discipline will be the level of the dance movements carried out, as well as the theme and story line. The story, the building of a plot, is possible, but not so much emphasized here as, for example, for Show dance. It is primarily about pictures, moods.

In Modern Dance, a story, theme, idea or concept may be used but must always be in good taste for children, junior and adult situations, but human situations, especially those dealing with intimate or personal relationships should acceptable to viewing by all ages.

2. Acrobatics and Lifts: Acrobatic movements are allowed, but should only be used to enhance the routine. Gymnastic lines are not allowed (multiple gymnastic moves, travelling from corner to corner).

Modern and Contemporary Dance should not look like an acrobatic dance routine. (see in General Rules restriction for Children, p. 42)

Lifts are allowed in Junior and Adult age divisions and are prohibited in the Children age division.

3. Props and Backgrounds: Stage props are allowed to the extent that the stage setting for the choreography does not overshadow the dance itself. Backgrounds are prohibited.

4. Clothing: aesthetic, tasteful and age division appropriate.

1.8 BOLLYWOOD

The categories of Bollywood are: Solo Male, Solo Female, Duo, Group, Formation.

Age Divisions see in General Provisions of Performing Arts.

Although Bollywood dance has its origins in Traditional Indian dance, it is made up of many differing dance styles including Indian Classical, Bhangra, Arabic, Folk, Tribal, Latino, Hip Hop, Street Dance, “Michael Jackson”, and many others.
BOOK 3 RULES FOR IDO DANCE DISCIPLINES

We must, however, remember that in Bollywood there must be a contrast of dance styles and movement, depending on the music. It is important to use Lip Sync and Mime, to encourage enactment of some of the lyrics. This discipline must apply technique, grace, speed, style, versatility, body isolation, spatial awareness, energy, facial expression and emotion, whether solo, towards a partner or within a group.

Many Bollywood dancers are also actors, so this skill needs to be shown.

**MOVEMENT:** We would expect to see much Indian dance influence, including Hand Gestures, Postures, Head Slides, Classical moves in arms, legs, feet, knee squats, etc., even within very Modern pieces.

**COSTUME:** This can be from Classical Indian (with or without ghunghroos/ankle bells) to a “Hoodie Look” to Futuristic, and even a mix, as long as it is in keeping with the dance style, music, Production piece, but still remain tasteful, and respect age.

**FACIAL EXPRESSION:** This is a very important part of Bollywood, so all parts of the face need to be worked. Eyes especially play an important part. Within this section we would expect to see Lip Sync, as well as many different emotions.

**MAKE UP:** Must be in keeping at all times, and must respect age.

**LIFTS & ACROBATICS:** These may be included, again, as long as they are in keeping (although not expected). Lifts are not permitted for Children and Mini Kids.

**AGE:** In Productions can be mix of all age divisions.

**PROPS & SCENERY:** All exactly as Performing Arts. However, hand props such as a hand mirror, flowers, jewellery, etc., can play an important role in a performance.

### 1.9 PRODUCTION

A Production is defined as an elaborate theatrical presentation, dominated by dance, which may include any IDO discipline or any combination thereof, using a story, theme, or concept. Since its primary purpose will be to entertain, it will be under the jurisdiction and administration of the Performing Arts Department.

Although all IDO disciplines will compete against each other in this category, specific rules as outlined under each discipline will be adhered to unless otherwise specified in the rules that follow.

**Allowable DANCE FORMS:**
This category will be open to all or any combination of dance disciplines under the auspices of the IDO.

**AGE Limits:**
There will be no age restrictions and all ages will compete against one another. No dancer will be represented in more than one Production at any event.

**TIME LIMITS:**
The minimum performance time limit, including the opening entrance and the final exit, is 5 minutes and the maximum is 8 minutes. (Set up time is explained below)

**STAGE PROPS and SCENERY:**
There will be a total of 5 minutes to set up and 5 minutes to break down scenic sets, backdrop and stage props. All set ups and breakdowns must be made by stagehands provided by the school, club or group presenting the Production. Liquids or other substances that can litter, damage or make the dance floor/stage unsafe, may not be used. Both fire and working weapons are not permitted.

**NUMBER of Performers:**
At least 25 dancers minimum, with no maximum, are allowed in this category. However, it is the producer of the production’s responsibility to make sure the stage or dance floor is large enough to accommodate the number of dancers one wishes to present.

**STAGE PROPS:**

Permitted in some, but not in all disciplines.

Hats, coats, sweaters, shawls, etc., may be used as long as they remain part of the costume and must be retained during the entire performance. Such clothing articles may be turned inside out, held in the hands, exchanged with a partner, etc., but may NOT be thrown away during the performance.

Stage Props not definable as clothing may NOT be used. Such as:

Hand props like sticks, umbrellas, balloons, skateboards, bags, headsets, masks, sunglasses/image glasses, etc. and other non-clothing articles.

**EXCEPTIONS:** Street Dance Show – **All categories.** Stage and hand props are permitted when carried by the dancers in one trip. Any stage props used may be held or worn by the dancers during the performance. Stage hands / assist- ants are not allowed to carry props for the dancer(s).

Cumbersome scenic props are not permitted in any dance, category, style or division at any IDO Event. Props, liquids shoes, costumes or other substances that can litter, damage, or make the dance floor / stage unsafe may not be used in any discipline.

**NOTE 1:** This means that the use of such props, liquids, shoes, costumes or other substances will be punished with a warning and/or direct disqualification.

*(AGM 2017, Implementation 1.9.2017, no change possible before 2021)*

Using electrical devices, such as personal light effects and music which the dancer plugs into an electric socket - props may be used but must be powered by battery.

**SCENIC SET UP AND BREAK DOWN**

Scenic backgrounds and floor props must take no longer than 15 seconds to set up and 15 seconds to carry it away in Solo and Duo entries and **25** seconds in Group entries. This rule applies to all Street dance show disciplines. Dancers have to carry the props in one trip, on and off.

**LIFTS:**

Lifts are defined as movements / figures in which both feet of one dancer are off the floor and such figures / movements are performed with the help / physical support of another person.

In all disciplines where applicable, in Children age division acrobatics are allowed if a body part is touching the floor. Acrobatics must not dominate the routine.

In Children age division, all acrobatics must be performed without any physical support of a dancer, dancers.

2.2 BREAK DANCE

The categories of Break Dance are: Solo and Crews.
Starting January 1st, 2018 the categories of Break Dance are: Solo Female, Solo Male (B-Boys and B-Girls) and Crews

(ADM 2017, Implementation 1.1.2018, no change possible before 2021)

Age Divisions see in General Provisions of Street Dance Disciplines.
Break Dance is for Juniors and Adults only

SOLO

1. Music: Organizer’s music in Break Dance style.

2. Duration of Performance: Preliminary round: 2 minutes divided into three sections of 40 seconds duration each. Additional opening minute of the 1st round is not evaluated. In the preliminary round, there must be no more than three (3) competitors dancing together. The Chairperson of Adjudicators determines the number of competitors in the opening minute and final 40 seconds in the preliminary round. The best 16 competitors fight in “battles” one by one in a “knock-out-system” (5 – 10 minutes each battle).

3. Tempo: No restrictions.

4. Typical Break Dance Elements: Crown, Headspin, Backspin, Turtle, Helicopter, Windmill, Bailey Windmill, Uprock, Freeze, Sixstep, One Hand Up, Swipe, Atomic, Flair, Holoback, Traxx, 99, variable footwork, etc., including different variations of these figures, elements and movements.

Keen ‘breaks’ (stopping of movement), isolations, breaking movements, plus acrobatic movements in various combinations are all expected aspects of Break Dance routines. Technical difficulty of performed elements, joining of elements (flowing acrobatic movements melding into one another), originality, etc. are all highly important, and the entire presentation will be evaluated.

**NOTE:** It is important to show more than two different figures and elements. Figures danced twice are only counted once. If repeated, the best attempt of the two will be marked.

6. Forbidden Movements: Elements and figures that, according to the dancer’s ability, are too difficult or that could lead to injuries or loss of life.

7. Stage Props: As applicable for this discipline. For Teams it is also allowed to use requisites.

8. Break Dance competitions are not organized in the Children age division.

9. Procedure of Break Dance solo competition

   a. **FIRST/PRELIMINARY ROUND:** Each group of competitors begins dancing together in the preliminary round with a one-minute ‘warm up’ performance, which the Adjudicators do not evaluate. They then dance (not more than 3) first 40 seconds period. When all dancers finish, they start to perform the 2nd period of 40 seconds in the same order. The final performance gives the Adjudicators an opportunity to compare the dancers. To avoid any risk of injuries, Adjudicators shall walk around the competition floor during the final presentations. Best 16 competitors will be qualified and continue with battles (knock out system).
b. QUALIFICATION: If there are 18 dancers or more in the 1st round, Adjudicators should qualify the best 16.

In the first round, the Adjudicators evaluate each dancer with the points from 1 to 10. Criteria for the points are:
1- bad- none of the elements are performed in correct way, out of music
2- bad- one or two elements are performed correct but out of music
3- not bad- dancer is performing weak, choreography is poor
4- not bad- dancer is performing various elements or style
5- satisfactory- dancer is performing various elements or style, but there is no fluidity or is repeating the same element two or more time
6- good- dancer is performing various elements and style, there is not enough power or image is poor
7- very good- dancer is performing the elements and style correctly, but with the small mistakes
8- very good- dancer is performing the elements and style correctly, but losing the power
9- excellent- dancer is using different styles and performing various elements on a very high level
10- outstanding- dancer is using different styles, performing various elements and bringing personal note in performance

Following the given points Adjudicators will give A, B, C, D letters and additionally X's, for those that they want into the next round.
The Scrutineers count each given letter with the points. The points are given in the following manner:
A- 4 points, B- 3 points, C- 2 points, D- 1 point. The cross is counted as 0.5 point. The dancers are sorted out for the next round (spider) by the total amount of points that comes from the given letters and crosses.
In case of tie the Scrutineer will use the following rule for the start numbers in tie:
first, the number of letters will be counted (C and D for one start number is better than B) and if the tie cannot be broken the given points from all Adjudicators (1-10) will be used in order to select the dancers for the next round. If it is not possible to select the start numbers for the next round after procedure explained in 1 and 2, then the actual re-dance will be organized by giving the points from 1-10 and letters that are needed for the next round.

c. BATTLES: In the 8 battles that follow, the dancers from A class will battle with dancers from D class, and dancers from B class will battle with dancers from C class (1st in a ranking from group A with last from group D, etc.). Neither dancers, nor Adjudicators will be informed who belongs to which class, only Scrutineer and Supervisor (Chairperson of Adjudicators) will be informed. List of battles will be published. After 8 battles, those who are winners will battle in the next 4 battles, and afterwards in last two for 4th and 3rd as well as for 2nd and 1st place. All Adjudicators’ decisions must be also in written form (made by Scrutineer and the Chairperson of Adjudicators.)

