SECTION 1 DEFINITION OF IDO EVENTS

1. IDO EVENTS

1. IDO Events are competitive Dance Sport Events, in particular championships and cups, which are organized and conducted under the rules and conditions contained in the IDO By-Laws, these Rules & Regulations and the respective IDO Event Contract.

2. IDO Events are organized by an Organizer contracted by the IDO Presidium. IDO Events must be supervised by an IDO Supervisor and must be conducted under the IDO rules for scrutineering and adjudicating.

3. All IDO Events, Competitions, Cups etc. are announced on the IDO web site in a timely manner. All necessary application forms are attached to these Rules and may be found on the IDO web site. IDO does not guarantee that particular events, in particular championships or cups, will be held regularly or at any given year.

4. Unless regulated otherwise, IDO Events are open to dancers which are duly enrolled by their IDO National Member Organization. Enrolments must be made through the DIES Direct Internet Enrolment System.

5. Competitions at IDO Events will be held and Adjudicator under the IDO Dance Sport Rules (Book 3 Of these Rules & Regulations) in their current version. The levels of championships are the following:

CHAMPIONSHIPS STRUCTURE

The levels will be:

4. World Cups
5. Continental Cups
6. Regional Continental Cups

   - Dance Festivals

Regional Continental Championships will be divided in the following manner:
- North European Championships
- South European Championships

The competition title “IDO World or Continental Championship” can be granted by the IDO Sport Director. The criteria to grant the discipline and category titles are:
- **a) For discipline title:** When a minimum of at least 5 different countries attending the Championship in total (which will be checked from the result lists on the IDO website).
- **b) For category title:** In each discipline, age group and category, the minimum of 6 entries from 4 different countries (which will be checked from the result lists on the IDO website).

If a competition fulfills the required criteria in the 2 (two) years, then the same title can be granted for the next following year.

DISCIPLINE TITLE

Example 1:
- 2010-World Championship XXX (24 countries),
- 2011-World Championship XXX (4 countries),
- 2012-World Championship XXX (discipline has a title)

Example 2:
- 2010-World Championship XXX (4 countries),
- 2011-World Championship XXX (4 countries),
- 2012-World Cup XXX (discipline has lost the title)
BOOK 2  ORGANIZATION AND CONDUCTION OF IDO EVENTS

CATEGORY TITLE

Example 1:
- 2010-World Championship ADULT SOLO FEMALE (16 entries from 4 countries),
- 2011-World Championship ADULT SOLO FEMALE (8 entries from 4 countries),
- 2012-World Championship ADULT SOLO FEMALE (category has a title)

Example 2:
- 2010-World Championship ADULT SOLO FEMALE (12 entries from 3 countries),
- 2011-World Championship ADULT SOLO FEMALE (8 entries from 2 countries),
- 2012-World Cup ADULT SOLO FEMALE (category has lost a title)

In case of a long term contract, this rule will also apply. This means the IDO Sport Director and the Organizer will negotiate one year before the event regarding the titles being granted, following the principles of the rule above.

A championship title cannot be granted if it is a first time competition in a new discipline, age division or category.

The above restrictions do not apply to World or Continental Cups.

Exceptions are possible by the Sport Director, with the approval of the IDO Presidium.

1.2 IDO RANKING COMPETITIONS

IDO is introducing new competition “IDO GRAND PRIX” (IDO Ranking competition title) - Sport for All events, which are open to all dancers, regardless their dance knowledge and experiences. Four (4) IDO Grand Prix editions will be organized annually, results will be counted into the IDO RANKING. Dancers with the IDO licence may qualify (“wild card”) to the next year World Championship if they are ranked in the highest IDO ranking places.

These events are widely opening the door to dancers which rarely or never qualify for the World Championship. Participating in IDO Grand Prix events, being high ranked, can get a special “wild card” which open them a door to the World Championship. This “wild card” is not counted to the national quota of participation in the World Championship. Such new concept of competition is not only a benefit for dancers, but also for organizers and adjudicators. Having more IDO events means that there are more possibilities to organize IDO events, where may have not been organized yet.

Adjudicators have more events to participate, which will help them to get more experiences. At the same time, these events are good for new adjudicators – where they can start their careers.

The IDO Grand Prix is good for promotion of IDO events, and enrollment of new IDO licensed dancers.

1. APPLYING FOR AN IDO RANKING COMPETITION

Bidding procedures, regulations and rules for an IDO Ranking competition are same as the bidding for IDO Championships and Cups.

2. TITLE OF THE EVENT

2.1 IDO Ranking competitions must comprise the following titles:

a. IDO (official IDO logo) GRAND PRIX or IDO (official IDO logo) GRAND PRIX OF XXX (name of the city, country)

2.2 A CONTINENTAL or WORLD CHAMPIONSHIP and CUPS cannot be a Ranking competitions.

2.3 All other titles or names of the competition must be published as sub-titles.

3. COMPETITION FEE

3.1 The competition fee for all IDO ranking competitions for year 2020 confirmed by the IDO Competition Managing Committee is set to 500,00 euro (flat fee for all days of the ranking competition).

3.2 Competition fees in 2021:

- 1 day competition = 500,00 euro
- 2 day competition = 750,00 euro
- 3 day and more = 1.000,00 euro

3.4 In case the Organizer is applying for more event titles the competition fee is an additional costs added to the existing competition fee as a new competition contract.

NOTE: The fees should be under competition fees in Book 6, 6.5. and taken out from here.

4. RANKING LIST

4.1 Only competitions of the Adults age division for solo, duo, couples and groups are counted in the ranking.

4.2 The ranking list for 2020 will be based on the results from (the last) 2 years (2018 and 2019).

4.3 The ranking list will be published as explained below each year and is the actual list of the eligible participating at the IDO World Championships in that year in the dance discipline(s) ranked. All competitions after this date are counting for the following year.

4.4 First 10 best ranked dancers for Street Department, first 5 best ranked dancers for Performing Arts disciplines and 10 best ranked dancers for Couple dance Department will be considered to receive the – “Wild card” As ranking is ranking there are no limits per country – and as the event is open to anyone, then it is important to respect results (ranking). The proposal is to give some minus points to those athletes who participated in the World Championship in the last two years.
4.5 The annually published IDO-ranking list is only for registered IDO dancers enrolled by their IDO NMO. Non-IDO dancers will receive points and will be visible on the published ranking list, but will not be able to receive a “wild card” until they are not registered by their IDO NMO.

2.2.1 IDO COMPETITION BIDDING PROCEDURE

Introduction

The positive image of dance and its reputation is best represented by the quality of the organization of the major IDO events and its recognized events. Consequently, each National Member Organization seeking to organize the IDO Dance Championships or Cups must be aware and fully informed of the rules, regulations and standards made on it by the IDO at the time of bidding.

The procedures contained in these documents have been drawn up to assist any potential Organizer prepare its bid and understand its obligations towards the International Dance Organization. The intention of the IDO is to provide a consistency in the way its Championships and Cups are organized and presented, and by doing so eliminate unnecessary costs that are often incurred by the Organizers. By introducing this new procedure, the IDO is seeking to ensure that most uncertainties are removed when an event is allocated. If the demands of organization cannot be fulfilled, then it is best that a potential Organizer desists from bidding until it is truly ready.

The IDO Sport Director is always available to advise and assist any potential bidder before a formal application is made. In many cases, important and relevant experience can be gained from organizing a lesser event before seeking to stage a major IDO Dance Championship, and this is a path that is recommended to new Organizers.

Basic Considerations

Any bid to organize an IDO World- or Continental Championship or Cup must have the full support of the IDO NMO. If other official bodies within the country, for example government, local council, or others will be part of the Organizing Committee they should also sign the bidding. All parties must be aware of and accept their responsibilities in organizing the event, including all related costs. If these responsibilities are understood at the time of bidding for an IDO Dance Competition then there is little risk of unpleasant surprises. In addition, each bidding party must guarantee the security and public health resources allocated to protecting the event.

The IDO Sport Director is always available to advise and assist any potential bidder before a formal application is made. In many cases, important and relevant experience can be gained from organizing a lower level event before seeking to stage a major IDO Dance Championship, and this is a path that is recommended to new Organizers.

All IDO World and Continental Championships and Cups must be bid at least two years prior to the planned date. IDO Approved and Licensed events as well as Festivals must be applied by email to the IDO Sport Director. Deadline for the bidding is May 31st of each year.

To make a bidding, the NMO must send the IDO Sport Director a filled out and signed “Bidding Form” by email. The Bidding Form can be downloaded from the IDO website (in the Competitions section → “Bidding Form”). The decision to grant the rights for IDO World and Continental Championships / Cups and any other form of IDO competition to an Organizer will be made by the IDO Competition Managing Committee which consists of the chairing IDO Sport Director, the Adjudication Director, the responsible Directors of the Dance Department (Performing Arts, Street- and Couple dance) and two more appointed members when needed.

It must be understood and agreed to by the NMO that if the IDO Competition Managing Committee accepts its bid then the NMO must cover all responsibilities regarding the organizing of the Event and will be liable for all costs associated with the Event.
BOOK 2  ORGANIZATION AND CONDUCTION OF IDO EVENTS

Competition Calendar

IDO strives to be represented and demonstrated in a professional manner which it manages its major events in its calendar. To ensure consistency an annual competition calendar will be drawn up applying a number of basic criteria.

The IDO Continental Dance Championships will be held in the time period May to July and the IDO World Dance Championships in the time period September to December.

Currently, IDO Dance Championships are generally organised in different time periods. On the one hand the fixed calendar could limit the opportunities for existing Organizers who are not able or willing to change the dates of their current competitions.

It is in discretion of the Sport Director to decide how to handle special cases that could be seen as a unique opportunity to create new events in new markets.

Choice of Venue

1. An important part of the selection process will be related to the proposed venue.
2. A number of criteria are included in the IDO Organizer contract which forms part of these bidding documents. More details are contained in the Bidding Application Form.
3. In addition to the physical requirements of the venue, it is important that the venue has been checked by an IDO licensed Supervisor or Presidium member that has been delegated by the Sport Director. All costs (travel, hotel and per diem) must be paid by the National Member Organization or Organizer that is applying for the IDO event. When necessary the Organizer that is bidding for a competition should organize a meeting with the meeting with the sports hall management, major, President of national member organization... It is in discretion of the Organizer to inform the Sport Director as well as the Supervisor of how many days they need an IDO official to be present. All additional days need to be paid as well.
4. Also very important is that there is support from the local community to ensure that there is an exciting atmosphere within the venue to demonstrate support and enthusiasm for the event. In this respect, communication and promotion must be primarily for the IDO event especially IDO Continental and World Championships, rather than for the other events included in the program.

Event Organization

1. All efforts must be made to provide the highest quality of organization to participants, officials and the public.
2. This starts with the arrival of athletes and officials at the airport, immediate and trouble-free entry into the host country, the transport to their hotels, the quality and price of these hotels, the system of accreditation ensuring access to the locations essential for them to compete or work, transport from hotels to venue, provision of catering facilities at the hotel and venue, medical services, and information and services to the public which will provide the maximum enjoyment from the event.
3. IDO does not guarantee that any or all Sanctioned Events will be run in any given year.

For more information, please also see the IDO Rules and Regulations

Procedure for Selection and Deadline for Submission of Application

1. The selection of Organizers for each IDO Events will be made by the IDO Sport Director that can ask the President of Adjudicating Committee and the responsible Director of a dance department (Performing Arts, Street and Couple Dance Director) as a Managing Committee for ratification by the IDO Presidium.

2. With the introduction of these new bidding procedures, the allocation for the IDO Dance Championships, cups and other IDO events will be made two years prior to the organization of the relevant IDO Dance Events by the IDO Sport Director and the Managing Committee (see in Book 2, under 2.2.1).

3. For IDO Dance Sport Championships in 2016 and beyond, applications must be with the IDO Sport and Competition Office by the end of May 2014 prior to the IDO General Meeting that will take place two years before the IDO Dance Championship concerned.

SECTION 3 CONDUCTION OF IDO EVENTS

3.1 REQUIREMENTS FOR PARTICIPATING DANCERS

Dancers representing a country in an International IDO Competition must reside in or be a citizen of the country being represented. For countries whose territory extends on two continents, the geographical borderline is decisive for the participation in continental competitions. Participation in Continental Championships or Cups requires residency or citizenship of the dancers on the respective continent. For the participation in World Championships or World Cups the national member may elect dancers from either continent or both continents. (AGM 2017, Implementation 1.9.2017)

Specific conditions that must be met to represent a country: In order to represent a country, a dancer must prove that he or she has resided in that country for at least two (2) years. Upon receipt of a written request from a dancer that he or she been allowed to represent his or her current country of residence prior to having resided in that country for 24 calendar months, the IDO Presidium may grant special dispensation to make such a change. A citizen of one country who resides in another country may be eligible to represent either country. However, once a dancer has declared which country he or she will represent, the IDO Presidium must approve any subsequent changes.