If there is no clear majority in the break dance battles (crossed arms), one more round (one entrance of each) will be done. After the additional round (entrance), Adjudicators have to clearly decide about their choice, showing the hand to the dancer they would like to see as a winner. Adjudicators have to use the given Adjudicators sheet who they would like to see in the next round. The Adjudicators then show the hand to a dancer following the judging sheet. The Chairperson and Scrutineer control the showing of hands.
BOOK 3 RULES FOR IDO DANCE DISCIPLINES

Ranking after the 1st round:

1A  5B  9C  13D
2A  6B  10C  14D
3A  7B  11C  15D
4A  8B  12C  16D

SPIDER of BATTLES:

If there is 10 to 17 competitors in the 1st round, Adjudicators will qualify only 8 dancers, 2 of class A (4 points), 2 of class B (3 points), 2 of class C (2 points), and 2 of class D (1 point). Then in next round there are only 4 battles (A1/D8; B3/C6; A2/D7; B4/C5). The winners of these four battles will go on to two battles and finally will be one battle for 1st place and one battle for 3rd place. If there is less than 10 competitors in the 1st round, Adjudicators will qualify only 4 dancers, one of each class and then there
are only 2 battles (A1/D4 and B2/C3); followed by battles of the winners of previous 2 battles (one battle for 1st place and one battle for 3rd place).

In the Break Dance battles solos only three battle “entries” should be necessary. (If needed it could be possible to include one more entry)

**CREW BATTLES**

1. Number of Dancers: 3-7

2. Music: Teams ‐ Crews may use their own music in the first round. Organizer’s music in Break Dance Style will be used in the final round.

3. Duration of Performance in the first round (Show): 150-180 seconds (2:30 – 3:00 minutes) of each team’s/crew’s performance may be danced using the team’s/ crew’s music. In case that the music is too long or short the crew will be disqualified.

The “Semifinal-Battle” (3. and 4. place) will last about 5 – 10 minutes. The “Final-Battle” 10 – 15 (20) minutes, according to the Supervisors decision. The last minute will be announced.

4. Tempo: No restrictions.

5. Typical Break Dance Elements: Same as for Break Dance Solos, plus: Acrobatics should have some style continuation. Choreography for the exhibition to the team’s own music must be a clear performance of a team, not just a demonstration of unrelated solo performances. Musicality, difficulty of movements and figures, originality and team variability will all be highly evaluated. Synchronized movements, shadow standing, mirror positions and smooth transitions of these components from one into another, along with choreographic variability and work with space will also be evaluated. All typical elements of Break Dance should be performed – Styles - Pop Locking - Power moves – Electric Boogie.

6. If one crew disturbs another team’s performance or endangers another team’s safety, a loss of evaluation points will result.

7. The final ‘battle’ portion of each contest shall consist of individual performances of dancers from the competing crews in which each dancer must dance his or her solo part at least one time, and the crew’s performance will be Adjudicatord as a whole.

8. Based on the first round results, the Chairperson of Adjudicators will determine the order of “battles” between 1st - 2nd ranked crews and the 3rd - 4th ranked crews.

9. All other rules are as outlined under Break Dance Solo.

10. Procedure of Break Dance Team competition

   First round is a show of crews who will dance to their own music. The Adjudicators will evaluate and select the four best crews. The Adjudicators give the best crew 4 points (A), the next best crew 3 points (B), the next best crew 2 points (C) and the next best crew 1 point (D) .Only the 4 best crews will battle to the Organizer’s music (3rd against 4th and 1st against 2nd).

If there are more than 8 crews in the 1st preliminary round, a Supervisor together with a Chairperson of Adjudicators may decide to ask for additional crosses for crew/crews on the next position after 4 best crews (cross means placement).

**Special note for Break Dance and Electric Boogie:**

When asked to select Adjudicators for this discipline, each nation should only invite Adjudicators who are very experienced in Break Dance and Electric Boogie. where it continues to be developed and performed. Its meter is quarto and its tempo is 135-142 beats per minute. Melody and rhythm pre-dominate the cone voce in the music for competitions; con voce is often even done without. The main feature of the music is that it has exceptionally electronic origin. It is created and performed on electronic instruments using various electronic effects. Techno is the fastest, the most expressive and emotional of all street modern dances. It includes a wide range of movements: from rapid and sharp to slow and wide ones. It adopts the best elements from other styles. Swinging hips and moving thorax make it very attractive and sexy. This is practically the only style where improvisation can be widely used.

TECHNO SOLO MALE / FEMALE, DUO, COUPLE
1. Duration of Performance: Organizer´s music 1 minute.

It is important to combine club dancing with sport style in 50:50 correlation.
4. Acrobatics are forbidden.
5. For duos: both dancers should dance together, not for themselves or one by one. 5. Acrobatics are forbidden.
6. Lifts are forbidden.

Duration (length) of Exhibition / Routine / Performance: Refer to the specific discipline.

Costumes must follow the General rules governing costumes, make-up, movements and theme.
Lifts: Please refer to specific rules for the Discipline in question. Lifts are defined as: Movements / figures in which both feet of one dancer are off the floor and such figures / movements are performed with the help / physical support of another person for more than one beat.

**NOTE 2:** A lift is also: jumping hand in hand, rolling over the back of another dancer.

Lifts in Children's divisions are not permitted unless stated otherwise in the specific rules governing a specific discipline.

**Acrobatic Movements:** Permitted in some, but not all, disciplines. Please refer to specific rules for the Discipline in question. If permitted, Acrobatic Movements will not always enhance the dancer’s score, and could even detract from the score if they are not performed in a technically correct manner.

Acrobatics are those movements, in which body overturns round sagittal or frontal axis, such as somersaults, hand wheeling and similar figures.4

**NOTE 4:** This is also a solo hand wheel in Salsa!

**NOTE 5:** This is not relevant if there is a time reduction in the first round and a longer one in the next round. The first part up to the time limit has to be the same; the other one is already new.

### 3.2 ARGENTINE TANGO (TANGO SALON, MILONGA, TANGO VALS AND TANGO ESCENARIO)

**NOTE 6:** Argentine Tango is the “umbrella term” for all Tango dances

The categories of Argentine Tango are: Couples.

Argentine Tango competitions are not organized for Children and Junior age division.

Only Couples taking part in all four disciplines will compete for the Championship title Tango Argentino and the Skating system will be used to find the overall winner over the four dances.8

**NOTE 7:** For the Tango Argentino title all couples who have not danced in all 4 dances will not be counted. That means if a couple won Tango Milonga and did not dance all 4 dances, the couple which took the 2nd place and was dancing all 4 dances will be placed on the 1st place for the counting of the championship title Argentine Tango.

**NOTE 8:** Couples who do not participate in all 4 dances will be presented only in the price giving ceremony of the specific dances they had danced, not in the price giving ceremony of Argentine Tango.

#### 3.2.1 ARGENTINE TANGO (Tango Salon)

2. **Duration of Performance:** Two (2) minutes long, to conform to the end of the musical phrase, in all rounds.

3. **Tempo:** Tango 30 - 32 bars per minute.

4. **Characteristics and Movement:** Argentine Tango is a social dance that falls into a smooth category of dance. It follows the line of dance (LOD), going around the dance floor in a counter clockwise direction. This dance form expresses love and passion, which is evident by the closeness of the dancers, the man's control and the woman’s seductiveness. The dancers execute the figures mainly from the waist down while trying to achieve an interesting interplay between them. This interplay between the partners is dictated by the music, and the dancers should be dancing to something IN the music. One should be able to see the melody expressed through their movement. The epitome of Argentine Tango is to see the couple dancing with good posture, good extension through the legs, their feet almost always caressing the floor, and pausing with the music with a sense of rhythm that is clear to those watching.

5. **Typical Movements:** Walks, turns, ochos to front and back, sandwiches, twists and curls, legwraps, drags and saccades to front and back, Boleos that leave the floor and other decorations that allow the legs to swing. Molinetes, paradas, barridas, and pauses with the music are also typical of this dance. Brushing and follow-through technique is essential in all movements.

---

Page 80

3. Tempo: Salsa 50 - 52 bars per minute (200 - 208 beats per minute)

4. Characteristics and Movement: Salsa is of Latin-American origin but has been developing in different ways the last 10 years. There are four main styles of Salsa. The Salsa Cuban style, the Salsa Puerto Rico/New York style (Street Mambo), the L-A style and the Columbian (Cali) style.

The Cuban style of Salsa is more rotating than the Puerto Rico/New York style (Street Mambo) and the L-A style is known to include more show figures. All three styles are ac- accepted. Salsa basic is a two times three-step pattern taken during 8 beats of music, in a quick, quick, slow – quick, quick, slow rhythm. It is allowed to break on the 1st and 3rd beat in the bar or the 2nd and 4th beat in the bar. What is important is to keep the consistence of the breaking. If one starts on breaking on 1 or 3 one must continue to break on 1 or 3 and not travel on to break on 2 and 4 suddenly. Salsa is a very popular club dance in that it allows the dancers much freedom to interpret the music using movements and elements from many different Latino dances. Salsa means, “Sauce”, and the dancers should depict a very hot and spicy interaction with each other.

The Salsa basics involve clever hand and arm movements as well as changes of handhold while maintaining the flowing movements and which are all typical of the dance.

3.12 SALSA SHINES

Categories: Solo Male, Solo Female, Duo.

Adult division duo is divided in following categories: Duo Male, Duo Female, Male/Female.

Age divisions: see in General Provisions, Book 2, 3.4 Age Division.

1. Organizers music in Preliminaries and Semi Final. Organizers music and music of the dancers own choice in the Final.

2. Duration of Performance. In all rounds, except the final, the length of performance should be 1 minute 30 seconds, to conform to the end of musical phrase. In the Final round, the dancers may use music of their own choice, or Organizers music, but must be 2 minutes long to the end of musical phrase, but must not exceed 2 minutes 15 seconds.

3. Tempo: 48 - 55 Bars per Minute (192 - 220 beats per minute).

4. Characteristics and Movement. Salsa Shines are an off shoot of Mambo and Salsa, so can be danced on the “1” or “2”. This style must show good body isolation, together with clean fast footwork - some of which uses every beat, half beat, and quarter beat of the Bar – so syncopation is important. When dancing Duo Male, we expect to see slick, clean, strong footwork, and good subtle isolation. When dancing Duo Female, while similar to Male, it should be more feminine in its approach, with possibly more body work. In all Duo we need to see good synchronzation, good “question & answer” type moves, good contact (although not in hold) and musical interpretation between the 2 dancers. We expect to see the first 4 bars of Mambo break/ forward & back to be danced, so it is noted which beat the dancer is breaking on. No acrobatic moves or lifts will be allowed in any round.

5. Lifts: NOT permitted.

6. Hold: No hold is allowed.26

NOTE 26: This means, that there is also no contact between the dancers!!!!! Not only classical dance hold is forbidden, also the contact in which way ever!!! Salsa Shine means dancing side by side or dancing a step and the other dancer is reacting…..

7. Format Qualifying Rounds:

a. In the opening round all couples shall be seen by the Adjudicators in a presentation dance for 1 minute. In the event of many entries and therefore the floor will be too crowded, the presentation dance could be divided in two or more groups.

b. The couples will thereafter be divided into heats. Number of couples or duos in the same heat is depending of the size of the dance floor but should not exceed 6 couples. The Chairperson of Adjudicators gives a signal when all Adjudicators are ready but each heat will never last longer than 1 minute 30 seconds.

c. In the opening round, all couples shall than be seen by the Adjudicators in a closing dance for 30 seconds according to the same rules as for the presentation dance.

8. Format Final Round: is danced according to the one dance system.

a. All couples in the final dance 1 minute overview.

b. All couples dance their solo performance one by one and can chose their own music not exceeding 2 minutes and 15 seconds.

c. All couples in the final dance 1 minute closing overview.

d. The Adjudicators will place the couples in order of merit.

e. The SKATING SYSTEM will be used to find the places of the couples.
9. In all categories we must have and must see good Floor Craft. You must not invade other dances space. You must respect other dancers. This will be taken into account when being marked by the Adjudicators.

3.13 COUPLE DANCE MASTER SHOWCASE

A Master Showcase is defined as an entertaining presentation of dances, choreographed to be performed by a number of dancers, Solos, Duos, Couples Groups and Formations, which may include dances chosen from the Couple dance Department dances.

Allowable Dance Forms: This category will be open to all or any combination of dance disciplines under the auspices of the Couple dance Department.

Age Limits: There will be no age restrictions and all ages may be represented in a Master Showcase.

Time Limits: The minimum performance time limit, including the opening entrance and the final exit, is 4:00 minutes and the maximum is 5:00 minutes. (Set up time is explained below)

Stage Props and Scenery: All set ups and breakdowns must be made by the team itself and should not exceed 2 minutes all together. Liquids or other substances that can litter, damage or make the dance floor/stage unsafe, may not be used. Fire or working weapons are not permitted.

Number of Performers: At least 16 dancers minimum, with no maximum, are allowed in this category.

There is no minimum or maximum limit how many dancers are on the stage at the same time. However, in the final minute of the performance, all participants of the Showcase must be dancing on the stage together.

Presentation: Both lifts and/or acrobatic movements are allowed, as long as they do not threaten the well-being of the dancers. Lifts in the children’s age range are forbidden and junior and adult performers may not lift children. Other theatrical effects such as fog, laser lighting, magic and illusions may be presented, without restriction, provided they are not hazardous to the performers or audience.

Judging System: The TCIS system of judging will be used with the final round, using the skating system.

Music: Of the Showcase own choice.

3.14 WEST COAST SWING

Categories: Couples

Age Divisions: see in General Provisions, Book 2, 3.4 Age Division.

1. Music: Organizer’s music in all rounds except the final round of West Coast Swing Solo Show, where dancers may use their own choice of music.

3. Duration of Performance: 1:30 minutes long, to conform to the end of the musical phrase, in all rounds except the final round of West Coast Swing Solo Show. Music chosen for West Coast Swing Solo Show final round performances must not exceed 2 minutes 15 seconds.

4. Tempo: 28-32 bars per minute (112-128); Organizer's music. Free in the West Coast Swing Solo Show (own music or Organizer's music).

5. Lifts: Not permitted. Only in the final solo performance in Adults and Junior’s category are allowed.

6. Hold: The main part of the performance should be danced with a hold.
7. **Characteristics and Movement**: West Coast Swing is a social dance that falls into the Swing dance family. West coast swing is a "slot" dance, which means that the woman travels forward and back along a single straight line on the floor, with the man moving off and onto her line.

Although there are turning figures, they still keep the woman on her line. As done in the West Coast Swing community the end of patters typically use an "Anchor step" and not a "Coaster step". The follower is discouraged from moving forward under her own power at the end of the pattern. Instead, she hangs out until the leader remembers to lead.

Depending on the style lots of turns or lots of footwork. Syncopations are common. The man stays pretty much in one place while the woman moves back and forth in a slot. Therefore, it's the woman's movements that are emphasized. West Coast Swing is developed from the Lindy Hop. West Coast Swing is a living dance, still evolving. It follows the music trends of each decade, and adjusts to accommodate new dance styles. In the 1970s it adopted some of the styles of Disco and the Hustle. Now, it can be danced to most of the music played on the radio today, and incorporates many dance elements of Hip Hop and Jazz. Figures begin with two walking steps, followed by two triple steps (or a triple step, two walks and another triple, in 8- count figures). The second triple step is generally danced in place ("anchor step") its main purpose is to re-establish physical tension between the partners, generally achieved by leaning slightly back. Dancers should avoid using obvious choreography but rather improvisation, which is the true heart of the West Coast Swing so that it is possible to adjust the steps to the music.

8. **Format Qualifying Rounds**:

   a. In the opening round all couples shall be seen by the Adjudicators in a presentation dance for 1 minute. In the event of many entries and therefore the floor will be too crowded, the presentation dance could be divided in two or more groups.

   b. The couples will thereafter be divided into heats. Number of couples or duos in the same heat is depending on the size of the dance floor but should not exceed 6 couples. The Chairperson of Adjudicators gives a signal when all Adjudicators are ready but each heat will never last longer than 1 minute 30 seconds.

   c. In the opening round, all couples shall than be seen by the Adjudicators in a closing dance for 30 seconds according to the same rules as for the presentation dance.

9. **Final Round**: Couples will dance all together 1 minute 30 seconds. In the West Coast Swing Solo Show each couple will perform alone 2 minutes to 2 minutes 14 seconds. All couples will than dance 1 last minute all together.

   The Adjudicators give one final placing for the final performance all together.

2. Basic rules of the discipline (age divisions, categories solo/duo/groups/formations, music, length and style, technical rules, forbidden and allowed figures, other specification)

3. Possible future and perspective of the discipline. There must be a list of reasons why to adopt this new discipline and why it is worth for IDO to start this discipline!

4. Present situation/investigation – Are there already any national competitions? In which countries? How long/ how many years? How many competitors attend the events? Is there any Organizer or organizing country interested to host competition in such discipline in future? Are there any Adjudicators and specialists? Is there any literature/publications? Is there any international organization ruling this discipline? If yes – which one, how long; website, number of members, type of events, other possible information.

5. Short DVD – at least 3 different presentations/performances of the new disciplines.

PROCEDURE for Inserting a New Discipline into IDO System:

1. Which disciplines are similar or close to the new one? In which department the new discipline fits best?

2. Short investigation – which country may be interested in the new discipline, which age divisions and which categories

3. Start with test competition – on national level (e.g. open national event)

4. Make an analysis and report about test competition

5. After approving test competition accept a new discipline in IDO (through department and AGM)

6. IDO will grant Cup and then later Championships.

7. Adjudication Department may start a process of education of new Adjudicators in the specific discipline (or searching for VIP Adjudicators).
SECTION 5 DISQUALIFICATION AND COMPLAINTS

5.1 DISQUALIFICATION

NOTE: Procedure of issuing the warnings and disqualification

WARNING:

A warning is issued when an infraction of rules has been done in the preliminary or first rounds.

1. Adjudicators are required to issue warnings for possible disqualification of competitors who make infractions of IDO rules if he or she sees the infraction of the rules. In preliminary or first rounds, adjudicators will place 'W' in the appropriate area of a competitor's marks to signify that a warning should be issued. Adjudicators must be able to give reasonable explanations for this action, must sign their score sheet, and must evaluate the competitor without penalty.

2. In subsequent rounds, the Chairperson of Adjudicators should disqualify competitors who continue to make infractions. Only the Chairperson of Adjudicators may impose penalties on those violating IDO rules and regulations by giving a warning, disqualification or a direct disqualification. In case when adjudicators have not put a warning (W), the Chairperson of Adjudicators can issue the warning but not in the final rounds.

3. Chairperson of Adjudicators can always consult with the panel of Adjudicators at the competition and/or Supervisor. The final decision is made by the Chairperson.