Dual Nationality (2 passports)
In the case of dual nationality the dancer is free to choose which country he/she wants to represent. If a dancer wants to change his/her representation to his/her second nationality, the IDO Presidium must be asked in written form. Any change back may only be made after a 12 months period.

3.1.2 Installing of an IDO Flag at a Competition to Represent a Country
The IDO Presidium can decide that in special cases as:
- when an IDO NMO that represents the country fails to meet international standards for conduct,
- when there are special conditions that the dancer cannot represent his/her country as their political identity is not clearly defined (refugee situation)
- when there is a higher political dispute between IDO and IDO NMO,
- when IDO has proof of mismanagement and corruption of IDO NMO, IDO flag may be used for representing competitors at the official IDO Championships.

Decision of the Presidium must be solved case by case and competition by competition. The decision is valid only for 1 competition per case. Request needs to be sent to the IDO Sport Committee that will collect all necessary documentation for the Presidium Meeting. (AGM 2018, Implementation 01.01.2019)

3.2 NUMBER OF ENTRIES PER NATION (EPN)

Championships
The number of competitors to be invited will be proposed by the Organizer and ratified by the IDO Sport Director.

Wild Card
The Organizer may invite one additional “dancer group” from their own city, region or country in each discipline, category and age division.

Defending Champion
1. A soloist who wins a World Championship title is entitled to defend that championship title, in the same discipline, the following year. If their age range changes they may defend the title in the next higher age division.
2. A duo or couple who wins a World Championship title is entitled to defend that championship title, in the same discipline the following year. If one or more of the duo’s age range changes, they may defend the title in the next higher age range.
3. In the case of trio, groups and formations, it is the team name that defends the title. The dancers in the trio, group and formation may change but they must all be within the rule regarding age. A trio, group or formation cannot advance to the next age level when defending a championship title.
4. Continental Championships will use the same rules as those above governing World Championships
5. In the case, a Championship is not run in a calendar year, the Defending Champion may defend his/her title in the next Championship in that discipline. In the event their age has advanced, they may then compete in the next age level up.
World Cup
The first, second and third place winners of any IDO Couple Dance World Cup Competition will be granted the right to an additional entry in the next IDO Couple Dance World Championship featuring the same discipline.

3.3 CORRECT USAGE OF TITLES
The correct title of the competition shall be used only in this way:

➢ “IDO” (IDO) +
➢ “Competition level” (World /Continental) +
➢ “Discipline” (Hip hop) +
➢ “Championship” (Championship / Cup) +
➢ “Year” (Year)

example        IDO World Hip Hop Championships 2015

At competitions for Juniors, Children, Adults 2 (= non adults) the title must also include the correct “Age Division”.

example        IDO Junior World Hip Hop Championship 2015
               IDO Junior European Disco Dance Cups 2015

If the IDO Competition is part of any traditional named event or if there is a general sponsor, both titles can be connected, but the IDO Competition title must be given,

example        IDO World Hip Hop Championships 2015 (main title)
               “DANCE IT” (second title as sub headline)

In Mini Kids no World- or European Championship title can be given. The highest title is “Mini Kids Dance Star”.

In Mini Kids division Championship title cannot be given. The highest title is Mini Kids Dance Star.

The Official Continental and World Championship title will always be in the Adult 1 Division. For Children, Juniors and Adults 2, the title must be defined with the age division.  
Example: Children World Tap Dance Championship 2014.

It is not possible to compete in one discipline and one category in two different age divisions at the same competition event.  
Example: If a dancer competes in Disco Mini Kids solo he/she cannot compete in Disco Children Solo category, but can compete in Disco Children Formation.

DETERMINING ONE’S AGE DIVISION

A competitor’s age division is determined by his or her year of birth as it falls within the calendar year of the competition.

a. For Duos or Couples, the eldest partner’s date of birth determines the age division. A partner no more than two years younger than the lower age limit may dance in an older division, but the age span cannot exceed three years.

Example: One dancer is 10 and one is 13, they may dance in the Junior Division but if the younger dancer is only 9 they may not.

NOTE 1: While younger dancers may dance ‘up’ a division, the reverse is not possible and older dancers may not dance ‘down’ a division.

NOTE 2: A younger dancer who dances ‘up’ a division as outlined under the rules, such as a child of 11 dancing in the Junior Duo division, MUST dance in that age division in that category for the reminder of the competition year. He or she may NOT dance in the Children’s division with a different partner, but he or she COULD dance in the younger (children’s) division in Groups, Teams, Trios, Crew or Formations.

Once a dancer has chosen to move up an age level in a specific category, such as Tap Duo or Jazz Duo, he/she must remain in that age division until the end of year and not move back.  

Dancers are permitted to dance in two specific age divisions only under the following conditions: A dancer cannot dance in both Junior Show Dance Duo and Adult Show Dance Duo, i.e. two different age divisions of the same discipline and category. However he/she may remain in the same age division of all other specific categories, until they reach their next age level.

Example: A child age 10 or 11 may dance in JUNIOR Show Dance Duo and still participate in all Children categories Show Dance Solo, Disco Dance Duo, Hip Hop Group, Tap Formation but NOT CHILDREN Show Dance Duo.

Rules for duos and couples, valid from 1.1.2020

For Duos or Couples, the eldest partner’s date of birth determines the age division. A partner no more than 2 year younger than the lower age limit may dance in an older division, but the age span cannot exceed 2 years.  
Example: One dancer is 11 and one is 13, they may dance in the Junior 1 Division but if the younger dancer is only 10 they may not.  

One dancer is 13 and one is 15 they may dance in the Junior 2 Division, but if the younger dancer is only 12 they may not.  
(AGM 2019, Implementation 1.1.2020)

b. In Trio, Groups, Teams, Crews and Formations a dancer no more than two years younger than the lower age limit may dance in an older division. This rule shall apply to all Age Divisions of Trio,
Groups, Teams, Crews or Formations, except the Adult 2 and Senior Division, with the following restriction: Not more than 50% of the dancers in the Trio, Group, Team, Crew or Formation can be two (2) years or less younger than the actual age division. The age of all other dancers in the Trio, Group, Team, Crew or Formation must fall within the specified age range.

**NOTE 1:** While younger dancers may dance ‘up’ a division, the reverse is not possible and older dancers may not dance ‘down’ a division.

Once a dancer has chosen to move up an age level in a specific category, he/she must remain in that age division until the end of year and not move back.

Dancers are permitted to dance in two specific age divisions only under the following conditions: A dancer cannot dance in both the Junior Show Dance Group and in the Adult Show Dance Group, a dancer may not dance in both Junior Hip Hop Formation and Adult Hip Hop Formations, i.e. two different age divisions of the same discipline and category. However he/she may remain in the same age division of all other specific categories, until they reach their next age level.

**Example:** A child age 10 or 11, may dance in JUNIOR Show Dance Small Group and still participate in all Children categories Show Dance Solo, Disco Dance Duo, Hip Hop Group, Tap Formation but NOT CHILDREN Show Dance Group.

4. Any accommodation and transfer services provided will be at the competitors’ expense.

3.13 RULES GOVERNING COSTUMES, MAKE-UP, MOVEMENTS AND THEMES

1. GENERAL COSTUME RULES FOR ALL AGE DIVISIONS

Costumes must cover the intimate parts of the dancer’s body during the whole performance.

**Intimate parts:** buttocks, bust and pubic areas (see picture 1)

The intimate parts of the body must be covered with non-transparent material of any color except tan or flesh color. When transparent material is used to cover these areas, it must be lined with non-transparent material.

a. **LOWER BODY:**

**Buttock:** The buttock is defined as the area from the crease between the leg and bottom up to the hip line across the body.

**Hip line:** panties top line (how low) Straight horizontal line, top of line between buttocks muscles (interlineal line) **must not** be visible.

**Panty Line:** panties bottom line (how high)

The panties’ hip line should be high enough to completely cover the vertical crease between the buttocks.

The panties should cover the entire buttock in the back side (see pictures 2 and 3). In the front, the panty line should follow the line between the body and flexed leg. The distance from the hip line to the panty line should be at least 5 centimeters (2 inches) when measured from the side (see picture 1).

Abbreviated bikini bottoms, thongs, thong appliqués and any shorts imitating a thong look are prohibited in both males’ and females’ costumes. The dancers should make sure their costumes fit properly, as ill-fitting shorts or panties can wedge or otherwise expose the buttock in a way that is prohibited.

It is recommended that all male dancers wear a men’s dance belt underneath their costume. A costume consisting only of a men’s dance belt is prohibited.
2. GENERAL RULES GOVERNING MAKE-UP, MOVEMENTS AND THEMES

   a. Make-up and costume have to be age and gender appropriate, and they must suit the
discipline in which they are used. Make-up and costume may never be offensive to the
public or other competitors. Music must also be appropriate for the age division of the
dancer/s. Explicit sexual lyrics and guttural sounds are prohibited. All dancers must be
aware of the lyrics in the music they use.

   b. Teachers and choreographers should pay close attention to age appropriateness when
choosing themes for children and juniors, making a special effort to avoid sexually
inviting moves, morbid themes, brutal fighting, killing, etc.

   c. If religious or political symbols are used as decoration and/or costume, they must
suit the theme and choreography in which they are used. Such symbols must always be in
good taste, and they may never be offensive to the public or other competitors. Personal
jewelry should not be worn unless it is a part of the costume.

   d. All dancers and coaches should be aware that if the Chairperson of Adjudicators gives a
warning for an infraction of the above rules (governing costumes, make-up, movements
and themes), the infraction should be removed immediately. If the warned competitor(s)
repeats the infraction in the next round, they will be penalized.

3. SPECIAL RULES FOR THE CHILDREN’S DIVISION

   In addition to all the general costume, make-up, movement and theme rules, the following applies in the
children’s division:

   Children should be encouraged to dress as children and not like teens and adults. Make-up should
be used to bring out the features of the face or to portray a character. Hair should be neat, under
control unless it is being used to portray a character, animal, rag doll, etc. Hair extensions, pieces
or wigs should be of the kind commonly used by children. Hair extensions, falls, pony tails and wigs
may be used as long as they do not distort the age of the child.

   Costume materials that suggest sexual, deviate, sadomasochistic or other adult themes are
prohibited in the children’s division.

   Costumes made entirely from see-through materials are prohibited, but the same material may be
used for sleeves and to cover legs (for example: Aladdin-style pantaloons and sleeves).

   Dancers in the children’s division may never appear nude or in a costume implying nudity.
Therefore, flesh, nude, tan, beige, or bone colored bodysuits, leotards, tops and pants may not be
used in a way that implies nudity. Net, lace or any such material may never be used to cover the
intimate parts of the body unless lined with a non-nude colored material. At all Performing Arts
events MALE dancers in the CHILDREN’S division must have their torso covered with cloth
material.

4. SPECIAL RULES FOR THE JUNIORS’ DIVISION

   In addition to all the general costume, make-up, movement and theme rules, the following applies
in the juniors’ division:

   The special rules for the children’s division (above) also apply in the juniors division. Juniors
should always be dressed age-appropriately and their image should be that of a junior and not that
of an adult.
BOOK 2 ORGANIZATION AND CONDUCTION OF IDO EVENTS

5. SPECIAL RULES FOR THE ADULTS’ DIVISION

All the general rules governing costumes, make-up, movements and themes apply in the adults’ division.

Adult dancers should bear in mind that they are the ones setting the trend for the younger dancers, who look up to them and seek inspiration from them. This is why it is very important to be dressed in good taste.

6. ADDITIONAL COSTUME RULES FOR PERFORMING ARTS DISCIPLINES ONLY

Tan or flesh colored materials may be used to cover the intimate parts of the body in the junior and adult division, if it suits the theme of the performance and if it is not sexually suggestive in any way. However, a costume consisting only of flesh colored panties and a bra is not allowed.

7. GUIDELINE AND SPECIAL RULINGS FOR THE ADJUDICATORS:

A Adjudicator should always be very careful when commenting or deducting points for visual things that they personally do not like. It is not Adjudicators’ duty to Adjudicator morality; Adjudicators’ job is to Adjudicator talent. If the costume, theme, choreography and presentation are offensive to Adjudicators' personal taste, he/she may take that consideration into his/her mind when marking but a better method would be to bring what is offensive him/her to Chairperson and let him/her make ruling on how it should be handled.

Rulings by the Chairperson: If a Chairperson finds inappropriate costuming, grooming, music, gestures or otherwise offensive behavior by the dancer they may give a warning to correct the situation and subsequently penalize or disqualify the dancer/s if the Supervisor and Organizer agree.