4. All Warnings, Suggestions for Disqualification and Actual Disqualifications must be announced three (3) times by the moderator and posted in the Check-in office after the round in which the infraction has been made. The Chairperson of Adjudicators communicates only with the Team Captain. If the Team Captain is not present and the warning cannot be given in person or writing in time to correct it, the dancer will be disqualified in the next round.

5. In cases where a Suggestion for Disqualification is issued by more than 50% of the Adjudicators, this must not influence the Chairperson of Adjudicators’ decision to disqualify the competitor(s).

6. In cases where a competitor is disqualified, he or she, group or a team will have no placing and will be marked with a D.

7. DIRECT DISQUALIFICATION:
   This is used when there is only one, final presentation round or if the infraction has been done in the finals for the first time. In this case the Chairperson will discuss the problem with the Adjudicators on how the matter will be handled. In cases where a Suggestion for Disqualification is issued by more than 50% of the Adjudicators, this must not influence the Chairperson of Adjudicators’ decision to disqualify the competitor(s). If and when a problem arises the final decision should be made by the Chairperson and Supervisor.

   Infractions where a direct disqualification is obligated/can be issued:
   - wrong age division
   - tempo of music
   - length of music
   - obvious wrong discipline
   - lifts
   - acrobatics
8. DISTRIBUTION OF PLACING IN CASE OF DISQUALIFICATION

1.1 Each round is an absolute round and a separate ranking competition.

In the case of disqualification, the disqualified performance receives the last position of the round that is marked in the result list as “D” and receives “no placing”.

All the performance in that specific round will be moved up to replace the void of the disqualified performance according to the scores in that round given by the adjudicators before the disqualification.

EXAMPLE:
In a semifinal there are 12 performances competed. After the round the adjudicators have ranked all of them and the one that should be number 10 has been disqualified.

The performances with the majority of crosses are qualified to the next round and the D has no impact on them.

The placing before the "D":
7. Mia
8. Erica
9. Alexandra
10. Fiona (D)
11. Pavla
12. Nina

The distribution of placing will be as follows:
7. Mia
8. Erica
9. Alexandra
10. Pavla
11. Nina
D Fiona
13. Mojca
14. Carla …

In the final result list the 12. place will not be given but it is marked as “D”. The placings from previous rounds stay as they are.

1.2. In case the winner has been disqualified, a re-dance between the 2. and 3. place has to take place to define the new winner. All other places are distributed as the example before.

The placing before the D:
1. Slovenia (D)
2. Poland
3. Finland
4. BiH
5. Germany
6. Russia
7. Japan

The distribution of placing will be as follows:
1. Re-dance between Poland and Finland for 1st and 2nd place
2. Re-dance
3. BiH
4. Germany
5. Russia
6. Japan
D Slovenia

In the final result list the 7. place will not be given but it is marked as “D”. The placings from previous rounds stay as they are.

9. All Warnings, Suggestions for Disqualification and Actual Disqualifications must be announced to the team captain involved by the Chairperson of Adjudicators. During the competition protests regarding warnings, disqualification or direct disqualification can only be submitted to the IDO Chairperson of Adjudicators immediately after the round concerned and only by the official national Team captain. In case of a subsequent round the protest has to be submitted after the round concerned and before the beginning of the next. Later protests shall not be considered.
10. The IDO Supervisor and Chairperson of Adjudicators must be able to make decisions quickly and balance with appropriate measures that are required under the circumstances.

11. In the Street Dance disciplines, the Adjudicators will not deduct points when they see someone leave the floor before the end of the music, but will write a “W” as a warning and the Chairperson will notify the dancer/s that if he/they repeat the infraction in the next round he/they will be given a “D” and disqualified.

If this infraction happens in the final round, the Chairperson of Adjudicators will give a “W”, the marks will be given and a decision will be made as to how to handle the situation.

Coaching, directing or otherwise motivating dancers by their coaches or assistants during a performance is strictly prohibited and may result in the disqualification of the dancers. This rule applies to all IDO disciplines.

5.2 COMPLAINTS AND CHECKING OF CREDENTIALS

Complaints
- All complaints must be made in writing by Team Captains only, and be accompanied by a fee of 25 EUR.
- If a complaint is found valid, and ruled on by the IDO officials present, the fee will be refunded.
- The fee will be retained by the IDO if it finds that a filed complaint is not valid.
- All complaints must be made in writing and given to the Supervisor of the competition, with a copy to the Chairperson of Adjudicators and the IDO President, within 7 days of the last day of the competition.
- All decisions that can result in any changes of the national team performing at the competition have to be in written form and signed by the Supervisor, IF REQUESTED BY THE TEAM CAPTAIN.

Checking of Credentials
- The Supervisor and Chairperson of Adjudicators, along with the Organizer, have the right to call for a credentials check at any time during the competition.
- Spot checks of credentials will be conducted at all IDO Events.
- If asked to do so, all selected competitors must show their passports or official National Identification Cards.
- Competitors will be given a reasonable amount of time to supply this information. Failure to do so may result in immediate disqualification.

Penalties
Gross non-conformation to the rules or deliberately misrepresenting one’s age or other application information may result in immediate disqualification at the Event and / or a suspension of the guilty party’s IDO license for a time period determined by the Disciplinary Committee after a full investigation and hearing.

BOOK 5  IDO OFFICIALS AND JUDGING

SECTION 1  GENERAL PROVISIONS

The IDO will furnish all Member countries with a code to access the member’s site: http://www.ido-dance.com/members/

SECTION 2  SCRUTINEERING

2.1  GENERAL RULES

All scrutineering computer-judging programs must be approved and licensed by the IDO Scrutineering Subcommittee in cooperation with the IDO Adjudication Department.

The Scrutineering Subcommittee is a division of the Adjudicating Department, and is comprised of delegates appointed by the IDO Adjudication Department Director.

The Scrutineering Subcommittee will license all Scrutineers via seminars, examinations and tests that will make allowances for “in the field” practice.

2.2  PROTOCOL, SCRUTINEERING AND SCRUTINEERING RULES

1. Any national Scrutineer who wants to become an IDO registered Scrutineer must take the IDO upgrading Scrutineer seminar and successfully pass the exam to become registered by IDO. This license is subject to renewal periodically every 3 years.

The refresher seminars for Scrutineers will be done before start of the competition (before the first competition day). Schedule and dates upon approval of the IDO Adjudication Director. (AGM 2016, Implementation 1st January 2017, no change possible before 2020)

2. This seminar defines the special duties of a Scrutineer at IDO events.

3. All Scrutineering programs used at IDO events must be officially registered by the IDO. The program must be able to connect directly to the IDO website for downloading all the enrolled dancers for this event, to create the enrolment and start lists before the event, run the event with these lists and upload the results into the IDO website after the event.

4. Paperless Scrutineering systems on palms, laptops or similar equipment may also be used. They must be registered with IDO. In the case whereby paper judging will not be used, the system must be able to fulfill all other criteria listed below. The Scrutineer/s must be present at the Adjudicators meeting before competition to instruct Adjudicators of the proper use of the system that will be used and to make a record of all changes in the Adjudicators grid.

5. All Organizers must use official IDO Scrutineers who are listed in the IDO web site under Official Scrutineers, and who are licensed to scrutinize IDO competitions.

6. The Scrutineer, who must speak English or have at all times, an English interpreter with him, at his own expenses, must be knowledgeable of all the rules for adjudication. This Includes: crosses, TCI and TCIS marks, figures, etc. They must also be familiar when organizer’s music, or dancer’s own music when required, along with number of minimum and maximum points, actual re-dance, paper re-dance, hope rounds, ties, etc. They must also be able to print start numbers for IDO competitions, print marking sheets, help sheets for the Adjudicators in Performing arts and disciplines with own music, print start lists including dance titles in Show disciplines,

and must be able to handle events up to 9 (15) Adjudicators and be able to do the entire competition including the final skating system by hand, in case of a failure of the technical equipment. All papers printed must be according IDO rules including the IDO logo.

7. It is the duty of the Scrutineering team to notify the Organizer to provide them with the necessary tools to fulfill their duties, including, printers, copy machines, ink cartridges or toners, as well as sufficient white paper and colored paper if necessary, along with internet access.
8. A Scrutineer should never work alone. They should follow the “four-eye’s principle,” and always have someone to help to be sure all information processed is correct as given by the Adjudicators. The Adjudication Committee expresses the urgent practise of 4 eyes principle. The second person need to be a holder of at least the national scrutineer license. (reference 2.2 Protocol procedure, point 8).

9. If there is more than one dance floor, there should be at least 2 Scrutineers working.

10. The Scrutineer will create and print all enrolment lists, collect the late entries, cancellations and changes coming from the Check In staff of the Organizer. He must work closely with the staff, the IDO Supervisor, the IDO Chairperson and the Organizer.

11. After having downloaded the enrolment lists, the Scrutineer will check to see if the numbers of dancers are according the EPN’s published by the IDO. He has to consider and check to be sure “Title defenders” and “Wild Cards,” are correct. He will inform the Organizer if there are more dancers enrolled into a competition by a country than allowed by EPN.

12. The Scrutineer will prepare the starting order. Help person and/or and the check in staff of the Organizer will post it in a minimum of two places at the competition, where there is enough space for the dancers to see the lists. This may be backstage, in the warm-up areas, etc.

13. Before each competition the Scrutineer, Organizer, Supervisor and Chairperson will decide how many dancers will pass into the next round to come to the system 48/24/12/6.

The BASIC RULE MODEL should be:

- 48 +/-4
- 24 +/-3
- 12 +/-2
- 6 +/-1

Under no condition should the final be more than 8.

In preliminary round half +/- one dancer, but if there is enough time, we follow ideal line.
Example: if there are 140 dancers, we want 70 in next round, but if there is enough time, we take 96. The decision about the preliminary round has to be taken by the Supervisor, Chairperson and Organizer.

In the case where the amount of crosses brings out a different numbers of dancers, the Scrutineer will ask the Supervisor and/or Chairperson to decide the number of dancers qualified into the next round – without telling him any details regarding the dancers or countries. The Chairperson decides in co-operation with the Organizer and Supervisor.