Total Image: The total image that a dancer creates should be within the limits of good taste and not be offensive to anyone in the audience.

NOTE: Inappropriate music, theme, choreography, costume or total image may result in point loss, and gross misuse or abuse in these areas may result in disqualification.

CODE of ETHICS for ADJUDICATORS – see in the Section “General Provisions for Adjudicators and Judging”, IDO OFFICIAL’S Book.

Each formation will rehearse without music 1 minute. CHILDREN formations will rehearse 3 minutes with

NOTE: The Organizer may provide longer periods of time for rehearsal warm-ups on an “equal time for
all” basis. When time constraints prohibit on-stage rehearsals, the Organizer must provide an alternate

- DUO male-female or duo male-male

The dancer must only be represented in either two females, two males or male/female in any given competition.

Age Divisions see in General Provisions of Performing Arts.

1. **DEFINITION OF SHOW DANCE**
Show Dance in the broadest sense is based either on any Jazz/Lyrical, Ballet and/or Modern and Contemporary dance technique. Other dance disciplines can also be incorporated but cannot dominate. Ballroom, Latin or Rock ‘n’ Roll are excluded and cannot be performed. Show Dance allows the use of lifts (except for Children), acrobatics, props, lip-sync and other theatrical effects. An IDO Show Dance number always has to have a guideline, story or visible concept to entertain the audience.

2. When movements and elements of other IDO dance disciplines such as Disco Dance, Hip-Hop, Electric Boogie, Break Dance and Tap, or when American & International Ballroom and Latin Dance is used in the performance, such movements / styles should not control / dominate the performance.

3. The dancer’s personal interpretation should be clearly evident when using any of these disciplines or styles.
4. **Acrobatic Movements:** Permitted as outlined in General Provisions of Performing Arts. Acrobatic movements will be evaluated under show criteria and must never dominate and must be in harmony with the idea or theme. If modern gymnastic movements dominates a performance a significantly reduction of points in the technique dimension should be the consequence. *(see in General Rules Performing Arts under Acrobatic Movements restriction for Children)*

5. **Lifts:** Permitted as outlined in General Provisions of Performing Arts. **NOTE:** Lifts are NOT permitted in the Children’s age division.

6. **Stage Props:** Permitted as outlined under General Provisions of Performing Arts.

7. **Musicality,** variety of dance and patterns, originality, total performance and individual choreography will be evaluated. It is very important to present harmony of idea, music, dance, choreography, costume and props in the presentation, as the entire image will be used in evaluating the performance.

8. Formations will be Adjudicatord as a whole. Solo, duo or ensemble parts may be performed, but must not dominate.

9. All Show Dance presentations shall be based on a concept, story, theme or idea. There must be a title of the Show. The concept, story, theme or idea must be fully understandable and will be expressed by means of dance movements that adhere to the piece being presented, along with being creative, imaginative and original. The piece must have Show Value, as explained in the Judging Procedure (Section Protocol and Judging Procedure in the IDO Official’s Book).

### 1.3 JAZZ DANCE/LYRICAL

The categories of Jazz Dance are: Solo Male, Solo Female, Duo, Group, Formation.

**Age Divisions see in General Provisions of Performing Arts.**

**Jazz Dance Styles:**

**Primitive:** This dance form stemmed from early African Folk Dances that were done by slaves brought to America from Africa, West Indies, Cuba, Panama and Haiti.

**Early:** Originated via the music of the late 1800’s and early 1900’s. Dances included the Two-Step or Cakewalk, and later became the Grizzly Bear, Bunny Hug, Turkey Trot, and Texas Tommy. This evolved into the fast music and dances of the 1920’s, the One-Step, Lindy Hop, Charleston and Black Bottom.

**Musical Comedy / Theatre Jazz:** These forms of Jazz became very popular via movies / theatre during the 1930s and 1940s. Many dance forms were incorporated in Musical Comedy Jazz. Ballet with “On Your Toes”, and Modern Dance in “Oklahoma” and “Brigadoon”. During the 1950s and 1960s, dance became an integral part of telling the story in Musical Theatre, as illustrated in musicals such as “Flower Drum Song”, “Destry Rides Again”, “West Side Story” and “Seven Brides for Seven Brothers”. In 1978, the musical “Dancing” showed that the songs and books were secondary to the dancing; in fact, they are almost non-existent.

**Contemporary:** Primarily performed to music of the day, it began in the late 1950s to the music of Contemporary Jazz musicians like Dizzy Gillespie, Art Tatum and Dave Brubeck.

**Today’s Jazz Dance:** This discipline may be danced using many different styles and tempos, using themes based on Afro-Cuban, Oriental, Spanish or other national themes. It may be performed as a character, such as Cowboy, Sailor, Clown, etc. It may also be abstract in nature. Lyrical Jazz, performed to such music as Bette Midler’s “Wind Beneath My Wings”, may be included in Jazz Dance Discipline

**NOTE:** Contemporary Ballet should not be confused with Jazz Dance, and may not compete in this discipline. Other contemporary styles such as Hip-Hop, Disco, Break Dance and Electric Boogie may be incorporated, but must never control / dominate Jazz Dance performances.

1. **Characteristics and Movement:** Jazz Dance is a multi-faceted art form. The above-mentioned types of Jazz Dance are examples of what is permissible in this category.
2. The music choice can also be acapella (no music), but the beginning and ending of performance must be marked with clear audible sound (beep). (AGM 2018, Implementation 01.01.2019)

3. The entire routine must consist of Jazz work. Jazz technique, turns, jumps isolations, stretch, as well as use of port de bras, legs and upper body. Timing and rhythm will be considered in marking. Suitable footwear must be worn.

4. **Acrobatic Movements**: In Jazz Dance limited acrobatics will be allowed as long as a body part is touching the floor or a dancer in duo/group/formation has a partner support. (Junior and Adult Age Division) Acrobatics should not dominate the routine. (AGM 2018, Implementation 01.01.2019)

5. **Lifts**: Permitted as outlined under General Provisions in Adult and Junior divisions. **NOTE**: Lifts are NOT permitted in the Children’s age divisions.

6. **Stage Props**: Hand, stage and floor props will be allowed under the following conditions:

   **Clothing**: All costume accessories, such as hats, scarves, gloves, belts, etc., may be worn if they are an integral part of the costume. They may be taken off, exchanged or discarded, but not left to litter the stage. Meaning, the dancer cannot leave the stage at the end of the routine leaving clothing behind. If a dancer discards or drops a scarf on the state, they must pick it up and take it off when they leave.

   **Hand Props**: All hand props such as canes, umbrellas, hand bags, brief cases, mirrors, flags, etc., may be used as long as they are an integral part and used throughout the routine. They may be set down on the floor as long as it remains part of the routine and picked up when leaving the stage at the end of the routine. Hand props can never be used as floor props. In other words, you cannot enter the stage with an umbrella, set it on the floor, dance your entire routine without utilizing the umbrella and then pick it up at the end of the routine and leave the stage.

   **Floor Props**: Necessary floor props such as a chair, stool, box, ladder, etc., may be carried on by a dancer in one trip, but must be an integral part of the routine and utilized throughout the entire performance. Items used to decorate or embellish the stage are not permitted. The dancer must carry the floor prop off the state at the end of the routine.

   **Scenic or stage props**: Any items such as a scenic background, back drop, tree or other such prop, used to create a scene or embellish the stage are not permitted.

7. **Lip-sync** is not allowed in Jazz Dance.

**Show Dance VS Jazz**

The difference between Show Dance and Jazz is very difficult, but not impossible, to define. Jazz Dance styles range from the early 1920s to the present, and most Jazz Dance pieces are created using pure dance without consideration to theme or story. This is an ever-evolving Performing Art dance, and one could very readily argue the point that all of the Street dances contain some elements of Jazz. How do we draw the line between Jazz and Street Dance? Definitely the music. The music dictates the style. Does that mean that Hip-Hop or Break Dance music cannot be used in a Jazz piece? No, because the style of the dance dictates what discipline it actually is. Therefore, a Jazz Dance piece can be done to Hip-Hop, Break Dance or Electric Boogie music, but never a Hip-Hop, Break Dance or Electric Boogie to Jazz music. Since there is no specific style of music identifiable as Jazz Dance or Show Dance, music cannot be used to determine if the discipline is correct. However: the difference in styles can be used to make this determination.

Although Show Dance pieces may be based on a theme or story, there are many variables that exist. A Show Dance piece can be based on emotions, color and design, or even one word, such as ‘devastation’ or ‘jubilation.’ Jazz Dance does not have to convey any of the above criteria, and may be done based on pure dance only. For instance, a piece danced to ‘Bolero’ might be based on movement formation, color and costume. Another piece danced to the same or different music might be built on a theme of floating dancers, be enhanced by costume de- sign and originality, and feature terrific use of the music. Would a piece danced to ‘Bolero’ do well in a Jazz Dance competition? The answer to that would be in the eyes of the beholder, but a strong Jazz Dance piece would certainly give such a piece a run for its money if the former was not based on true Jazz technique.
BOOK 3  RULES FOR IDO DANCE DISCIPLINES

Lyric or Modern may be the base technique for either Show Dance or Jazz Dance. It all depends on how much of a ‘show’ the piece really is. A straight lyric piece, performed in a Show Dance division to Whitney Houston, without a theme or story line, would not do very well, because the show value of the 4-D system would receive a low mark. When judging an IDO competition where the 3-D system of separate evaluations is used for technique, composition and image, the show quality of the routine may enter into all three of these separate dimensions. The ability to use technique to enhance the theme or story being told is very important. The choreography and the way the dancer performs it must be of show quality, and the image that the dancer creates is also very important to the show value of a given piece. But Adjudicators should not be influenced by the show value of a Jazz Dance routine. Their marks for technique should be based purely on technique, choreography purely on choreography, and image marks should be based on the total look of the performer.

1.4  TAP DANCE

The categories of Tap Dance are: Solo Male, Solo Female, Duo, Trio, Group, Formation.
Age Divisions see in General Provisions of Performing Arts.

1. **Characteristics and Movement:** Although the primary emphasis should be on the harmonious blend of the dancer’s footwork (sound), many variables exist. All forms of tap will compete against each other, such as: Rhythm, Hoofing, Buck and Wing, Waltz Clog, Military, Precision Kick Line, Latin and Musical Theater.

2. Jingle taps, double taps or double claques are not permitted.

3. The music must not contain prerecorded taps.

4. Personal amplification devices are not permitted.

5. No more than 30 seconds of a cappella or tacet (silence) may be used in any one routine. The absence of music must occur within the music and not at the beginning or end. “Stop Time” is an open part of a measure of music, not played but silent, with some notes being played. “A Capella” is an open phrase of multiple measures in length, but completely absent (silent) of any/all music.

**NOTE:** Music must be played at the beginning and end of the music and the A Capella must be no longer than 30 seconds. A Capella can also be defined as “Tacit.”

6. The dancer’s taps and the music must be clearly audible to the audience and adjudicators.

**NOTE:** The Organizer must make sure the stage has adequate floor microphones and speakers to make this possible.

7. **Acrobatic Movements** that are an integral part of the routine are permitted as outlined under General Provisions of Performing Arts, but will not enhance the dancer’s score. (see in General Rules Performing Arts under Acrobatic Movements restriction for Children)

8. Regarding health and safety issues in Tap dance, it is not allowed to dance or perform toe work (dancing on pointe) in the Children’s age division for longer than one beat of music. The definition of this being dancing or standing on the tips of the toes in weight-bearing steps on one or both feet.

Toe work/dancing on pointe will be for no longer than one beat of the music on one or both feet in Children’s Division.

**NOTE:** No more than one beat and NO weight bearing pointe work at any time. This is stated strictly to clarify the rule already in effect

**LIVE MUSIC during Junior and Adult Groups:**

1. This is a separate category and cannot be mixed with other categories.

2. Musicians are not counted as participants unless they also dance in the routine. The ages of the musicians are not relevant unless they are also dancers.
BOOK 3  RULES FOR IDO DANCE DISCIPLINES

3. The Organizer must be advised by email 4 weeks prior to the event. The email must explain all necessary details. Once approved, the participant must adhere to the agreement.

4. All equipment must be brought in and set up by the Dancers and/or musicians.

5. Set up must be done quickly and in a quiet, non-disruptive manner.

6. The set up and break down of the musical equipment and portable amplification must not take more than 3 minutes.

7. Live music and recorded music can be mixed. In this case, the house system of the Organizer can be used if the entrant can cue the sound engineer of the house system for starts and stops of the recorded music.

*For example:* If the entry uses amplified live music there can be two different systems:

- a. House system for CD and/or up to 2 microphones for vocals only.
- b. The entrant may supply additional portable amplification system for live music/vocals.
- c. Both systems may be mixed for live music AND recorded music

8. *Suggested live music:*

Vocals, brass, woodwinds, strings, drums, percussion, bass and keyboards may be used to make music. Full size pianos or organs will not be allowed.

1.5 ACROBATIC DANCE

The categories of Acrobatic/Gymnastic Dance are: Solo Male, Solo Female, Duo, Group, Formation. Age Divisions see in General Provisions of Performing Arts.

**Characteristics and Movement:** Acrobatic dance shall include many techniques, such as tumbling, balancing, contortions, and aerial tricks without hands and controlled movement, as well as acrobatic elements, static elements, jumps, hand support elements, turns, rolls, walkovers and saltos, all of which should be connected with dance movement and dance combinations. The emphasis is on strength, stretch, control and ease of movement, no matter what technique is being used.

It is forbidden to form routine on the basic Aerobic and sport Rock’ n ’Roll elements. For safety reasons it is forbidden in all age divisions:

- To perform supports/lifts higher than dancers’ height as well as different throws from hands of other dancer except in the adult division.
- To fall on the knees, stomach and back from the jumping position;
- To begin an acrobatic walkover within flight phase;
- To perform any acrobatic element more than three times (variations are allowed i.e. performance of different forms of the element. For example: cartwheel, one hand cartwheel, cartwheel with transition to the floor, elbow cartwheel etc.).
- To perform headstand (head balance).

**Lifts, pyramids, throws:** Lifts are permitted in Junior and Adult age divisions

Pyramids are allowed in Junior and Adult age divisions. Pyramid is element of artistic, power and plastic acrobatics. It is a group position when dancers supporting each other form complex figures. While performing a pyramid, intended figure shall be fixed for a period of time from 3 to 5 seconds. In Junior age division high unaided pyramids are prohibited.

In Children and Junior age division different throws of one dancer by another are prohibited.

**Clothing and decorative elements:** Costume rules and regulations see in General Rules in Section 2 of the IDO Rule Book.

page 46

Eye-glasses, hearing devices as well as decorations made of transparent plastic, bracelets, necklaces and pins are also forbidden. All decorations shall be taken off. 1.6 BALLET

The categories in Ballet are: Solo Male, Solo Female, Duo, Group, Formation.

Age Divisions see in General Provisions of Performing Arts.

Time limit is one (1) minute minimum for male and female solo variations, maximum 2:15 minutes. All other time limits see in General Provisions of Performing Arts.

Repetoire Solo Category is added into IDO Ballet Competition.

The ballet category is split into Repertoire Solos and Open Classical Solos.

(AGM 2019, Implementation 1.1.2020)

Characteristics and Movement: Classical Ballet is the most formal of the ballet styles; it adheres to traditional ballet technique. There are variations relating to area of origin, such as Russian ballet, French ballet, British ballet and Italian ballet. The Vaganova method, named after Agrippina Vaganova and the Cecchetti method, named after Enrico Cecchetti are Russian and Italian respectively and derive from the original French method. Classical ballet is best known for its unique features and techniques, such as pointe work, turn-out of the legs, and high extensions; its graceful, flowing, precise movements; and its ethereal qualities. This discipline must be performed using the Classical Ballet Technique and style and may be performed in soft ballet slippers or Pointe shoes. Although choreography may be of a modern nature, it may not deviate from what is commonly known as Classical Ballet. Lyric, Modern and Modern Jazz pieces may not be performed in this discipline.

Adult Division (female dancers) – must dance on en pointe

(AGM 2018, Implementation 01.01.2019)

Pointe work is not allowed in the Children’s category.

Acrobatic Movements: Not permitted in the Ballet discipline.

Any lifts used must remain in the Classical Ballet tradition, and may include drop-falls, supported turns and jumps resulting in catches. However, all dances are in a constant evolution and growth, so experimental and original choreography is encouraged.

Stage Props: Permitted as outlined under General Provisions of Performing Arts but dancers cannot use cumbersome scenic material and must carry on and off the stage themselves in one trip.

1.7 MODERN AND CONTEMPORARY DANCE

The categories of Modern and Contemporary Dance are: Solo Male, Solo Female, Duo, Group, Formation.

Age Divisions see in General Provisions of Performing Arts.

In the Modern Dance Discipline Mini Kids are not allowed.

Modern dance is an artistic form with many styles that has undergone development over a relatively long period of time.

Modern dance is a more relaxed, free style of dance in which choreographer’s uses emotions and moods to design their own steps, in contrast to ballet’s structured code of steps. It has a deliberate use of gravity, whereas ballet strives to be light and airy.

page 47
BOOK 3  RULES FOR IDO DANCE DISCIPLINES

The development of modern dance was the logical consequence of the dancing styles that existed at the start of the 20th century, when the modern dancers of that period attempted to break free from established ballet forms, which they considered to be stiff, strict and restrictive and therefore they started searching for new trends and techniques to give dance a new direction.

This particular dance discipline concerns using modern dancing techniques that were created for the most part during the first half of the 20th century by renowned dance teachers and choreographers, e.g. Martha Graham, José Limon, Alvin Ailey, Merce Cunningham, Lester Horton and a host of others on the American continent, and Kurt Jooss, Mary Wigman, Hanya Holm and many others in Europe / Europe /Europe /

In view of the fact that all dance remains in a constant state of movement and development, this does not mean that we have to use only the aforementioned techniques in their original forms. On the contrary, it is also about using contemporary trends in modern dance techniques that either goes back to the foundations established by the aforementioned dance instructors or we can use totally new, experimental and original concepts for modern dance. Contemporary dance brings new information about body and how the body works, offers new quality of movement, new shapes of body in area, brings new composition process and space for experiment.

1. Characteristics and Movement: the entire routine must consist of modern dance techniques and current trends, and should correspond with age divisions and the movement skills of the dancers. Contemporary Ballet should not be confused with Modern Dance, and may not compete in this discipline. Other contemporary styles such as Hip-Hop, Disco, Break Dance and Electric Boogie may be incorporated, but must never control / dominate Modern dance performances.

   The main point of assessment for this discipline will be the level of the dance movements carried out, as well as the theme and story line. The story, the building of a plot, is possible, but not so much emphasized here as, for example, for Show dance. It is primarily about pictures, moods.

   In Modern Dance, a story, theme, idea or concept may be used but must always be in good taste for children, junior and adult situations, but human situations, especially those dealing with intimate or personal relationships should acceptable to viewing by all ages.

2. The music choice can also be acapella (no music), but the beginning and ending of performance must be marked with clear audible sound (beep).  (AGM 2018, Implementation 01.01.2019)

   Every Modern & Contemporary performance can have a title, but it is not mandatory (AGM 2019, Implementation 1.9.2019, 1.1.2020)

3. Acrobatics and Lifts: Acrobatic movements are allowed, but should only be used to enhance the routine. Gymnastic lines are not allowed (multiple gymnastic moves, travelling from corner to corner). Modern and Contemporary Dance should not look like an acrobatic dance routine. (see in General Rules Performing Arts under Acrobatic Movements restriction for Children) Lifts are allowed in Junior and Adult age divisions and are prohibited in the Children age division.

4. Props and Backgrounds: Stage props are allowed to the extent that the stage setting for the choreography does not overshadow the dance itself. Backgrounds are prohibited.

5. Clothing: aesthetic, tasteful and age division appropriate.

1.8 BOLLYWOOD

The categories of Bollywood are: Solo Male, Solo Female, Duo, Group, Formation.

Age Divisions see in General Provisions of Performing Arts.

Although Bollywood dance has its origins in Traditional Indian dance, it is made up of many differing dance styles including Indian Classical, Bhangra, Arabic, Folk, Tribal, Latino, Hip Hop, Street Dance, "Michael Jackson", and many others.

We must, however, remember that in Bollywood there must be a contrast of dance styles and movement, depending on the music. It is important to use Lip Sync and Mime, to encourage enactment of some of the lyrics. This discipline must apply technique, grace, speed, style, versatility, body isolation, spatial awareness, energy, facial expression and emotion, whether solo, towards a partner or within a group.
BOOK 3  RULES FOR IDO DANCE DISCIPLINES

Many Bollywood dancers are also actors, so this skill needs to be shown.

MOVEMENT: We would expect to see much Indian dance influence, including Hand Gestures, Postures, Head Slides, Classical moves in arms, legs, feet, knee squats, etc., even within very Modern pieces.

COSTUME: This can be from Classical Indian (with or without ghunghroos/ankle bells) to a “Hoodie Look” to Futuristic, and even a mix, as long as it is in keeping with the dance style, music, Production piece, but still remain tasteful, and respect age.

FACIAL EXPRESSION: This is a very important part of Bollywood, so all parts of the face need to be worked. Eyes especially play an important part. Within this section we would expect to see Lip Sync, as well as many different emotions.

MAKE UP: Must be in keeping at all times, and must respect age.

LIFTS & ACROBATICS: These may be included, again, as long as they are in keeping (although not expected). Lifts are not permitted for Children and Mini Kids.

AGE: In Productions can be mix of all age divisions.

PROPS & SCENERY: All exactly as Performing Arts. However, hand props such as a hand mirror, flowers, jewellery, etc., can play an important role in a performance.

1.9  CHARACTER / FOLK DANCE SHOW/ ETHNIC

1. Characteristics and Movement:

Character Dance pertains to dances portraying characters from traditional Ballets, Opera, Broadway style Musical Theatre, TV or Video. The range of characters is very broad and may include: The Wolf from Peter and the Wolf, Little Red Riding Hood, a Bird, Dog, Cat, Flower, Butterfly, Animal, Sailor, Nurse, Religious Preacher, Pauper, Prince or Shirley Temple. Costuming, music and dance movements must be appropriate to the character being presented.

Folk and Ethnic Dance: These disciplines must be Traditional Dances of any Nationality, passed down from generation to generation, and may include: Polonaise, Polynesian, American Indian, Highland Fling, Flamenco, Japanese Candle Dance, Hindu, Tarantella, African, etc. Traditional / authentic costuming and music is expected, and will be used in the total evaluation.

In all disciplines where applicable, in Children and Mini age divisions acrobatics are allowed if a body part is touching the floor. Acrobatics must not dominate the routine.
In Children age division, all acrobatics must be performed without any physical support of a dancer, dancers.

OTHER RULES
Competitors who are not present on stage to dance following the starting order, without a valid reason, will be disqualified by the Chairperson of the Adjudicators.  (AGM 2019, Implementation with immediate effect)

2.2 BREAK DANCE

The categories of Break Dance are: Solo and Crews.
Starting January 1st, 2018 the categories of Break Dance are: Solo Female, Solo Male (B-Boys and B-Girls) and Crews

(ADM 2017, Implementation 1.1.2018, no change possible before 2021)

Age Divisions see in General Provisions of Street Dance Disciplines.
Break Dance is for Juniors and Adults only

SOLO

1. Music: Organizer’s music in Break Dance style.
2. Duration of Performance: Preliminary round: 2 minutes divided into three sections of 40 seconds duration each. Additional opening minute of the 1st round is not evaluated. In the preliminary round, there must be no more than three (3) competitors dancing together. The Chairperson of Adjudicators determines the number of competitors in the opening minute and final 40 seconds in the preliminary round. The best 16 competitors fight in “battles” one by one in a “knock-out-system” (5 – 10 minutes each battle).
3. Tempo: No restrictions.
4. Typical Break Dance Elements: Crown, Headspin, Backspin, Turtle, Helicopter, Windmill, Bailey Windmill, Uprock, Freeze, Sixstep, One Hand Up, Swipe, Atomic, Flair, Holoback, Traxx, 99, variable footwork, etc., including different variations of these figures, elements and movements. Keen ‘breaks’ (stopping of movement), isolations, breaking movements, plus acrobatic movements in various combinations are all expected aspects of Break Dance routines. Technical difficulty of performed elements, joining of elements (flowing acrobatic movements melding into one another), originality, etc. are all highly important, and the entire presentation will be evaluated

NOTE: It is important to show more than two different figures and elements. Figures danced twice are only counted once. If repeated, the best attempt of the two will be marked.
6. Forbidden Movements: Elements and figures that, according to the dancer’s ability, are too difficult or that could lead to injuries or loss of life.
7. Stage Props: As applicable for this discipline. For Teams it is also allowed to use requisites.
8. Break Dance competitions are not organized in the Children age division.
9. Procedure of Break Dance solo competition
   a. FIRST/PRELIMINARY ROUND: Each group of competitors begins dancing together in the preliminary round with a one-minute ‘warm up’ performance, which the Adjudicators
do not evaluate. They then dance (not more than 3) first 40 seconds period. When all
dancers finish, they start to perform the 2nd period of 40 seconds in the same order. The
final performance gives the Adjudicators an opportunity to compare the dancers.
To avoid any risk of injuries, Adjudicators shall walk around the competition floor during
the final presentations. Best 16 competitors will be qualified and continue with battles
(knock out system).

b. QUALIFICATION: If there are 18 dancers or more in the 1st round, Adjudicators should
qualify the best 16.