14. Adjudicators sheets must contain information regarding the number of dancers (X’s) they should bring into next round.

15. To the next round should pass all with the majority if this is in accordance with rule in paragraph 13. Scruteneer and Chairperson decide that. If there is less DANCERS with majority than SPECIFIED IN THE BASIC RULE MODEL (PARAGRAPH 13), then CHAIRPERSON and SUPERVISOR WILL decide ABOUT REDANCE OF dancers without majority, but in this case all the dancers with the same number of crosses should have a re-dance.

NOTE: Majority of given crosses by Adjudicators means 3 from 5, 4 from 7, 5 from 9, etc., In case of a tie, usually the “majority” rule will be followed. This means if the majority of Adjudicators have given crosses (3 from 5, 4 from 7, 5 from 9, etc..) to a competitor, she/he should proceed into the next round; it is always the Chairperson, Supervisor and Organizer who decide, and inform the Scrutineer.

16. A Re-Dance is either on paper or on the dance floor.

In re-dance should go/be evaluated all the dancers with the same number of crosses, but not all the dancers who didn’t pass to the next round.

Re-dance will be done by using the placement system and the final results will be done using the Skating system. In case of a tie, all the performances that are in tie will be forwarded/continued to the next round, if it is not in conflict with the golden rule.

17. The Scrutineer will collect the Adjudicator’s names, appointing them a letter, such as A – B – C, and assign them to the different competitions given by the Chairperson of Adjudicators or the Organizer.
He will then create and print the Adjudicator’s sheets. If there are MOCK Adjudicators, he will print the mock judging sheets for them. The mock judging sheets will not go into the results of any of the competitions and stay with the Chairperson to be checked for the examination process.

18. At the decision of the Scrutineer, a random selection starting order will be created by computer. The Scrutineer will make these selections with the assistance of the Supervisor who will record the results.

19. After each round the Scrutineer collects the judging sheets, which have been checked by the Chairperson to be sure there are no errors, and will add the crosses to the Scrutineering system to find the dancers for the next rounds. If the Scrutineer subsequently finds an error on any judging sheet, he must return the sheet to the Chairperson to have the Adjudicators make any necessary adjustments in the section provided on the score sheet.

20. This is the same procedure for all qualifying rounds.

21. After each round the list of the qualified dancers shall be published – as well as the list of the non-qualified ranked by their placements.

22. In cases, when points are obligatory to be distributed by the adjudicators, the scrutineer should check if the sum of the points is correct, then if the crosses given are correct with the highest sum of points and at the end if the number of crosses (placement in the finals) is correct, before taking the papers to the scrutineering office.

23. In the final round, the Adjudicators have to write their placements (no x) according the skating system.

24. In the final round, the Scrutineer will print two Adjudicator’s sheets per Adjudicator and will collect one of them to prepare the check for the Open Marking. The numbers/marks held up by the Adjudicators must be the same as being handed to the Scrutineer on paper before. If there are differences the Chairperson and the Scrutineer will ask the Adjudicator to make a correction. Before finals Scrutineer must check if Adjudicators have all numbers plates for open marking.

25. The Scrutineer will print the diplomas/certificates for all dancers including their ranking from the last to the first place. The dancers not qualified for the next round receive their diplomas soon after they have been competing.

26. Blanc diplomas/certificates will be arranged and given to the Scrutineer by the Organizer.

27. The Scrutineer must print the results from the first to the last place to be published at the event by the Organizer.

28. He must upload the results of each competition into the IDO website, as soon as possible, after the last final of that day, in order to have an up to date IDO results list in the web site.

29. The Event officially ends when the Scrutineer has copied all the Scrutineering tables, including the last result lists of all competitions at his event on a CD or STICK, and handed them to the Organizer to be sent to the participating federations and to the Adjudication Committee by the Organizer, no later than 3 days after the event.

30. All Adjudicator’s evaluations (marks) per dimensions (TCI-S) must be visible in disciplines where is obligatory to use 3-D or 4-D system as well as points in Production and Battle competition.

31. Adjudicators sheets must contain numbers sorted from smallest to the biggest in the first round. Scrutineer must reverse order of start numbers after each round.

32. Each IDO Event has its own specific rules according to the dance disciplines offered at that competition. Specific rules may be found throughout this Rule Book.

33. The official opening or commencement of the Event must be in accordance with the time schedule published in the propositions for the Event. Any changes to the time schedule shall be at the discretion of the Supervisor, who shall also manage the overall running of the Event.

34. All changes in time schedule must be discussed and/or notified by the Organizer, Supervisor,
BOOK 5  IDO OFFICIALS AND JUDGING

Chairperson and Scrutineer – and published to the participants, which will be clearly visible and understandable in conjunction with the Organizer and the staff.

35. In case of a tie for the first place the tying competitors must re dance their routines so that a winner may be determined.

36. With the approval of the Supervisor and Chairperson of Adjudicators, the Organizer may offer a 2nd chance round. In 2nd chance rounds, all dancers who were not called back after the first round dance again. At least 75% to 80% of the dancers required to the next round should be selected first. The remaining amount required will compete in the 2nd chance round.

37. If the Organizer’s music is used and a Adjudicator uses the 3-D system voluntarily, his or her point scores must not be taken into consideration in determining the final results.

38. The number of crosses the Adjudicators are asked to give must equal the number of competitors wanted for the next round. This rule is applicable, unless stated otherwise in the specific rules governing a specific discipline.

39. In cases where a competitor is disqualified, he or she, group or a team will have no placing and will be marked with a D. See also rules in Book 3, Section 5, under 5.1 Disqualification/8.

40. When a dancer because of injury or illness needs to conclude the round without performing – the Adjudicators cannot Adjudicator a performance that did not take place, so it would be only fair to mark the performance DNF (Did Not Finish) and place the performance on the last place of the round.

**NOTE 1:** Battle Qualification Rules see in Book 3, Section 2, under 2.2 for Break Dance and under 2.5 for Hip Hop Battles

**NOTE 2:** The Scrutineers must be aware of judging procedures and specific disciplines listed in the Section “Protocol and Judging Procedure”

AFTER THE COMPETITION (Verification of the Results)

41. Chairperson or Supervisor must always approve the results with their signatures before they are officially published or announced.

42. In the time frame of 3 days, after the publication of the official results on the IDO Website protest are possible only when an obvious technical mistake of the system is noticed. No protests are allowed against scores or results after that.
SECTION 3  ADJUDICATORS AND JUDGING

The Adjudicators Rules determine the principles and organization for Adjudicators, as well as the conditions of and procedures for their qualification.

Any rules not covered in this Rules Book may be found in our Statutes and By-Laws. Please Note:
1. Adjudicators at IDO Events must be qualified to Adjudicator all disciplines at that particular Event.
2. To avoid overtaxing the Adjudicators, each country providing Adjudicators should consider sending at least two (2) Adjudicators to each event. Only the official Adjudicator will be paid per diem, travel, hotel and meals. All voluntary Adjudicators will only receive meals on the day that they adjudicate.
3. Reimbursement and compensation of all IDO officials may be found in this Rules Book in the Section: Rules for Organizers, Supervisors, Chairperson of Adjudicators and Scrutineers; part Reimbursement and Compensation of Appointed IDO Officials.

If a listed Adjudicator cannot be expected to perform adjudication duties for personal reasons or if a reason for suspension of the license exists, such Adjudicator may be deleted from the list of IDO Adjudicators with immediate effect. Once a person has been deleted from this list, he/she will no longer be nominated to adjudicate or officiate at any IDO Competition or IDO event.

Membership in an IDO National Member Organization is a continuous requirement for obtaining and keeping the IDO Adjudicators or officials license and for the nomination as Adjudicator or an IDO official.

Any change that will result in an expulsion of an IDO international adjudication license must be sent in a written form by the NMO to IDO including the notification to the person involved. Request for expulsion of an IDO international Adjudicator must be sent by IDO NMO in written form and signed by the responsible authorised person with a reasonable explanation for the expulsion.

(AGM 2017, Implementation 1.9.2017)

3.1 ORGANIZATIONAL STRUCTURE / INVITATIONS FOR NOMINATION OF ADJUDICATORS

The Adjudication Director will appoint the member countries responsible for the specific dance department to send an official qualified Adjudicator and display the appointed countries for official Adjudicator’s seats on IDO website not later than January 15th of each calendar year. The Adjudication Director will follow up with the selected member countries to ensure that each of them provides a named qualified Adjudicator not later than February 15th for the competitions in the first part of the year (until July) and not later than June 1st for the competitions in the second part of the year (August-December). If the selected member fails to provide a named Adjudicator within the allotted time span, the Adjudication Director has the following rights:

1. To approach Adjudicators directly within that country who are on the current list of IDO Adjudicators, to ensure that there will be a Adjudicator appointed from that country;
   or
2. To appoint another member country to nominate a qualified Adjudicator.

IDO members must send the names of their voluntary Adjudicators 2 months before the IDO event.

3.3 DISCIPLINARY ACTION

The Adjudication Committee and the Presidium are constantly on the alert to see that favoritism of any sort does not occur. If strong evidence is found that favoritism of any sort is being shown, the matter will be referred to the Disciplinary Committee for investigation. If the complaint of favoritism is found valid, it could mean immediate revocation of the offender’s IDO adjudication license.

In addition, an Adjudicator may lose his or her license for one (1) year for the following reasons:

1. If, after being appointed to adjudicate a competition, he or she fails to notify the Organizer that he or she will be unable to adjudicate that Event.
2. Failing to appear at an Event without just cause after being appointed to adjudicate a competition.
3. If he or she behaves unethically, unprofessionally or in any manner not conducive to an IDO Official or Competition.

If the IDO Disciplinary Committee determines that this is the proper course of action to take regarding a valid complaint or rules infraction or any other matter brought before it for consideration.

Appeals regarding disciplinary rulings may be made through the IDO Annual General Meeting.