In the first round, the Adjudicators evaluate each dancer with the points from 1
to 10. Criteria for the points are:
1- bad- none of the elements are performed in correct way, out of music
2- bad- one or two elements are performed correct but out of music
3- not bad- dancer is performing weak, choreography is poor
4- not bad- dancer is performing various elements or style
5- satisfactory- dancer is performing various elements or style, but there is no fluidity or
is repeating the same element two or more time
6- good- dancer is performing various elements and style, there is not enough power or
image is poor
7- very good- dancer is performing the elements and style correctly, but with the small
mistakes
8- very good- dancer is performing the elements and style correctly, but losing the power
9- excellent- dancer is using different styles and performing various elements on a very
high level
10- outstanding- dancer is using different styles, performing various elements and
bringing personal note in performance

Following the given points Adjudicators will give A, B, C, D letters and additionally
X's, for those that they want into the next round.
The Scrutineers count each given letter with the points. The points are given in the
following manner:
A- 4 points, B- 3 points, C- 2 points, D- 1 point. The cross is counted as 0.5 point. The
dancers are sorted out for the next round (spider) by the total amount of points that
comes from the given letters and crosses.
In case of tie the Scrutineer will use the following rule for the start numbers in tie:
first, the number of letters will be counted (C and D for one start number is better than B)
and if the tie cannot be broken the given points from all Adjudicators (1-10) will be used
in order to select the dancers for the next round. If it is not possible to select the start
numbers for the next round after procedure explained in 1 and 2, then the actual re-
dance will be organized by giving the points from 1-10 and letters that are needed for
the next round.

c. BATTLES: In the 8 battles that follow, the dancers from A class will battle with dancers
from D class, and dancers from B class will battle with dancers from C class (1st in a
ranking from group A with last from group D, etc.). Neither dancers, nor Adjudicators
will be informed who belongs to which class, only Scrutineer and Supervisor
(Cairperson of Adjudicators) will be informed. List of battles will be published. After 8
battles, those who are winners will battle in the next 4 battles, and afterwards in last
two for 4th and 3rd as well as for 2nd and 1st place. All Adjudicators’ decisions must be
also in written form (made by Scrutineer and the Cairperson of Adjudicators.)

If there is no clear majority in the break dance battles (crossed arms), one more round
(one entrance of each) will be done. After the additional round (entrance), Adjudicators have to
clearly decide about their choice, showing the hand to the dancer they would like to see as a
winner. Adjudicators have to use the given Adjudicators sheet who they would like to see in the
next round. The Adjudicators then show the hand to a dancer following the judging sheet. The
Cairperson and Scrutineer control the showing of hands.

**SPIDER of BATTLES:**

If there is 10 to 17 competitors in the 1st round, Adjudicators will qualify only 8 dancers, 2 of class A (4 points), 2 of class B (3 points), 2 of class C (2 points), and 2 of class D (1 point). Then in next round there are only 4 battles (A1/D8; B3/C6; A2/D7; B4/C5). The winners of these four battles will go on to two battles and finally will be one battle for 1st place and one battle for 3rd place. If there is less than 10 competitors in the 1st round, Adjudicators will qualify only 4 dancers, one of each class and then there are only 2 battles (A1/D4 and B2/C3); followed by battles of the winners of previous 2 battles (one battle for 1st place and one battle for 3rd place).
In the Break Dance battles solos only three battle “entries” should be necessary. (If needed it could be possible to include one more entry)

CREW BATTLES

1. Number of Dancers: 3-7

2. Music: Teams = Crews may use their own music in the first round. Organizer’s music in Break Dance Style will be used in the final round.

3. Duration of Performance in the first round (Show): 150-180 seconds (2:30 – 3:00 minutes) of each team’s/crew’s performance may be danced using the team’s/ crew’s music. In case that the music is too long or short the crew will be disqualified.

   The “Semifinal-Battle” (3. and 4. place) will last about 5 – 10 minutes. The “Final-Battle” 10 – 15 (20) minutes, according to the Supervisors decision. The last minute will be announced.

4. Tempo: No restrictions.

5. Typical Break Dance Elements: Same as for Break Dance Solos, plus: Acrobatics should have some style continuation. Choreography for the exhibition to the team’s own music must be a clear performance of a team, not just a demonstration of unrelated solo performances. Musicality, difficulty of movements and figures, originality and team variability will all be highly evaluated. Synchronized movements, shadow standing, mirror positions and smooth transitions of these components from one into another, along with choreographic variability and work with space will also be evaluated. All typical elements of Break Dance should be performed – Styles - Pop Locking - Power moves – Electric Boogie/Popping.

6. If one crew disturbs another team’s performance or endangers another team’s safety, a loss of evaluation points will result.

7. The final ‘battle’ portion of each contest shall consist of individual performances of dancers from the competing crews in which each dancer must dance his or her solo part at least one time, and the crew’s performance will be Adjudicator as a whole.

8. Based on the first round results, the Chairperson of Adjudicators will determine the order of “battles” between 1st - 2nd ranked crews and the 3rd - 4th ranked crews.

9. All other rules are as outlined under Break Dance Solo.

10. Procedure of Break Dance Team competition

   First round is a show of crews who will dance to their own music.

   See SYSTEM OF JUDGING QUALIFICATION ROUND HIP HOP AND BREAK DANCE BATTLE in Book 5, under 3.11

   The Adjudicators will evaluate and select the four best crews. The Adjudicators give the best crew 4 points (A), the next best crew 3 points (B), the next best crew 2 points (C) and the next best crew 1 point (D). Only the 4 best crews will battle to the Organizer’s music (3rd against 4th and 1st against 2nd).

If there are more than 8 crews in the preliminary round, a Supervisor together with a Chairperson of Adjudicators may decide to ask for additional crosses for crew/crews on the next position after 4 best crews (cross means placement).

Special note for Break Dance and Electric Boogie/Popping:

When asked to select Adjudicators for this discipline, each nation should only invite Adjudicators who are very experienced in Break Dance and Electric Boogie/Popping. This type of VIP Adjudicator would include past champions, celebrity performers, teachers and choreographers who are all considered experts in this field. This note is intended as a guideline only, and is not a rule.
2.3 ELECTRIC BOOGIE / POPPING

5. Lifts are allowed in Junior and Adults Duos.
6. Stage Props: are allowed, such as masks, glasses, hats etc. - but NO requisites!!

Each group of competitors begins with a one-minute performance, dancing together in each round. They then dance three, two or one by one for their one-minute performance or 1 minute performance in the final round. Each group dances a final minute together in each round.

To avoid any risk of injuries, Adjudicators shall walk around the competition floor in opening and final presentations. Both the opening and final performance give the Adjudicators an opportunity to compare the dancers.

Hip-Hop is mostly danced on the eighth notes with a typical bounce, or jumping action (New-Jack-Swing).

3. Duration of Performance: 150-180 seconds (2:30 – 3:00 minutes) in first round (Show). The “Semifinal-Battle” (3. and 4. place) will have up to 5 entries (different styles). The “Final-Battle” up to 7 entries (different styles).
4. Tempo: No restrictions.
5. Stage props are allowed in hip hop battle crews = teams.
6. If one crew disturbs another crew’s performance or endangers another crew’s safety, a loss of evaluation points will result.
7. Based on the first round results, the Chairperson of Adjudicators will determine the order of “battles” between 1st - 2nd ranked crews and the 3rd - 4th ranked crews.
8. All other rules are as outlined under SOLO.
9. Procedure of Hip Hop Battle Crew competition:

First round is a show of crews who will dance to their own music.

See SYSTEM OF JUDGING QUALIFICATION ROUND HIP HOP AND BREAK DANCE BATTLE in the Official`s Book.

Adjudicators must be aware that crews are presenting at least 2 different styles. The Adjudicators will evaluate and select the four best crews. The Adjudicators give the best crew 4 points (A), the next best crew 3 points (B), the next best crew 2 points (C) and the next best crew 1 point (D).

Only the 4 best crews will battle to the Organizer’s music (3rd against 4th and 1st against 2nd). If there are more than 8 crews in the 1st-preliminary round, a Supervisor together with a Chairperson of Adjudicators may decide to ask for additional crosses for crew/crews on the next position after 4 best crews (cross means placement).

If the time frame allows, Organizer Chairperson and Supervisor can decide, to use the big spider (as Solos), so there go 8 or 16 crews into the battles.
If there is no clear majority in the hip hop battles (crossed arms), one more round
(one entrance of each) will be done. After the additional round (entrance), Adjudicators have to
clearly decide about their choice, showing the hand to the dancer/crew they would like to see as
a winner. Adjudicators have to use the given Adjudicators sheet who they would like to see in the
next round. The Adjudicators then show the hand to a dancer/crew following the judging sheet.
The Chairperson and Scrutineer control the showing of hands.

3.2 ARGENTINE TANGO6 (TANGO SALON, TANGO MILONGA, TANGO VALS AND TANGO ESCENARIO)

NOTE 6: Argentine Tango is a discipline that contains 3 different Tango dances and the Tango Escenario)

The categories of Argentine Tango are: Couples. Argentine Tango competitions are not organized for Children and Junior age division.
 Argentine Tango is a multi-dance discipline where each of the three Tango dances contributes an equal value to the overall placements of the dancers. Each dance is evaluated on its own merits, and the places for each couple will be determined by using the Skating System. All couples in the final must dance a Tango Escenario. Tango Escenario will be Adjudicated as an additional dance on its own merits. In the event of a tie between couples, the placing in the Tango Escenario will have the higher (decisive) value.

Format qualifying rounds:
a. Organizer’s music played in strict tempo.
b. In the opening round all couples shall be seen by the Adjudicators in a presentation dance for 1 minute of Tango.
In the event of many entries when the floor would be too crowded, the presentation dance could be divided by the Chairperson in two or more groups.
c. The couples will thereafter be divided into heats. The number of couples in the same heat is depending of the size of the dance floor but should not exceed 6 couples. The Chairperson gives a signal when all Adjudicators are ready. All couples must perform each dance before the next dance is commenced - 1 minute 30 seconds Tango each heat, then 1 minute 30 seconds Tango Milonga each heat and 1 minute 30 seconds Tango Vals each heat.
d. The Adjudicators mark the qualified couples in each of the 3 dances separately.
e. In all following qualifying rounds, including the semi-final there will be no presentation dance in the beginning of the round.
BOOK 3 RULES FOR IDO DANCE DISCIPLINES

Final Round:

a. Organizer's music played in strict tempo.
b. All couples will dance together in each dance - 2 minutes Tango, then 2 minutes Tango Milonga and then 2 minutes Tango Vals, prior to the Tango Escenario where each couple will perform one by one. In case of direct final, 1 minute presentation Tango is added in the beginning of the final. At least a 5 minutes break after finishing the first 3 dances, before starting Tango Escenario is obligatory. The Adjudicators place the couples in order of merit for each dance separately. The placing in the final will be determined by using the Skating System over all 4 dances.

3.2.1 TANGO (Tango Salon)

1. **Music**: Organizer's music in all rounds.
2. **Tempo**: Tango 30 - 32 bar per minute.
3. **Characteristics and Movement**: Argentine Tango is a social dance that falls into a smooth category of dance. It follows the line of dance (LOD), going around the dance floor in a counter clockwise direction. This dance form expresses love and passion, which is evident by the closeness of the dancers, the man’s control and the woman’s seductiveness. The dancers execute the figures mainly from the waist down while trying to achieve an interesting interplay between them. This interplay between the partners is dictated by the music, and the dancers should be dancing to something IN the music. One should be able to see the melody expressed through their movement. The epitome of Argentine Tango is to see the couple dancing with good posture, good extension through the legs, their feet almost always caressing the floor, and pausing with the music with a sense of rhythm that is clear to those watching.
4. **Typical Movements**: Walks, turns, Ochos to front and back, sandwiches, twists and curls, legwraps, drags and saccades to front and back, Boleos that leave the floor and other decorations that allow the legs to swing. Molinetes, Paradas, Barridas, and pauses with the music are also typical of this dance. Brushing and follow through technique is essential in all movements. Knees must remain together when executing Boleos and Ganchos, although certain movements do allow the legs to swing open without the knees being closed.
5. Dancers should avoid using obvious choreography, only improvisation, which is the true heart of the Tango.
6. No lifts or separations are allowed. Only normal dance hold is allowed.

**NOTE 7**: Also a 360 degree turn of the lady under the raised arm of the man is a separation!

3.2.2 TANGO MILONGA

1. **Music**: Organizer’s music in all rounds.
2. **Tempo**: 25 – 31 bars per minute.
3. Dancers should avoid using obvious choreography, only improvisation, which is the true heart of the Tango.
4. In Milongas little jumps are accepted as part of the character of the dance.
5. No lifts or separations are allowed. Only normal dance hold is allowed.

**NOTE 8**: Attention: A 360 degree turn of the lady under the raised arm of the man is a separation!

3.2.3 TANGO WALTZ

1. **Music**: Organizer's music in all rounds.
2. **Tempo**: 45 - 56 bars per minute.
3. Dancers should avoid using obvious choreography, only improvisation, which is the true heart of the Tango.
4. No lifts or separations are allowed. Only normal dance hold is allowed.

**NOTE 9**: Attention: A 360 degree turn of the lady under the raised arm of the man is a separation!

3.2.4 TANGO ESCENARIO (TANGO SHOW)

1. **Music**: Dancers use their own choice of music. The music can either be only Argentine Tango or be a mix of Tango, Milonga and Waltz or a mix of two dances but tango must always be at least 50% of the performance.
2. **Duration of Performance**: Music for Tango Escenario must be 2 minutes of music to the end of the musical phrase but must not exceed 2 minutes 15 seconds.
3. **Lifts**: Lifts, separations and all different elements are permitted.

3.3 SALSA

Categories: Solo, Duo, Couples, Groups and Formations

3.3.1 SALSA Solo / Duo

**Categories**: Solo Male, Solo Female, Duo.

**In Adult division Duo is divided in following categories**: Duo Male, Duo Female, Duo Male/Female.

**Age divisions**: see in General Provisions, Book 2, 3.4 Age Division.

1. **Music**: Organizers music in Preliminaries and Semi Final. Organizers music and music of the dancer own choice in the Final.
2. **Duration of Performance**: In all rounds, except the final, the duration of performance should be 1 minute 30 sec., to conform to the end of musical phrase. In the Final round, the dancers may use music of their own choice, or Organizers music, but must be at least 2 minutes to the end of musical phrase but must not exceed 2 minutes 15 seconds.

page 78
3. Tempo: 48 - 55 Bar per Minute (192 - 220 beat per minute).
4. Characteristics and Movement. Salsa Solo / Duo is an off shoot of Mambo and Salsa, so can be danced on the “1” or “2”. This style must show good body isolation, together with clean fast footwork - some of which uses every beat, half beat, and quarter beat of the Bar – so syncopation is important.
When danced by a male dancer, we expect to see slick, clean, strong footwork, and good subtle isolation.
When danced by a female dancer, while similar to Male, it should be more feminine in its approach, with possibly more body work. In all Duos we need to see good synchronization, good “question & answer” type moves, good contact (although not in hold) and musical interpretation in between the 2 dancers. No acrobatic moves or lifts will be allowed in any round.
5. Lifts: NOT permitted.
6. Hold: No hold is allowed.

The Salsa Cuban style, the Salsa Puerto Rico/New York style (Street Mambo), the L-A style and the Columbian (Call) style. The Cuban style of Salsa is more rotating than the Puerto Rico/ New York style (Street Mambo) and the L-A style is known to include more show figures. All three styles are ac- accepted. Salsa basic is a two times three-step pattern taken during 8 beats of music, in a quick, quick, slow – quick, quick, slow rhythm. It is allowed to break on the 1st and 3rd beat in the bar or the 2nd and 4th beat in the bar. What is important is to keep the consistence of the breaking. If one starts on breaking on 1 or 3 one must continue to break on 1 or 3 and not travel on to break on 2 and 4 suddenly. Salsa is a very popular club dance in that it allows the dancers much freedom to interpret the music using movements and elements from many different Latino dances. Salsa means, “Sauce”, and the dancers should depict a very hot and spicy interaction with each other. The Salsa basics involve clever hand and arm movements as well as changes of handhold while maintaining the flowing movements and which are all typical of the dance.

**Categories:** Couples

**Age Divisions:** see in General Provisions, Book 2, 3.4 Age Division.

page 86
1. **Music**: Organizer’s music in all rounds EXCEPT the final round of West Coast Swing Solo Show, where dancers may use their own choice of music.

2. **Duration of Performance**: 1:30 minutes, to conform to the end of the musical phrase, in all rounds EXCEPT the final round of West Coast Swing Solo Show. Music chosen for West Coast Swing Solo Show final round performances must be 2 minutes but not exceed 2 minutes 15 seconds.
   - 1. Tempo 26 – 31 bars per minute in the Fast dance (BPM104-124)
   - 2. Tempo: 22 – 25 bars per minute in the Slow dance (BPM 88-100)
   - 3. Tempo: Free in the West Coast Swing Solo Show

3. **Characteristics and Movement**: West Coast Swing is a social dance which is part of the Swing dance family. West coast swing is a “slot” dance, which means that the woman travels forward and back along a single straight line on the floor, with the man moving off and onto her line.

   Although there are turning figures, they still keep the woman on her line of dance. As done in the West Coast Swing community, the end of patterns typically is an "Anchor step" and not a “Coaster step”. The follower is discouraged from moving forward under her own power at the end of the pattern. Instead, she hangs out until the leader remembers to lead. Depending on the style lots of turns or lots of footwork are part of the dance. Syncopations are common. The man stays pretty much on one place while the woman moves back and forth in a slot. Therefore, it's the woman's movements that are emphasized.

   West Coast Swing is developed from the Lindy Hop. West Coast Swing is a living dance, still evolving. It follows the music trends of each decade and adjusts to accommodate new dance styles. In the 1970s it adopted some of the styles of Disco and the Hustle. Now, it can be danced to most of the music played on the radio today and incorporates many dance elements of Hip Hop and Jazz. Figures begin with two walking steps, followed by two triple steps (or a triple step, two walks and another triple, in 8- count figures). The second triple step is generally danced in place ("anchor step") its main purpose is to re-establish physical tension between the partners, generally achieved by leaning slightly back. Dancers should avoid using obvious choreography but rather improvisation, which is the true heart of the West Coast Swing so that it is possible to adjust the steps to the music.

4. **Lifts**: Not permitted. Only in the final solo performance in Adults and Junior’s category are allowed.

5. **Hold**: The main part of the performance should be danced with a hold.

6. **Format Qualifying Rounds**: Couples will be qualified to the next round by dancing both Fast West Coast Swing and Slow West Coast Swing. The Cross - System, will be used. The total number (Fast and Slow) determines which couples are qualified to the next round.

   a. In the opening round all couples shall be seen by the Adjudicators in a presentation dance for 1 minute Fast dance. In the event of many entries and therefore the floor will be too crowded, the presentation dance could be divided in two or more groups.

   b. The couples will thereafter be divided into heats. Number of couples in the same heat is depending of the size of the dance floor but should not exceed 6 couples. The Chairperson gives a signal when all Adjudicators are ready.

   c. All couples must perform Fast dance before the Slow dance is commenced - 1 minute 30 seconds Fast West Coast Swing each heat, then 1 minute 30 seconds Slow West Coast Swing each heat.

   d. The Adjudicators mark the qualified couples in each Fast and Slow West Coast Swing separately.

   e. In all following qualifying rounds, including the semi-final there will be no presentation dance in the beginning of the round.

8. **Final Round**: Couples will dance three dances in the final. Fast West Coast Swing all together for 1 minute 30 seconds. All couples will then dance the Slow West Coast Swing together for 1 minute 30 seconds. In case of direct final, 1 minute presentation Fast West Coast Swing is added in the beginning of the final. In the West Coast Swing Solo Show each couple will perform alone 2 minutes to 2 minutes 15 seconds. At least a 5 minutes break after finishing the first 2 dances before starting West Coast Swing Solo Show is obligatory. The Adjudicators place the couples in order of merit for each dance separately. The placing in the final will be found by using the Skating System over all 3 dances.

The following new disciplines and dances should be held only as test competitions, following the new rules. There will be no Continental- or World Championship, only World- or Continental Cups are allowed. After a period of 2 years, there will be an evaluation following the IDO guidelines.

**3.15 JACK & JILL**

During the last years the Jack & Jill system is more and more familiar in the West Coast and Discofox scene. In both dances the character of the dance is specified by the lead and following of the two partners. Therefore we – the CDD – wants to install the possibility of test competitions, to see if Jack & Jill will be also an interesting part of our competition and for our dancers. These competitions should be open to everyone and the enrollment will not be done by the DIES system.

The rules are as follows:

**3.15.1 WEST COAST SWING JACK & JILL (J&J)**

Jack & Jill will be danced only in the Adults division.

The partnership will be divided by random and will change in every round. The dancers (male and female) can enroll one by one, not as a couple.

E.g. in the first round the partners will be set together by random (computer) or the girls draw numbers from a basket which is connected to the number of the boys. If there are more girls boys have to dance twice. The same numbers of girls and boys are getting to the next round. E.g. 10 boys, 13 girls are in the first round, 6 girls dand 6 boys will get to the next round. The draw has to be after each round.

During the qualifying rounds the judging of the leader and follower will be divided. Only in the final they will be judged as a couple.

**Music**: see rules of West Coast Swing

**Duration**: see rules of West Coast Swing

**Characteristics and movement**: see rules of West Coast Swing

**Lifts**: see rules of West Coast Swing

**Hold**: see rules of West Coast Swing

**Format of qualifying rounds**

There will be a slow and a fast round in the qualifying round. Both dances will be danced with the same partner. About 50% of the higher number (leader or followers) and the same number of the lower number will be qualified for the next round. Each dancer will be evaluated by him/herself. The main focus has to be lead and follow.

**Final round**

In the final round the couples will dance together slow, fast and a show. For the show part the couple can choose their own music.

The break between the last dance of the qualifying round and the final has to be at least 20 min.

The placement will be done by skating system, each dance (slow, fast show) will be evaluated and the overall counting done also by skating will show the placement.

**3.15.2 DISCOFOX JACK & JILL (J&J)**

Jack & Jill will be danced only in the Adults division. The partnership will be divided by random and will change in every round. The dancers (male and female) can enroll one by one, not as a couple.

During the qualifying rounds the judging of the leader and follower will be divided. Only in the final they will be judged as a couple.

SECTION 4  PROCEDURE HOW TO PRESENT A NEW IDO DISCIPLINES

PROCEDURE how to Present a New Discipline

1. Short description of the dance discipline (history and background, style, technique,...)
2. Basic rules of the discipline (age divisions, categories solo/duo/groups/formations, music, length and style, technical rules, forbidden and allowed figures, other specification)
3. Possible future and perspective of the discipline. There must be a list of reasons why to adopt this new discipline and why it is worth for IDO to start this discipline!
4. Present situation/investigation – Are there already any national competitions? In which countries? How long/ how many years? How many competitors attend the events? Is there any Organizer or organizing country interested to host competition in such discipline in future? Are there any Adjudicators and specialists? Is there any literature/publications? Is there any international organization ruling this discipline? If yes – which one, how long; website, number of members, type of events, other possible information.
5. Short DVD – at least 3 different presentations/performances of the new disciplines.

PROCEDURE for Inserting a New Discipline into IDO System:

1. Which disciplines are similar or close to the new one? In which department the new discipline fits best?
2. Short investigation – which country may be interested in the new discipline, which age divisions and which categories
3. Start with test competition – on national level (e.g. open national event)
4. Make an analysis and report about test competition
5. After approving test competition accept a new discipline in IDO (through department and AGM)
6. IDO will grant Cup and then later Championships.
7. Adjudication Department may start a process of education of new Adjudicators in the specific discipline (or searching for VIP Adjudicators).
SECTION 5  DISQUALIFICATION AND COMPLAINTS

5.1  DISQUALIFICATION

NOTE: Procedure of issuing the warnings and disqualification

WARNING:

A warning is issued when an infraction of rules has been done in the preliminary or first rounds.

1. Adjudicators are required to issue warnings for possible disqualification of competitors who make infractions of IDO rules if he or she sees the infraction of the rules. In preliminary or first rounds, adjudicators will place ‘W’ in the appropriate area of a competitor’s marks to signify that a warning should be issued. Adjudicators must be able to give reasonable explanations for this action, must sign their score sheet, and must evaluate the competitor without penalty.

2. In subsequent rounds, the Chairperson of Adjudicators should disqualify competitors who continue to make infractions. Only the Chairperson of Adjudicators may impose penalties on those violating IDO rules and regulations by giving a warning, disqualification or a direct disqualification. In case when adjudicators have not put a warning (W), the Chairperson of Adjudicators can issue the warning but not in the final rounds.