When merited or justified, the IDO Disciplinary Committee may issue, in writing, a lifetime suspension of an adjudicator's IDO license.

3.4 CHANGING STATUS FROM DANCER TO ADJUDICATOR OR FROM ADJUDICATOR TO DANCER

If a competitor changes status and becomes an Adjudicator, and then desires to change back to competitor status, he or she must submit a written request to the Presidium, which will render a decision. If the request is approved, the decision is final. The change of status from Adjudicator to competitor can only happen once. Before they can return to being an Adjudicator, they must take a refresher judging seminar.

3.5 GENERAL RULES AND REGULATIONS FOR IDO EXAMS

The seminar is designed to familiarize the candidate with the contents of the Rules Book and it is suggested that thorough knowledge of the Rules Book is necessary to successfully pass the Theoretical Exam. Supplementary Exams are based on the candidate’s knowledge of each particular dance discipline they wish to be qualified in. Once the candidate has passed each Supplementary Exam they wish to be licensed in they must do their “mock” judging in the same disciplines in order to be qualified to Adjudicator those disciplines.

Applications must be sent together with the candidates CV to the Adjudication Director, no later than 2 weeks prior to the seminar.

3.10.1 GENERAL PROVISIONS

1. No country can have more than one representative on the same judging panel.

2. Each Adjudicator at all IDO Events shall be assigned an alphabetical letter or number code.

3.10.2 COUNTRIES’ RANKING LIST

(How a country’s eligibility in choosing adjudicators for IDO Events is determined.)

Administered by the Adjudication Committee, the Ranking List is a rolling record listing the results of the last three (3) competitions. Results for each discipline are recorded separately. Points are awarded to each country based on these results. A country’s total number of accumulated points determines that country’s position on the ranking list. Points are awarded as follows:

1 point for every competitor taking part in the competition, solos, duos and trios

2 points for every small group/team taking part in the competition

3 points for every formation taking part in the competition

1 point for every entry placed in the quarter-final (on IDO championship where there is 1/8 final or minimum 40 dancers in a first round)

1 point for every entry placed in the semi-final.

1 additional point for every entry also placed in the final.

1 additional point for the entry placed 5th in the final.

2 additional points for the entry placed 4th in the final.

3 additional points for the entry placed 3rd in the final.

4 additional points for the entry placed 2nd in the final.

5 additional points for the entry placed 1st in the final.

In case there is only a final round there are no points for taking part in the competition and only points according placement will be counted (1st place 6 points, 2nd place 5 points, 3rd place 4 points, 4th place 3 points, 5th place 2 points, 6th place 1 point).

If we have only one country competing in one discipline only points for participation will be counted.

In descending order, the countries placed highest on the ranking list in each respective discipline shall
BOOK 5  IDO OFFICIALS AND JUDGING

receive invitations to nominate Adjudicators as needed. When more than one discipline will be offered at the competition in question, all disciplines will be taken into account. In such cases, the placements in the joint ranking list will be found by using the skating system in the same way as is done in a normal competition. The majority of points will be found according to how many disciplines are involved for a given competition.

In special occasions, when IDO is developing new areas, the Presidium has the right to choose the Adjudicators and officials without using the appointing by the ranking list system.

3.10.3 REQUIRED NUMBER OF ADJUDICATORS PER COMPETITION, CUP OR CHAMPIONSHIP

1. All judging panels must consist of an uneven number of Adjudicators.
2. The replacement of Adjudicators must be made by the enrollment closing date, even if the deadline has been postponed.

3. In the event of proven force majeure, serious illness, death of an immediate family member, a suitable replacement must be found. Panel must be reduced by 2 if a suitable replacement is not found. However a panel may never be lower than 3. Above mentioned procedure is used in emergency only.

4. In special disciplines (Break Dance, Flamenco) it is recommended that the Adjudication Director will name three Adjudicators as official, for those Organizers who want more Adjudicators it is possible to use voting Chairperson and Supervisor.

Each country with a nominated official Adjudicator is allowed to bring a Ballet specialist at their own expense to Adjudicator Ballet World Championships. CV of the Ballet specialist must be submitted 6 weeks prior to the World Ballet Championships for review by the Adjudication Director. It is up to each country to make sure their Ballet specialist is aware of the IDO rules.

5. If the competition is done on two floors 8 official judging countries will be nominated for the Continental Championship and 9 for World Championships.
   The Adjudication Director appoints 9 official Adjudicators seats for a Championship, or six for a World Cup in case of 2 or more dance floors or at very long competitions, the deadline for doing this, is three (3) weeks prior to the event.
   The Adjudication Director appoints the countries for official Adjudicators’ seats following the Adjudication Rules, in January each year.
   Additional one or two seats could be added immediately to Adjudicators’ panels, in case of big events. If that number of Adjudicators is not satisfactory, in case two or more floors are needed the Adjudication Director has the right to appoint additional judging countries as needed but not to exceed two additional nations. When additional Adjudicators are needed the Organizer and IDO will each pay 50% of the additional Adjudicator’s expenses and fees.

6. Under no condition are Adjudicators allowed to just leave a panel after they have evaluated the 1st round, unless a proven force majeure or serious illness, and must be approved by the Supervisor, Chairperson and Organizer.

7. Process of Replacing a Adjudicator who evaluated the 1st, 2nd or any other round and then he/she...
cannot continue. The Chairperson of Adjudicators will select replacements and if necessary may do the job themselves. However, once a Adjudicator is replaced that Adjudicator must remain in that position throughout the rest of the event. The Chairperson should be careful that only one country may be represented in a judging panel.

ASSIGNING OFFICIAL ADJUDICATOR SEATS IN IDO CHAMPIONSHIPS:

- One (1) seat goes to the organizing country
- Two (2) seats are given to the countries with the highest ranking points counting the last three championships
- Two (2) seats are given to the countries with the highest ranking points in the previous championship
- Two (2) seats are given to countries selected by draw

No country may have more than one Adjudicator position.

If the two best ranking countries in the last three (3) championships are the same countries as the best ranking two (2) in the previous year’s championship, the Adjudicator seats are handed down to the next best ranking countries in the last three championships. The organizing country is excluded from the ranking-based allocation of seats, as it is already granted one seat.

All the countries that took part in the previous championship participate in the draw. The organizing country and the four (4) countries that have already obtained a Adjudicator seat on the basis of ranking points are excluded from the draw.

The same Adjudicator will not be allowed to Adjudicator the same discipline and title two years in a row unless allowed by the Adjudication Director.

3.11 THE JUDGING SYSTEMS OF THE IDO:

- X’ing – The Adjudicators are required to give a X (cross) to each start number to be returned to the next round; used in the competitions where the Organizer’s music (compulsory music) is being used in the first round.
- 3-D – The Adjudicators give a numerical score to three dimensions, to each start number and X (cross) the start numbers who have the highest score. Adjudicators are required to use the 3-D system for all disciplines, categories, styles and age divisions in which the competitors supply their own music, with the exceptions of disciplines listed in 4-D.
- 4-D – The Adjudicators give a numerical score to four dimensions, to each start number and X (cross) the start numbers who have the highest score. The 4 – D system is only used in all show disciplines including Show Dance, Street Dance Show, Disco Show, Latin Show, and Belly Dance final.
- BATTLE Qualification System – Adjudicators evaluate with points 1-10 and also give A, B, C, D letters and additionally X’s
- Production System – The Adjudicators give a numerical score to two dimensions, to each start number.
- Placement System – The Adjudicator places each start number in the order of how they would like them to be awarded in the final round. Each placement can only be given once (no ties). In each IDO final, excluding Street Dances and Couples Dances, the IDO Adjudicator must to evaluate following the 3D or 4D system and finally to list the ranking/placement from the highest to the lowest scores.
Using the Official Judging Form, the Scrutineer will inform the Adjudicators how many competitors are to be called back for the next round. The number of crosses (X) is equal to the number of competitors that must be returned for the next round. The Adjudicators must follow this ruling exactly and without exception.

When necessary, in the Performing Arts disciplines and other disciplines using own music from the 1st round, to avoid a performing re-dance, the Chairperson of Adjudicators will poll all Adjudicators as to who should fill the vacancy for the next round, by using a paper re-dance (Adjudicators refer back to their notes to decide who will be returned to the next round).

In case of a tie for the first place the tying competitors must redance their routines so that a winner may be determined.(only competitors in tie for the 1st place).

**SYSTEM OF JUDGING QUALIFICATION ROUND HIP HOP AND BREAK DANCE BATTLE**

In the first round, the Adjudicators evaluate each dancer with the points from 1 to 10. Criteria for the points are:

1- bad- none of the elements are performed in correct way, out of music
2- bad- one or two elements are performed correct but out of music
3- not bad- dancer is performing weak, choreography is poor
4- not bad- dancer is performing various elements or style
5- satisfactory- dancer is performing various elements or style, but there is no fluidity or is repeating the same element two or more time
6- good- dancer is performing various elements and style, there is not enough power or image is poor
7- very good- dancer is performing the elements and style correctly, but with the small mistakes
8- very good- dancer is performing the elements and style correctly, but losing the power
9- excellent- dancer is using different styles and performing various elements on a very high level
10- outstanding- dancer is using different styles, performing various elements and bringing personal note in performance

Following the given points Adjudicators will give A, B, C, D letters and additionally X's, for those that they want into the next round.

The Scrutineers count each given letter with the points. The points are given in the following manner:

A- 4 points, B- 3 points, C- 2 points, D- 1 point. The cross is counted as 0.5 point. The dancers are sorted out for the next round (spider) by the total amount of points that comes from the given letters and crosses.

In case of tie the Scrutineer will use the following rule for the start numbers in tie:

first, the number of letters will be counted (C and D for one start number is better than B) and if the tie cannot be broken the given points from all Adjudicators (1-10) will be used in order to select the dancers for the next round. If it is not possible to select the start numbers for the next round after procedure explained in 1 and 2, then the actual re-dance will be organized by giving the points from 1-10 and letters that are needed for the next round.
BOOK 5 IDO OFFICIALS AND JUDGING

SYSTEM OF JUDGING AND COMPETITION FOR PRODUCTIONS

1. Adjudicators use points to evaluate each Production (10 points is minimum, 100 points is maximum from one Adjudicator in two dimensions).