3. Chairperson of Adjudicators can always consult with the panel of Adjudicators at the competition and/or Supervisor. The final decision is made by the Chairperson.

4. All Warnings, Suggestions for Disqualification and Actual Disqualifications must be announced three (3) times by the moderator and posted in the Check-in office after the round in which the infraction has been made. The Chairperson of Adjudicators communicates only with the Team Captain. If the Team Captain is not present and the warning cannot be given in person or writing in time to correct it, the dancer will be disqualified in the next round.

5. In cases where a Suggestion for Disqualification is issued by more than 50% of the Adjudicators, this must not influence the Chairperson of Adjudicators’ decision to disqualify the competitor(s).

6. In cases where a competitor is disqualified, he or she, group or a team will have no placing and will be marked with a D.

7. DIRECT DISQUALIFICATION:
   This is used when there is only one, final presentation round or if the infraction has been done in the finals for the first time. In this case the Chairperson will discuss the problem with the Adjudicators on how the matter will be handled. In cases where a Suggestion for Disqualification is issued by more than 50% of the Adjudicators, this must not influence the Chairperson of Adjudicators’ decision to disqualify the competitor(s).

   If and when a problem arises the final decision should be made by the Chairperson and Supervisor.

   Infractions where a direct disqualification is obligated/can be issued:
   - wrong age division
   - tempo of music
   - length of music
   - obvious wrong discipline
   - lifts
   - acrobatics
8. DISTRIBUTION OF PLACING IN CASE OF DISQUALIFICATION

1.1 Each round is an absolute round and a separate ranking competition.

In the case of disqualification, the disqualified performance receives the last position of the round that is marked in the result list as “D” and receives “no placing”.

All the performances in that specific round will be moved up to replace the void of the disqualified performance according to the scores in that round given by the adjudicators before the disqualification.

EXAMPLE:

In a semifinal there are 12 performances competed. After the round the adjudicators have ranked all of them and the one that should be number 10 has been disqualified.

The performances with the majority of crosses are qualified to the next round and the D has no impact on them.

The placing before the “D”:
7. Mia
8. Erica
9. Alexandra
10. Fiona (D)
11. Pava
12. Nina

The distribution of placing will be as follows:
7. Mia
8. Erica
9. Alexandra
10. Pava
11. Nina
D Fiona
13. Mojca
14. Carla …

In the final result list the 12. place will not be given but it is marked as “D”. The placings from previous rounds stay as they are.

1.2. In case the winner has been disqualified, a re-dance between the 2. and 3. place has to take place to define the new winner. All other places are distributed as the example before.

The placing before the D:
1. Slovenia (D)
2. Poland
3. Finland
4. BiH
5. Germany
6. Russia
7. Japan

The distribution of placing will be as follows:
1. Re-dance between Poland and Finland for 1st and 2nd place
2. Re-dance
3. BiH
4. Germany
5. Russia
6. Japan
D Slovenia

In the final result list the 7. place will not be given but it is marked as “D”. The placings from previous rounds stay as they are.

9. All Warnings, Suggestions for Disqualification and Actual Disqualifications must be announced to the team captain involved by the Chairperson of Adjudicators. During the competition protests regarding warnings, disqualification or direct disqualification can only be submitted to the IDO Chairperson of Adjudicators immediately after the round concerned and only by the official national Team captain.

In case of a subsequent round the protest has to be submitted after the round concerned and before the beginning of the next. Later protests shall not be considered
10. The IDO Supervisor and Chairperson of Adjudicators must be able to make decisions quickly and balance with appropriate measures that are required under the circumstances.

11. In the Street Dance disciplines, the Adjudicators will not deduct points when they see someone leave the floor before the end of the music, but will write a “W” as a warning and the Chairperson will notify the dancer/s that if he/they repeat the infraction in the next round he/they will be given a “D” and disqualified.

If this infraction happens in the final round, the Chairperson of Adjudicators will give a “W”, the marks will be given and a decision will be made as to how to handle the situation.

Coaching, directing or otherwise motivating dancers by their coaches or assistants during a performance is strictly prohibited and may result in the disqualification of the dancers. This rule applies to all IDO disciplines.

5.2 COMPLAINTS AND CHECKING OF CREDENTIALS

Complaints

- All complaints must be made in writing by Team Captains only, and be accompanied by a fee of 25 EUR.
- If a complaint is found valid, and ruled on by the IDO officials present, the fee will be refunded.
- The fee will be retained by the IDO if it finds that a filed complaint is not valid.
- All complaints must be made in writing and given to the Supervisor of the competition, with a copy to the Chairperson of Adjudicators and the IDO President, within 7 days of the last day of the competition.
- All decisions that can result in any changes of the national team performing at the competition have to be in written form and signed by the Supervisor, IF REQUESTED BY THE TEAM CAPTAIN.

Complaints sent to the IDO must be answered within maximum 15 working days.

(AGM 2019, Implementation with immediate effect)

Checking of Credentials

- The Supervisor and Chairperson of Adjudicators, along with the Organizer, have the right to call for a credentials check at any time during the competition.
- Spot checks of credentials will be conducted at all IDO Events.
- If asked to do so, all selected competitors must show their passports or official National Identification Cards.
- Competitors will be given a reasonable amount of time to supply this information. Failure to do so may result in immediate disqualification.

Gross non-conformation to the rules or deliberately misrepresenting one’s age or other application information may result in immediate disqualification at the Event and / or a suspension of the guilty party's IDO license for a time period determined by the Disciplinary Committee after a full investigation and hearing.

The Inherent Problems of Evaluation and Estimation in Sport and Dance

From a psychological standpoint, the value and reliability of an evaluation is based on the belief that a human being is able to render an objective and exact evaluation of a given subject.

Many different opinions have been put forward about the inherent problems of objectivity and subjectivity of measurement, evaluation and estimation. Virtually everyone agrees that total objectivity in evaluations and estimations is quite hard to reach. As the subject becomes more general and undefined, it becomes increasingly more difficult to render an objective evaluation. In such cases the evaluation is quite subjective.

Human beings render evaluations and estimations. Errors in judgment due to one’s emotional involvement, desire for personal gain, desire to fit in with one’s peers, views on morals and ethics, familial relationships and many other factors will always be inherent to the evaluation process. For this reason, every evaluator, coach, trainer and competitor should be aware of the following:

An evaluation is always influenced by the evaluator’s attitudes, viewpoints and opinions.

The six most frequently encountered mistakes and errors of judgment in evaluation are:

1. Easy / tough estimation errors
2. Central tendency errors or ‘average’ mistakes
3. “Halo” effect errors
4. Logical errors
5. Contrast errors
6. Closeness errors

Easy / Tough Evaluation Errors

These errors occur when favoritism or bias is allowed to intrude into the evaluation process. The people responsible for making fair and objective decisions appear to be too easy in some evaluations or too tough in others.

Easy evaluation errors include the tendency to estimate someone more favorably if the evaluator knows him or her personally and / or the evaluator is more interested in one particular person or persons than the other contestants present. The evaluator will often overlook faults in his or her ‘favorites’ while ignoring quality in others because the evaluator could possibly gain something from his or her decision. This tendency frequently occurs when the estimator wants his or her team, school or country to succeed at any cost. But, due to human nature, the Easy / Tough error is usually associated with an emotional relationship or attachment between the evaluator (Adjudicator) and one particular athlete or dancer.

Even weak or one-sided emotional relationships can cause the evaluator’s judgment to become biased. An evaluator might view a person in a manner that is not reciprocated, but will, because of desire or even an imagined attachment, make decisions that he or she would never make in other circumstances.

The following three situations can be especially problematic for an evaluator (Adjudicator):

1. If he or she is a member of a dancing club or group and will also be evaluating those dancers.
2. If he or she is a parent of the competing dancers, or has some other familial relationship with them.
3. If he or she must evaluate competitors from his or her own country. The Easy error almost always appears when the evaluator:
A) Knows a dancer or dancing couple personally;
B) Is also their supporter, and;
C) Wishes them to win.

Subliminal stimuli that the evaluator is not even aware of often cause this type of evaluation error. Oddly enough, this tendency can cause a response that is the exact opposite of what is considered normal in such situations. Sometimes, the evaluator is overly aware of a personal involvement of some sort with the person or persons he or she is evaluating. In these cases, the evaluator becomes more critical of each and every movement or performance presented by persons he or she knows personally.

This is especially true if the evaluator feels that he or she may be perceived as one who either does or could show favoritism for some reason. In an effort to prove this is not true, he or she becomes unfair to the contestants and is often guilty of ‘tough’ evaluation errors. For instance: An evaluator could place much more stringent demands on his or her son or for a World Champion that is a close personal friend or relative of the evaluator. This type of ‘tough’ error also causes a mistake in the process of evaluation, and would place doubt on the reliability of the evaluator’s decision.

Central Tendency Error or “Average” Mistakes

The issue of this type of error is that the evaluator (Adjudicator) tries to avoid extremes of evaluation. In these cases, the dancer, due to justifications not based on the dancer’s ability, is evaluated in the central or “average” range. Such evaluation is often observed when the competing dancers are new and the evaluator knows little or nothing about them. Not knowing how these new dancers will be perceived by other evaluators present, such dancers are sometimes unfairly placed in the central or ‘average’ range simply because the evaluator desires to avoid criticism from his or her peers for being too easy or too tough.

The actual quality of the performance is overlooked in such cases. Competitors are given scores in the average range because the evaluator is attempting to avoid an imagined mistake by allowing the possibility of unfavorable comments from his or her peers to cloud his or her decision. Central tendency or ‘average’ mistakes are based on nothing more than social interaction with, and the opinions of, one’s peers. This is something all evaluators should guard against.

“Halo” Effect Errors

This type of evaluation error has been discussed since as far back as 1907. Halo Effect Errors are caused by the same factor that sometimes cause parents to think that their child is an angel and can do no wrong. A Halo Effect Error is merely a tendency to evaluate all characteristics of a dancer from a mental impression or a viewpoint based solely on that dancer’s past accomplishments instead of what that dancer is presenting during the current evaluation.

If reigning World Champions give a poor performance, the Halo Effect will often kick in and give them higher scores than their performance merits. If the evaluator knows a dancer personally, and knows that he or she is capable of performing at a higher level due to past performances, poor performances are often overlooked. In one sense, this type of judgment error is the most biased of all. It creates an unfair advantage to the recipient while not taking into account the often times excellent performances of others. The exact opposite sometimes occurs when someone who is perceived as always performing poorly truly excels. Such accomplishments are overlooked due to the evaluator’s preconceived idea regarding how that dancer has performed in the past.

Such errors can be recognized in the similarity of scores among the various parts of a performance’s evaluations. Due to a Halo Effect Error, poorly defined or rarely mentioned characteristics and even the evaluator’s personal and subjective values become involved. This involves factors outside of the actual performance, such as moral characteristics, honesty, being a good person, and so on. In these cases, a performer who is known to be rude, arrogant, or dishonest will be evaluated on those characteristics, which have nothing at all to do with the actual performance. Likewise, a less capable dancer may be viewed more favorably because he or she is always honest, thoughtful, kind and caring.

Even the interaction or interpersonal relationship of the dancers can cause Halo Effect Errors. If a couple has a personal relationship that is not working well and this is affecting their performances, evaluators will often ‘make allowances’ for the tensions caused by the personal relationship that are affecting the actual performance.
When a new partnership is formed and the evaluators feel it will be a good match because both performers have a good record from the past, they will often be more lenient in their evaluation than is merited by the actual performance.

Evaluators should look closely at what is actually being presented, not what they perceive from prior performances or how they view the performer as a person. We are not asked to make moral judgments when evaluating dance, and should avoid this at all cost.

Logical Errors

Evaluators who incorrectly link unrelated characteristics to one another from the logical standpoint that they are similar make Logical Errors. For example: If the evaluator believes that a performer’s exactness and his or her coordination are related, then the dancer’s exactness in movement and his or her coordination will be evaluated similarly, no matter how each of the real components of the performance were executed.

Logical Errors are related to the consistency inside the characteristics of dance, and the dancer’s role is of relative unimportance to this aspect of evaluations. Unlike the previously discussed errors, Logical Errors may appear while evaluating any dancer. Logical Errors can be avoided by making evaluators aware that their evaluations must be based on characteristics that are concrete and can be physically observed. Evaluators must be made to realize that it is a mistake to use logic to associate abstract characteristics. Training in this area should proceed with all possible haste in an effort to eliminate Logical Errors to the best of our ability.

Contrast Errors

Contrast Errors occur when an evaluator allows his or her preferences in style, creativity, ability, skill level, and so on, affect his or her evaluation by merely contrasting a performance against those preferences. He or she will evaluate all dancers based on how he or she would evaluate his or her own performance. This type of error appears more frequently if the evaluator is a more active dancer and coach. If he or she views compatibility between dancers highly, and thinks he or she is (or was) compatible with his or her partner, then all other dancers are evaluated on the basis of how their compatibility compares or contrasts with the evaluator’s.

Some evaluators are more likely to make Contrast Errors if they have a close relationship with the person or persons being evaluated. He or she will unfairly contrast one or two performers due to such relationships, but will be extremely fair to all others. Contrast Errors are often made by less emotionally stable evaluators who are unable for some reason to separate their work from their personal feelings and emotions.

Closeness Errors

In this type of error, characteristics that are closer together in sequence are evaluated more similarly than those that are evaluated farther apart. This is due to the mixing problem of evaluating characteristics of individual components of a performance. If we evaluate more characteristics or components of a performance, our mind insists that those characteristics of components that are close together will be more similar than those that are farther apart. The problem is in the evaluator’s own mind, but creates a subjective evaluation that affects the final result. Concentrating on the evaluation of specific components can control such errors.

The Sources of Evaluation Errors

- The variability among evaluators.
- The interaction between evaluators and dancers.
- The relation between evaluators and evaluating characteristics of dancers.
- The error of interaction between evaluating components and characteristics.

Suggestions for Improvement of Evaluation

All these errors warn us that judging evaluations can never be done in a totally objective manner. A large amount of subjectivity will always present in the evaluation process. We can and should take steps to remove as many errors from the process as possible. Some steps to take toward that goal are:

1. Provide better training for Adjudicators so that they are more aware of the types of errors and what causes them.
2. Define more clearly the areas and characteristics to be evaluated.

3. In a limited field, it is nearly impossible to use Adjudicators who do not know some or all of the dancers. But, whenever possible, we should choose Adjudicators for a competition who have no strong relationship to any dancer in that competition.

4. Discard competitors’ highest and lowest scores.

5. Standardize instructions and issue warnings according to the object of evaluation beforehand.

6. Compare evaluations in meetings and seminars and warn Adjudicators who make repeated mistakes.

7. Wherever possible, eliminate the subjective impression of the evaluator (Adjudicator) and use a more objective scale in the evaluation of all performances.

In addition to all previously discussed errors, the following errors also occur:

- Beginning Errors
- Ending Errors
- Referent Group Errors

**Beginning Errors** are similar to ‘Tough’ evaluation errors. When we must evaluate a series of performances, we are often too ‘Tough’ on the early performers because we are still waiting for something ‘better’ to come along. Those beginning performers receive poorer evaluations than they really deserve. Beginning Errors are minimized when the evaluation for every dancer is made at the end of the performance series. But the problem still exists since, in our minds, we made a partial evaluation for every performance as the series progressed.

**Ending Errors** usually occur when all the ‘good’ dancers have finished their performances. The expectations of the evaluators are lower at this point, so the remaining dancers are evaluated against an unfair standard and receive lower scores. This error is seldom a problem in final rounds of competitions, but it can be quite a problem in the earlier rounds where far more dancers are being evaluated.

**Referent Group Errors** occur when evaluators have a tendency to choose the best dancers in a group of dancers. In such cases, a merely average couple will, through reference, be ‘good’ among a field of bad competitors. Since the referent group contained a majority of below average competitors, a merely average performance will be brought forward to subsequent rounds due to an erroneous process. At that point, this error is further compounded due to the Halo Effect Error discussed earlier. Evaluations resulting from a Referent Group Error are mostly unreliable.

**Author’s Note:**

At the end I would like to emphasize that, even if we are unaware of it, all these errors are very present in the process of evaluation. We must do as much as is possible in trying to minimize such errors through education, recognizing where and when these errors are likely to occur, and by balancing adjudication panels as far as possible.

ANNEX 2: OFFICIAL IDO FORMS AND EXAMINATION STUDY NOTES

The following information is provided as a study guide for persons preparing for the IDO Adjudicator’s Examination. Each candidate will receive between 12 and 20 questions from the pool of questions listed in this section. All questions have been answered, and the correct answer to each YES / NO, MULTIPLE CHOICE or TRUE / FALSE question has been bolded, italicized and underlined, as in question 1 below.

All examinations will be altered at each seminar to avoid people passing on answers. These are just example questions.

**The Three Dimensional (3-D) Scoring System**

1. IDO calls its judging system the Three Dimensional (3-D) Scoring System because three separate dimensions of each routine are evaluated.
   - True  False

2. Briefly explain what is evaluated in the technical dimension of a competitive routine
   *The degree of skill or command of the fundamentals that are exhibited in any performance. Adherence to the basic fundamentals that were set by the creators of the discipline being performed.*

**General Questions Related to Judging, Conduct & Judging Procedures**

3. Is your spouse or companion allowed to sit with you while you are judging?
   - Not unless he or she is your official interpreter.

4. The Chairperson of Adjudicators must be away to solve a problem elsewhere and asks you to fill in for him / her. What would be your duties?
   - List all of the following in your answer
     *To ensure that the competition is carried out in accordance with the Official IDO Rules.*
     *To submit the Official Adjudicators’ Report to the IDO Head Office within ten days after the conclusion of the event. The results of the competition become final with the Chairperson’s report.*
     *To handle all problems referred to the Chair by the Adjudicators, and to designate a person or persons to act in this capacity when the Chairperson will be absent for any reason.*
     *To appoint, with the approval of the Supervisor, a substitute adjudicator to replace any nominated adjudicator who fails to appear at the competition.*
     *Making a decision, in cooperation with the competition Supervisor, to disqualify any competitor.*

5. During or after an IDO Event, what should you do if an angry observer approaches you?
   - *Do not defend your actions and immediately report the incident to the Chairperson of Adjudicators, who will take immediate action to have the person removed from the competition site.*
   - *Leave the person’s company immediately and report the incident to the Chairperson of Adjudicators, who will then remedy the situation as seems best.*

**IDO Dance Sport Rules**

6. How is the dancer’s age determined?
   - *By the year of birth as it falls within the calendar year of the competition.*

7. In the Junior Division, what age range is allowed for a duo / couple?

ANNEX 3

THE PERSONALITY OF AN ADJUDICATOR
Prepared by dr. Meta Zagorc, University of Ljubljana, Slovenia

Test:
When did we -as an adjudicator- read the last book, saw a special dance show or we went to see the related sports (gymnastics, rhythmic gymnastics, skating ...)?
What are we still capable of dancing? Are we still capable of any artistic creation?
Have we seen the last painting exhibition in our town?
Being a dance adjudicator is an extremely responsible task. What do we expect of the personality of an adjudicator?
What is his responsibility to himself and to the others - dancers, audiences, national federation, world organization?

1. The adjudicating is like a "profession"!
Adjudicating requires the highest possible qualification. This includes knowledge and experiences. Judging needs training! "Having an Eye" is a practice that encompasses the capabilities of quick judgment and recognition of body language. This requires special talent, continuous learning and refinement. It's not enough that you are a dancer; you must be a craftsman and an artist at the same time!

Knowledge relates to:
- dance technique
- history and origin of dance
- knowledge of the theory of music and rhythm
- knowledge of sports coaching
- knowledge of the principles of choreography
- knowledge of the variety of dance styles
- own creative abilities
- knowledge in the field of aesthetics, art
- the ability to perceive beauty
- knowledge of communication, expressiveness
- knowledge of originality and kitsch
- knowledge of psychology

With knowledge we assess the technical value, which includes:
- the posture
- weight transfers, body centering
- time, space, energy
- the purity of the form
- quality of movement
- rules for the implementation of elements of movement, characters, figures
- rhythmic interpretation, musicality,
- controlled contractions and relaxation,
- dynamics
- biomechanical laws of movement

We also evaluate various abilities and characteristics of dancers:
- physical (body appearance, design)
- functional (power, endurance, flexibility, balance, elasticity, precision, etc.)
- psychical (stability, personality, experience, relationships, etc.)
- "acting"
- special (dance abilities, tracking, guiding, etc.)

2. The adjudicating is like being a "critic" and "an artist" at the same time!
We evaluate the artistic work, just like a critic evaluates drama or musical work or just published book. Our knowledge of technique is the most important in judging but at the same time we need to know the lows of art, the originality of dancing. It is necessary to recognize what we saw on the technical side and also in terms of style, expressiveness - everything that defines a dance according to artistic value.

We need to know the ideal, what is the best in the time when we are judging. But ideals always fluctuate according to the values of the particular environment from which we come from. The evaluating is more than just our personal opinion - depending on the values of the country from which we are. Also different continents can influences the assessment by which a judge evaluates a certain "dance performance".

We value the artistic impression! This includes:
- expression of dancers, a dance couple, a group or formation
- choreography, composition, space, time, dynamics
- performance, image, interpretation
- presentation, personality, charisma
- characterization of dance
- communication in pairs, groups, formations
- "touch" of the audience
- originality

The subject of the evaluation is also:
- abilities
- skills
- personal impression
- reliability
- communicativeness
- name
- harmony

3. The adjudicating is like being a "psychologist"!
The adjudicating requires a mature personality! At the same time it requires continuous work on ourselves! How to feel a dancer? How to recognize his ability to communicate in pairs, group, formation with viewers with us -judges. Are we capable of "touching of the dance performance"? Are we able not only to "watch," but to "see" ?!

The adjudicator must be able to recognize talent, technique and ideal style, originality, aesthetics. Therefore we must have knowledge of:
- top dance performance,
- art,
- trends, styles, fashion
- the elements of various dance categories

We must recognize how the dancer through his technique "display" the impression of excellence. When evaluating the dancers, we need to perceive the partnership, interdependence, dramaturgy, freedom of movement. We need to recognize the cleanliness of dance, tradition and modernity! But we also need to recognize the joy of dancing, the pleasure of movement, the colorfulness of expression.

4. The adjudicating is like being a "real judge"!
The adjudicator must be objective! It is always a question till where we can be objective and where does our subjectivity begin? What do we judge - dance or people? How do we judge when the dancer, couple, group, formation comes from our country?! We must be impartial! Reliable, circumspect, fair! To be trusted, consistent, concentrated, mastered! Inexcusable, unbreakable, morally unworthy! This includes professional ethics, moral principles!

We should never forget to rate everything according to the age of the dancers!

5. The adjudicating is like being a "creator"!
The development of dance, the direction of the work of coaches and dancers, the thinking of where we are and where the development is, depends on our judgments! It is up to us to judge what is best. Are we responsible enough?! It is often happened that judgments differ, although in principle they are based on the same criteria. Although as judges, we are different, we should be able to answer why our decision is so different from final results, what we have been guided by a certain assessment. It is necessary to be able to defend our assessment with a few more arguments than just "I like it".

The adjudicators are spreading the horizon of the profession. Horizon depends on knowledge and inner conviction, what is good. The assessment reflects our decision on where the development of dance is. What is our vision of progress? Judging is a high profession!
The adjudicator usually keeps on a "duel" while comparing, evaluating, recognizing, deciding, etc. Knowing the rules, the way of dancing and evaluating the quality are always related to the assessment of the comparability of couples, dancers, groups and our evaluations.
What is correct? Separate the best among the good! Know what makes the champion! Find out the artist. Recognize energy and power in conjunction with the lyrics! Be sensitive enough, that dancer can touch you… Can we recognize and reward originality? What’s special? What is the relationship between technical value and artistic impression?! Are we misled by cheap effects, glitter? Are we being misled by the exaggeration? The external impression?! Do we condemn grotesqueness, pathetic, grimaces, masquerade, extravagance, cheapness and reward an aesthetic, artistic look, enjoyment of dance …? Do we recognize the dignity, the personality of the dancers?
6. The adjudicating is a "play on stage"

As the adjudicators we stand in the "headlight". We are seeing by dancers, audiences, trainers, journalists ... We are exposed in all our essence - not just before others, but also before ourselves! How do we stand, walk, look? It all reflects our personality! How are we dressed? Do we have a professional attitude towards ourselves and dancers? How are we looking during the judging? How do we behave before and after the judging? Do we communicate with our dancers? Do we know the code of ethic?

Each of us has his own view, but there are eternal laws of harmony, golden cut, virtuosity and charisma.

As adjudicators we must always look for the way to be the best! Career is personal development. It is a certain sequence of attitudes, motives, emotions, doubts, behavioral patterns, decisions. Success is conditioned by our readiness and knowledge and exploitation of the opportunity.

What about our personal development? Do we pay enough attention to it? Are we capable of enjoying dance, recognizing shades that separate dancers from each other! Do we recognize the physical, emotional, mental and spiritual components?! Are we able to interrupt our world events with our personality?