2. Every Adjudicator must distribute the points as follows:

   **1st dimension**
   - TECHNIQUE, MUSICALITY AND DANCE ABILITY (5-50 points)

   **2nd dimension**
   - INTERPRETATION, PRESENTATION, COSTUME AND ENTERTAINMENT (5-50 points)

3. Production will be evaluated by 7 Adjudicators minimum.

4. In case we have 7 or more Production enrolled, total number of points given by Adjudicators will be counted to select the 3 best Productions, which are qualified for the next round. The highest and the lowest score in each dimension will be dropped from the total score. If we have 7 Adjudicators in the panel, overall point for performance will be 500 points. (High and low will be dropped)

5. All those who are not qualified into the final round, will get diploma.

6. Three Productions with the highest number of points perform in the final round. Adjudicators use the points to come to a placement and placement system (1st, 2nd and 3rd place) to distribute the places 1-3. Skating system will be used by Scrutineers for final placement.

7. In the case of 6 or less enrollments, a final round is not necessary, and should be evaluated using the placement system (1st through 6th place). Adjudicators use points according 2 dimensions which are explained above (#2).

8. In case of a tie for the 1st place in Productions, the Production with the highest score total becomes the title winner. In case the total is the same a paper re-dance is necessary.

3.11.1 HOW THE 3-D AND 4-D JUDGING SYSTEM WORKS

Each dimension has a score ranging from a low of 1 point to a high of 10 points. In Show Dance in criteria Technique and Show Adjudicators may give maximum 20 points. Each Adjudicator will award marks in each dimension as he or she feels are warranted. This would give a minimum score of just 3 (3-D) or 4 (4-D) points per Adjudicator, but would allow for a maximum of 30 (3-D) or 40 (4-D) points per Adjudicator total, 60 points total in Show Dance. At the end of each preliminary or semifinal round, each Adjudicator must count the total points awarded each competitor and then give the prescribed number of Xs (crosses) to the competitors with highest points (total TCI or TCIS). Each Adjudicator uses this system independently of all other Adjudicators.
BOOK 5  IDO OFFICIALS AND JUDGING

3.11.2 OPEN MARKING

It is the Organizers prerogative whether or not to use the open marking system. It is always recommended and encouraged that in the Children’s division, no open marking will take place. However, if in the best interest of keeping within a normal time frame, the Supervisor and Chairperson of Adjudicators may suggest that no open marking be done. Open marking in the finals may only be used when it is requested by the Organizer and/or Chairperson no later than 2 months before the competition.

3.11.3 THE DIMENSIONS

Each area or ‘dimension’ of a dance performance contains similar components, all of which are evaluated at the same time during each performance. These dimensions have been given the following designations:

T = Technique  C = Composition  I = Image  S = Show Value

3.11.4 WHAT IS EVALUATED IN EACH DIMENSION

Technique

Evaluation in Technique Dimension covers evaluation of: the accurate performance of the fundamental techniques for the discipline and style being evaluated; displaying the authentic style or nature of the dance being performed; the difficulty level of the figures used in the performance; accuracy in usage of basic and advanced rhythms; floor craft and (where applicable) connections with fellow performers; synchronization with the music and (where applicable) fellow performers.

The dancers’ ability in performing these aspects is of great importance, and competitors are advised to choose movements, rhythms and dances that they are well suited to perform at competitive levels.

Although each individual dance discipline has its own unique technique that stays within the technique developed for that particular dance form there are certain techniques that remain constant for all dance disciplines.

- Balance – In Modern off balance work is acceptable
- Control
- Stretch
- Fluidity of movement
- Agility (ability to move quickly)
- Musical timing and the ability to stay within the phrasing of the music
  (In Tap dance off beat sounds are acceptable)
- Athleticism
- Strength
- Power
- Energy

Composition/Choreography

Composition evaluation involves an evaluation of the movements, figures, variations, rhythms, and (where applicable) the patterns, lines and circles that are used in composing each routine. Variability and originality in using each component, the use of vertical and horizontal space, and usage of dance floor area are also evaluated in this dimension.
The following may be used in the Adjudicator’s evaluation of Composition:
- Use of music and musical phrasing
- Use of space
- Use of dimensions or levels
- Appropriate music for the concept being presented
- Appropriateness of steps to theme or music
- Appropriateness of style to theme or music
- Emotional content
- Technical level within the reach of all dancers
- Age appropriate in concept, movement and style
- Creativity
- Originality
- Daring to be different
- Dramatic, visual and theatrical effects

Image/Presentation

Physical and emotional expression, presentation, communication with the audience, performance energy level, and the power of the performance to affect observers are all highly important to the Image Dimension. Other important aspects of Image include props, costume, make up, grooming, and overall harmony of idea in the routine when compared to the music, movements, costume, and other intrinsic elements chosen for the performed dance.

The following may be used in the Adjudicator’s evaluation of Image:
- Appropriate costume
- Appropriate make-up
- Grooming: hair, body and costume
- Correct fit of costume
- Clean costume, tights and shoes
- Ability to capture the audience
- Personality
- Emotional execution
- Charisma
- Self-assuredness
- Enthusiasm
- Precision and Synchronization
- Interaction between dancers
- Do dancers relate to one another?

Show Value

The following criteria should be used in determining your score for the show value of the piece being presented. Entertainment or audience appeal, originality and creativity of the concept, story idea or theme. Appropriateness of the costume as it relates to the concept along with creative costume changes, story, idea or theme. Inventive and creative visual effects using props and creative designs. Acrobatic movements, lifts and spectacular jumps and other special effects are encouraged. The piece should adhere to its concept throughout and there should be harmony between the concept, music, choreography and movement. The piece should be age appropriate for all dancers included in the piece and never be visually or audibly offensive to the audience. The Adjudicator must take all of the above into consideration when reaching the evaluation for show value. The Adjudicator must not include dance value in this mark and pieces that are “pure dance” should be evaluated on a lower scale.
The following may be used in the Adjudicator’s evaluation of Show Value:

- Is it entertaining or interesting?
- Does it have a story, theme, concept, idea or message?
- Does it thoroughly make use of the story, theme, concept, idea or message throughout, both visually, emotionally, theatrically and/or authentically?
- Is the costume right for the choreography, to enhance the overall presentation?
- Is the choreography in relation to the theme, as it relates to the overall performance?

4. IDO members have to pay start fee and yearly registration fee for all dancers enrolled till deadline to IDO events.

5. The penalties for late enrollments will be as follows:

   a. Up to seven days before the event, changes in name only will not result in a penalty. Name changes after this deadline has to be accepted by the Organizer.

   b. After the deadline and up to the day of the competition, the fee will be double.

   c. If the Organizer allows changes on the day of the event, the fee will be triple.

   NOTE:

   The Organizer may not set the deadline any earlier than four weeks prior to the event.

ANNEX 1: IMPORTANT PSYCHOLOGICAL ISSUES IN RELATION TO EVALUATION AND ESTIMATION IN DANCE

The Inherent Problems of Evaluation and Estimation in Sport and Dance

From a psychological standpoint, the value and reliability of an evaluation is based on the belief that a human being is able to render an objective and exact evaluation of a given subject.

Many different opinions have been put forward about the inherent problems of objectivity and subjectivity of measurement, evaluation and estimation. Virtually everyone agrees that total objectivity in evaluations and estimations is quite hard to reach. As the subject becomes more general and undefined, it becomes increasingly more difficult to render an objective evaluation. In such cases the evaluation is quite subjective.

Human beings render evaluations and estimations. Errors in judgment due to one’s emotional involvement, desire for personal gain, desire to fit in with one’s peers, views on morals and ethics, familial relationships and many other factors will always be inherent to the evaluation process. For this reason, every evaluator, coach, trainer and competitor should be aware of the following:

An evaluation is always influenced by the evaluator’s attitudes, viewpoints and opinions.

The six most frequently encountered mistakes and errors of judgment in evaluation are:

1. Easy / tough estimation errors
2. Central tendency errors or ‘average’ mistakes
3. “Halo” effect errors
4. Logical errors
5. Contrast errors
6. Closeness errors

Easy / Tough Evaluation Errors

These errors occur when favoritism or bias is allowed to intrude into the evaluation process. The people responsible for making fair and objective decisions appear to be too easy in some evaluations or too tough in others.

Easy evaluation errors include the tendency to estimate someone more favorably if the evaluator knows him or her personally and / or the evaluator is more interested in one particular person or persons than the other contestants present. The evaluator will often overlook faults in his or her ‘favorites’ while ignoring quality in others because the evaluator could possibly gain something from his or her decision. This tendency frequently occurs when the estimator wants his or her team, school or country to succeed at any cost. But, due to human nature, the Easy / Tough error is usually associated with an emotional relationship or attachment between the evaluator (Adjudicator) and one particular athlete or dancer.

Even weak or one-sided emotional relationships can cause the evaluator’s judgment to become biased. An evaluator might view a person in a manner that is not reciprocated, but will, because of desire or even an imagined attachment, make decisions that he or she would never make in other circumstances.

The following three situations can be especially problematic for an evaluator (Adjudicator):

1. If he or she is a member of a dancing club or group and will also be evaluating those dancers.
2. If he or she is a parent of the competing dancers, or has some other familial relationship with them.
3. If he or she must evaluate competitors from his or her own country. The Easy error almost always appears when the evaluator:
A) Knows a dancer or dancing couple personally; B) Is also their supporter, and;
C) Wishes them to win.

Subliminal stimuli that the evaluator is not even aware of often cause this type of evaluation error. Oddly enough, this tendency can cause a response that is the exact opposite of what is considered normal in such situations. Sometimes, the evaluator is overly aware of a personal involvement of some sort with the person or persons he or she is evaluating. In these cases, the evaluator becomes more critical of each and every movement or performance presented by persons he or she knows personally.

This is especially true if the evaluator feels that he or she may be perceived as one who either does or could show favoritism for some reason. In an effort to prove this is not true, he or she becomes unfair to the contestants and is often guilty of ‘tough’ evaluation errors. For instance: An evaluator could place much more stringent demands on his or her son or for a World Champion that is a close personal friend or relative of the evaluator. This type of ‘tough’ error also causes a mistake in the process of evaluation, and would place doubt on the reliability of the evaluator’s decision.

Central Tendency Error or “Average” Mistakes

The issue of this type of error is that the evaluator (Adjudicator) tries to avoid extremes of evaluation. In these cases, the dancer, due to justifications not based on the dancer’s ability, is evaluated in the central or “average” range. Such evaluation is often observed when the competing dancers are new and the evaluator knows little or nothing about them. Not knowing how these new dancers will be perceived by other evaluators present, such dancers are sometimes unfairly placed in the central or ‘average’ range simply because the evaluator desires to avoid criticism from his or her peers for being too easy or too tough.

The actual quality of the performance is overlooked in such cases. Competitors are given scores in the average range because the evaluator is attempting to avoid an imagined mistake by allowing the possibility of unfavorable comments from his or her peers to cloud his or her decision. Central tendency or ‘average’ mistakes are based on nothing more than social interaction with, and the opinions of, one’s peers. This is something all evaluators should guard against.

“Halo” Effect Errors

This type of evaluation error has been discussed since as far back as 1907. Halo Effect Errors are caused by the same factor that sometimes cause parents to think that their child is an angel and can do no wrong. A Halo Effect Error is merely a tendency to evaluate all characteristics of a dancer from a mental impression or a viewpoint based solely on that dancer’s past accomplishments instead of what that dancer is presenting during the current evaluation.

If reigning World Champions give a poor performance, the Halo Effect will often kick in and give them higher scores than their performance merits. If the evaluator knows a dancer personally, and knows that he or she is capable of performing at a higher level due to past performances, poor performances are often overlooked. In one sense, this type of judgment error is the most biased of all. It creates an unfair advantage to the recipient while not taking into account the often times excellent performances of others. The exact opposite sometimes occurs when someone who is perceived as always performing poorly truly excels. Such accomplishments are overlooked due to the evaluator’s preconceived idea regarding how that dancer has performed in the past.

Such errors can be recognized in the similarity of scores among the various parts of a performance’s evaluations. Due to a Halo Effect Error, poorly defined or rarely mentioned characteristics and even the evaluator’s personal and subjective values become involved. This involves factors outside of the actual performance, such as moral characteristics, honesty, being a good person, and so on. In these cases, a performer who is known to be rude, arrogant, or dishonest will be evaluated on those characteristics, which have nothing at all to do with the actual performance. Likewise, a less capable dancer may be viewed more favorably because he or she is always honest, thoughtful, kind and caring.

Even the interaction or interpersonal relationship of the dancers can cause Halo Effect Errors. If a couple has a personal relationship that is not working well and this is affecting their performances, evaluators will often ‘make allowances’ for the tensions caused by the personal relationship that are affecting the actual performance.
When a new partnership is formed and the evaluators feel it will be a good match because both performers have a good record from the past, they will often be more lenient in their evaluation than is merited by the actual performance.

Evaluators should look closely at what is actually being presented, not what they perceive from prior performances or how they view the performer as a person. We are not asked to make moral judgments when evaluating dance, and should avoid this at all cost.

**Logical Errors**

Evaluators who incorrectly link unrelated characteristics to one another from the logical standpoint that they are similar make Logical Errors. For example: If the evaluator believes that a performer’s exactness and his or her coordination are related, then the dancer’s exactness in movement and his or her coordination will be evaluated similarly, no matter how each of the real components of the performance were executed. Logical Errors are related to the consistency inside the characteristics of dance, and the dancer’s role is of relative unimportance to this aspect of evaluations. Unlike the previously discussed errors, Logical Errors may appear while evaluating any dancer. Logical Errors can be avoided by making evaluators aware that their evaluations must be based on characteristics that are concrete and can be physically observed. Evaluators must be made to realize that it is a mistake to use logic to associate abstract characteristics. Training in this area should proceed with all possible haste in an effort to eliminate Logical Errors to the best of our ability.

**Contrast Errors**

Contrast Errors occur when an evaluator allows his or her preferences in style, creativity, ability, skill level, and so on, affect his or her evaluation by merely contrasting a performance against those preferences. He or she will evaluate all dancers based on how he or she would evaluate his or her own performance. This type of error appears more frequently if the evaluator is a more active dancer and coach. If he or she views compatibility between dancers highly, and thinks he or she is (or was) compatible with his or her partner, then all other dancers are evaluated on the basis of how their compatibility compares or contrasts with the evaluator’s.

Some evaluators are more likely to make Contrast Errors if they have a close relationship with the person or persons being evaluated. He or she will unfairly contrast one or two performers due to such relationships, but will be extremely fair to all others. Contrast Errors are often made by less emotionally stable evaluators who are unable for some reason to separate their work from their personal feelings and emotions.

**Closeness Errors**

In this type of error, characteristics that are closer together in sequence are evaluated more similarly than those that are evaluated farther apart. This is due to the mixing problem of evaluating characteristics of individual components of a performance. If we evaluate more characteristics or components of a performance, our mind insists that those characteristics of components that are close together will be more similar than those that are farther apart. The problem is in the evaluator’s own mind, but creates a subjective evaluation that affects the final result. Concentrating on the evaluation of specific components can control such errors.

**The Sources of Evaluation Errors**

- The variability among evaluators.
- The interaction between evaluators and dancers.
- The relation between evaluators and evaluating characteristics of dancers.
- The error of interaction between evaluating components and characteristics.

**Suggestions for Improvement of Evaluation**

All these errors warn us that judging evaluations can never be done in a totally objective manner. A large amount of subjectivity will always be present in the evaluation process. We can and should take steps to remove as many errors from the process as possible. Some steps to take toward that goal are:

1. Provide better training for Adjudicators so that they are more aware of the types of errors and what causes them.
2. Define more clearly the areas and characteristics to be evaluated.
3. In a limited field, it is nearly impossible to use Adjudicators who do not know some or all of the dancers. But, whenever possible, we should choose Adjudicators for a competition who have no strong relationship to any dancer in that competition.

4. Discard competitors' highest and lowest scores.

5. Standardize instructions and issue warnings according to the object of evaluation beforehand.

6. Compare evaluations in meetings and seminars and warn Adjudicators who make repeated mistakes.

7. Wherever possible, eliminate the subjective impression of the evaluator (Adjudicator) and use a more objective scale in the evaluation of all performances.

In addition to all previously discussed errors, the following errors also occur:

- **Beginning Errors**
- **Ending Errors**
- **Referent Group Errors**

**Beginning Errors** are similar to ‘Tough’ evaluation errors. When we must evaluate a series of performances, we are often too ‘Tough’ on the early performers because we are still waiting for something ‘better’ to come along. Those beginning performers receive poorer evaluations than they really deserve. Beginning Errors are minimized when the evaluation for every dancer is made at the end of the performance series. But the problem still exists since, in our minds, we made a partial evaluation for every performance as the series progressed.

**Ending Errors** usually occur when all the ‘good’ dancers have finished their performances. The expectations of the evaluators are lower at this point, so the remaining dancers are evaluated against an unfair standard and receive lower scores. This error is seldom a problem in final rounds of competitions, but it can be quite a problem in the earlier rounds where far more dancers are being evaluated.

**Referent Group Errors** occur when evaluators have a tendency to choose the best dancers in a group of dancers. In such cases, a merely average couple will, through reference, be ‘good’ among a field of bad competitors. Since the referent group contained a majority of below average competitors, a merely average performance will be brought forward to subsequent rounds due to an erroneous process. At that point, this error is further compounded due to the Halo Effect Error discussed earlier. Evaluations resulting from a Referent Group Error are mostly unreliable.

**Author’s Note:**

At the end I would like to emphasize that, even if we are unaware of it, all these errors are very present in the process of evaluation. We must do as much as is possible in trying to minimize such errors through education, recognizing where and when these errors are likely to occur, and by balancing adjudication panels as far as possible.

ANNEX 2: OFFICIAL IDO FORMS AND EXAMINATION STUDY NOTES

The following information is provided as a study guide for persons preparing for the IDO Adjudicator’s Examination. Each candidate will receive between 12 and 20 questions from the pool of questions listed in this section. All questions have been answered, and the correct answer to each YES / NO, MULTIPLE CHOICE or TRUE / FALSE question has been bolded, italicized and underlined, as in question 1 below.

All examinations will be altered at each seminar to avoid people passing on answers. These are just example questions.

The Three Dimensional (3-D) Scoring System

1. IDO calls its judging system the Three Dimensional (3-D) Scoring System because three separate dimensions of each routine are evaluated.

   **True**  False

2. Briefly explain what is evaluated in the technical dimension of a competitive routine.

   *The degree of skill or command of the fundamentals that are exhibited in any performance. Adherence to the basic fundamentals that were set by the creators of the discipline being performed.*

General Questions Related to Judging, Conduct & Judging Procedures

3. Is your spouse or companion allowed to sit with you while you are judging?

   *Not unless he or she is your official interpreter.*

4. The Chairperson of Adjudicators must be away to solve a problem elsewhere and asks you to fill in for him / her. What would be your duties?

   *List all of the following in your answer*

   To ensure that the competition is carried out in accordance with the Official IDO Rules.

   To handle all problems referred to the Chair by the Adjudicators, and to designate a person or persons to act in this capacity when the Chairperson will be absent for any reason.

   To appoint, with the approval of the Supervisor, a substitute adjudicator to replace any nominated adjudicator who fails to appear at the competition.

   Making a decision, in cooperation with the competition Supervisor, to disqualify any competitor.
5. During or after an IDO Event, what should you do if an angry observer approaches you?

*Do not defend your actions and immediately report the incident to the Chairperson of Adjudicators, who will take immediate action to have the person removed from the competition site.*
